Part B consists of five speaking tests and covers a wide variety of topics such as the media, the environment, unemployment, etc. Each speaking test is preceded by a speaking practice section. ECPE Michigan Proficiency Listening and Speaking Test Book OUP Oxford

This book is relevant for language testers, listening researchers, and oral proficiency teachers, in that it explores four broad themes related to the assessment of L2 listening ability: the use of authentic, real-world spoken texts; the effects of different speech varieties of listening inputs; the use of

audio-visual texts; and assessing listening as part of an interactive speaking/listening construct. Each theme is introduced with a review of the relevant literature, and then is examined through either two or three empirical studies. The notion of authenticity underlies each of these four themes. By creating more authentic test tasks that are similar to real world language tasks, test developers can create listening assessments that not only more effectively assess test takers' communicative competence, but can also have a positive washback effect on educational systems.

Listening and Speaking Skills for Revised Cpe Cambridge English

This book challenges the orthodox approach to the teaching of second language listening, which is based upon the asking and answering of comprehension questions. The book's central argument is that a preoccupation with the notion of 'comprehension' has led teachers to focus upon the product of listening, in the form of answers to questions, ignoring the listening process itself. The author provides an informed account of the psychological processes

which make up the skill of listening, and analyses the characteristics of the speech signal from which listeners have to construct a message. Drawing upon this information, the book proposes a radical alternative to the comprehension approach and provides for intensive small-scale practice in aspects of listening that are perceptually or cognitively demanding for the learner. *Listening in the Language Classroom* was winner of the Ben Warren International Trust House Prize in 2008.
