Money is more than just a medium of financial exchange: across time and place, it has performed all sorts of cultural, political, and social functions. This volume traces money in German-speaking Europe from the late Renaissance until the close of the twentieth century, exploring how people have used it and endowed it with multiple meanings. The fascinating studies gathered here collectively demonstrate money's vast symbolic and practical significance, from its place in debates about religion and the natural world to its central role in statecraft and the formation of national identity.

The Art of Richard Tuttle Burns & Oates

Since the 1970s, in collaboration with renowned printers and publishers, Richard Tuttle has produced almost 300 prints. In sensitively exploiting the unique possibilities of printmaking to make process, materials and actions visible, Tuttle explores the complexity of printmaking processes. Prints is the first monograph

on Tuttle's printmaking to be released in the summer of 2014 in conjunction with an exhibition at the Bowdoin College Museum of Art, Brunswick. Edited by Christina von Rotenhan, author of the planned online catalogue raisonné of Tuttle's prints, this publication introduces not only the artist's unique approach to printmaking with profound scholarly essays, artist statements and catalogue entries for selected prints between 1973 and 2013, but also reveals the artist's deep interest in the collaborative nature of printmaking. The timing of the publication is important as Richard Tuttle has also been invited to realise an installation in the autumn of 2014 in the Tate Modern Turbine Hall. The large-scale installation will provide a powerful counterpoint to the more intimate works from his printed oeuvre. Published with Bowdoin College Museum of Art, Brunswick.

The Last Days of Mankind BRILL

...Als die Noten laufen lernten... bezieht sich auf eine Zeit, als sich Pop noch Unterhaltungsmusik nannte und ihre Komponisten Erfolge ohne Ende verbuchen konnten. Das ehemals große k.u.k. Österreich mit der Achse Wien-Berlin war der Nabel der Welt und ein Wegbereiter der heutigen Popmusik! Eine verrückte Zeit mit

ebenso witzig verrückten Kreativen, die die Musik rocken ließen. Nun war es mir möglich, völlig neue Erkenntnisse in die Biografien der U-Musik-Komponist*innen in drei Bänden einfließen zu lassen - ihre Geschichte und Geschichten. Sie schufen die Urform der U-Musik über Operette - Revue - Kabarett - Schlager - Chanson - Song - bis zur Filmmusik. Zwei Weltkriege und besonders ein Unheilsbringer sorgten dafür, dass die meisten von ihnen nach WW2 absichtlich in Vergessenheit geraten worden sind - bitte lesen Sie selbst!

The family into which Mozart was born has never received a rigorous contextual study which does justice to the complexity of its relationships or to its interactions with colleagues, friends, and neighbours in Mozart's native city, Salzburg. Most biographies of Mozart have undervalued the many passages in the rich family correspondence which do not bear directly on him. This book draws on the neglected material, most of which has never been translated into English. At the heart of the work is a detailed examination of the letters, supplemented by little-known archival material from the papers of the Berchtold family, into which Mozart's sister Nannerl married. Additional information concerning Salzburg's local history, especially the working conditions at court and the provision for dependants of court employees, enables the hopes, expectations, and fears of the Mozarts to be located in the context of the social conditions there. As well as providing a sympathetic account of the other members of the family, all of whom were profoundly affected by the experience of sharing their lives with Mozart, this approach gives new significance to the events of Mozart's life; not only are they set against the background of his family's expectations of him, but the ways in which the source material has to be used for this purpose necessarily involves fundamental improvements in its interpretation. Ruth Halliwell challenges most previous views of the characters in Mozart's family (especially of his father, Leopold), and of the relationships within it. She also introduces a wealth of characters from the Mozarts' circle in Salzburg, from chambermaids to princes, and demonstrates the relevance of the gossip stories the Mozarts told about them to the larger outlook of the members of the family. In an important final section, Halliwell traces the roles of Nannerl and Mozart's wife Constanze in using, controlling, and handing on the biographical source material after Mozart's death. She discusses their dealings with publishers such as Breitkopf and Hartel, and with the authors of the earliest biographies of Mozart. This complex topic here receives an account which not only illuminates the characters of both women and the relations between them, but also addresses the question of how myths were able to creep into the Mozartian biography at so early a stage and take tenacious hold.

Highly controversial but impeccably researched, *The Real Messiah* explodes the myth that Jesus was the long-prophesied Messiah of the Jewish nation. Indeed, it argues that Jesus never claimed that role but thought of himself as herald to the true Messiah: Marcus Julius Agrippa, the last King of the Jews and Jesus' contemporary. It was he who truly founded what became known as Christianity, and wanted to build a faith to which anyone could aspire. Though Marcus Agrippa was initially successful, with the passing of time those in charge of the new faith capitulated to the whims of successive Roman Emperors and centered their religion on Jesus instead.

Racism, extremism, anti-democratic sentiment - our increasingly polarized world is dominated by a type of thinking that doubts others' positions but never its own. In a powerful challenge to fundamentalism in all its forms, Carolin Emcke, one of Germany's leading intellectuals, argues that we can only preserve individual freedom and protect people's rights by cherishing and celebrating diversity. If we want to safeguard democracy, we must have the courage to challenge hatred and the will to fight

for and defend plurality in our societies. Emcke rises to the challenge that identitarian dogmas and populist narratives pose, exposing the way in which they simplify and distort our perception of the world. *Against Hate* is an impassioned call to fight intolerance and defend liberal ideals. It will be of great interest to anyone concerned about the darkening politics of our time and searching for ways forward.

The story of the curse made famous by the hit show *Dead to Me*

The Petrified Forest National Park in Northeast Arizona protects one of the largest deposits of petrified wood in the world. Despite

stern warnings, visitors remove several tons of petrified wood from the park each year, often returning these rocks by mail (sometimes years later), accompanied by a "conscience letter." These letters often include stories of misfortune attributed directly to their theft: car troubles, cats with cancer, deaths of family members, etc. Some writers hope that by returning these stolen rocks, good fortune will return to their lives, while others simply apologize or ask forgiveness. "They are beautiful," reads one letter, "but I can't enjoy them. They weigh like a ton of bricks on my conscience. Sorry..." *Bad Luck, Hot Rocks* documents this ongoing phenomenon, combining a series of original photographs of these otherworldly "bad luck rocks" with facsimiles of intimate, oddly entertaining letters from the park's archives.
