This book is for those Louisiana slaves (and all the American slaves) whose labor was forced without regard to their humanity, even further, with unrestrained disrespect for their existence.

This book is a tribute to the indigenous (originated in or native to the region) Black people of Northeast Louisiana, those folk who were reared in the rural areas, villages, and small towns; who worked on the farms and plantations; sharecropped; cleared all the land; tended all the livestock; planted and harvested all the crops; cooked for, babysat, and cleaned the homes of White folk; and endured the hardships of it all. This is a tribute to those laborers and professionals who strived for better lives for themselves and their families; the people who remained in Monroe, those who migrated to Monroe to make it a fine place to call home, and those who returned to the warmth of Monroe to live; and also, to those who left the area and moved on to other parts of the United States and world. I want to thank them all for

trusting me with their stories.

Child Rights and Remedies provides a comprehensive examination of how United States law and policy affects the lives and futures of children. This law school text covers a broad spectrum of major cases, statutes, and relevant empirical evidence that illustrate how children are faring in light of how our legal and political systems function. "Professor Robert C. Fellmeth, the master of child rights and remedies and the long-time maestro of child advocacy, presents his Magnum Opus to inform our intellects, challenge our consciences and galvanize our motivation on behalf of children who will either inherit our derelictions or our beneficent foresight. This book works as a very comprehensive recruiter for students and other citizens who wish to help build a society and culture that nurtures the young into fulfilling their life's possibilities." — Ralph Nader "Professor Jessica Heldman is a distinguished expert in children's law and policy with years of experience working with advocacy organizations and state child welfare and juvenile justice systems

to improve the treatment of children. Alongside Robert Fellmeth, Jessica Heldman provides a comprehensive treatise on children's rights, including children as individuals, as a class, and as a political voice for reform. Professor Heldman's scholarship and leadership will help advance children's rights for years to come. This book is an essential read for all children's advocates." —Kim Dvorchak, JD, Executive Director, National Association of Counsel for Children

This comprehensive volume offers a snapshot profile of every public school district in the United States serving 2,500 or more students. You'll find important contact information for each school district (name, address, phone number and web site) plus Grades Served, the Numbers of Students and Teachers and the Number of Regular, Special Education, Alternative and Vocational Schools in the district. Also, The Comparative Guide to American Elementary & Secondary Schools provides statistics to help evaluate educational programs including Student/Classroom Teacher Ratios, Number of Librarians, Number of Guidance

Counselors, District Expenditures per student and a National Socioeconomic Indicator for the District. A useful City Index lists all districts that operate schools in the city. These important comparative statistics are necessary for anyone considering relocation or researching a particular school district and would be a perfect acquisition for any public library.
