Il chassidismo è stato rivelato

prevalentemente dalle antologie di leggende di Martin Buber o dalle opere di Gershom Scholem sulla mistica

ebraica. In questo studio magistrale, Jean Baumgarten costruisce la prima sintesi su questo movimento: dalla dimensione teologica alla sua organizzazione sociale, dai costumi religiosi alle tecniche mistiche. Un approccio originale che permette di capire come è nata la rottura tra ebraismo rabbinico e chassidismo. A partire da un'abbondante letteratura, questo studio consente di collocare il chassidismo nella storia della mistica ebraica, ma anche di individuare la novità dottrinale dei primi maestri, e permette di comprendere come, rispetto all'ebraismo tradizionale, la "dissidenza" chassidica sia diventata una delle forze vive dell'ultra-

ortodossia. *Comptes-rendus des séances* Liverpool University Press
 A riveting account of a landmark expedition that left only one survivor, now back in print for the first time in decades. Arabia Felix is the spellbinding true story of a scientific expedition gone disastrously awry. On a winter morning in 1761 six men leave Copenhagen by sea—a botanist, a philologist, an astronomer, a doctor, an artist, and their manservant—an ill-assorted band of men who dislike and distrust one another from the start. These are the members of the Danish expedition to Arabia Felix, as Yemen was then known, the first organized foray into a corner of the world

unknown to Europeans. The expedition made its way to Turkey and Egypt, by which time its members were already actively seeking to undercut and even kill one another, before disappearing into the harsh desert that was their destination. Nearly seven years later a single survivor returned to Denmark to find himself forgotten and all the specimens that had been sent back ruined by neglect. Based on diaries, notebooks, and sketches that lay unread in Danish archives until the twentieth century, Arabia Felix is a tale of intellectual rivalry and a comedy of very bad manners, as well as an utterly absorbing adventure. Arabia Felix includes 33 line

drawings and maps. **Della Istoria Ecclesiastica** Simon and Schuster Archives are considered to be collections of administrative, legal, commercial and other records or the actual place where they are located. They have become ubiquitous in the modern world, but emerged not much later than the invention of writing. Following Foucault, who first used the word archive in a metaphorical sense as "the general system of the formation and transformation of statements" in his "Archaeology of Knowledge" (1969), postmodern theorists have tried to exploit the potential of this concept and initiated the "archival turn". In

recent years, however, archives have attracted the attention of anthropologists and historians of different denominations regarding them as historical objects and "grounding" them again in real institutions. The papers in this volume explore the complex topic of the archive in a historical, systematic and comparative context and view it in the broader context of manuscript cultures by addressing questions like how, by whom and for which purpose were archival records produced, and if they differ from literary manuscripts regarding materials, formats, and producers (scribes). First published in 1952, the International Bibliography of the Social Sciences (anthropology, economics, political science, and sociology) is well established as a major bibliographic reference for students, researchers and librarians in the social sciences worldwide.
Key features: *
Authority: Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced. Articles

and books are selected on merit by some of the world's most expert librarians and academics. * Breadth: Today the IBSS covers over 2000 journals - more than any other comparable resource. The latest monograph publications are also included. * International Coverage: The IBSS reviews scholarship published in over thirty languages, including publications from Eastern Europe and the developing world. * User friendly organization: all non-English titles are word sections. Extensive author, subject and place name indexes are provided in both English and French. Oeuvres complètes de Bartolomeo Borghesi Editoriale Jaca Book Winner of The 2018

Saidi-Sirjani Book Award The Western Christian Presence in the Russias and Qājār Persia, c.1760–c.1870 recalls two long neglected European and North American missionary ventures in the Caucasus and Imperial Persia. It investigates the activities of Protestant and Catholic missionaries and provides valuable insights on the social and political backdrop of their experiences.
