For the past 140 years, Germany has been the central power in continental Europe. Twenty-five years ago a new German state came into being. How much do we really understand this new Germany, and how do its people understand themselves? Neil MacGregor argues that, uniquely for any European country, no coherent, overarching narrative of Germany's history can be constructed, for in Germany both geography and history have always been unstable. Its frontiers have constantly shifted. Königsberg, home to the greatest German philosopher, Immanuel Kant, is now Kaliningrad, Russia; Strasbourg, in whose cathedral Wolfgang von Goethe, Germany's greatest writer, discovered the distinctiveness of his country's art and

history, now lies within the borders of France. For most of the five hundred years covered by this book Germany has been composed of many separate political units, each with a distinct history. And any comfortable national story Germans might have told themselves before 1914 was destroyed by the events of the following thirty years. German history may be inherently fragmented, but it contains a large number of widely shared memories, awarenesses, and experiences; examining some of these is the purpose of this book. MacGregor chooses objects and ideas, people and places that still resonate in the new Germany—porcelain from Dresden and rubble from its ruins, Bauhaus design and the German sausage, the crown of Charlemagne and the gates of Buchenwald—to show us something of its collective imagination. There has never been a book about Germany quite like it. *Der Henker von Hamburg* Pan Macmillan

On a warm September morning, an unconscious man is found in a cage at the entrance to the offices of one of the biggest German newspapers. Closer inspection shows he is a manager of the company, and that he's been tortured.

Three days later, another manager appears in similar circumstances. Chastity Riley and her new colleague Ivo Stepanovic are tasked with uncovering the truth behind the attacks, an investigation that goes far beyond the revenge they first suspect, to the dubious past shared by both victims. Traveling to the south of Germany, they step into the elite world of boarding schools, where secrets are currency, and monsters are bred—monsters who will stop at nothing to protect themselves. A smart, dark, probing thriller, full of all the hard-boiled poetry and acerbic wit of the very best noir, *Beton Rouge* is both a classic whodunit and a scintillating expose of society, by one of the most exciting names in crime fiction.

„Bildet ‚Behutsamkeit‘ noch das unangefochtene Leitbild der Stadterneuerung und Bestandsentwicklung?“ – so das Schwerpunktthema des Jahrbuchs Stadterneuerung 2013. Reflexionen über die Sinnhaftigkeit der ‚Behutsamkeit‘ vor dem Hintergrund des Wohnungsleerstands in vielen Städten in den neuen

Bundesländern und dem Wohnungsmangel und den Aufwertungstendenzen in wachsenden Großstädten scheinen angebracht. Die Diversifizierung der Gebietskulissen, die Vielfalt von Problemstrukturen und neue Herausforderungen, wie die energetische Erneuerung des Bestands, stellen das Leitmotiv zunehmend infrage. Wie aber können die Grundsätze der Sozialverträglichkeit, der Inklusion, der Beteiligung, der Nachhaltigkeit und damit der hehre Anspruch der „Behutsamkeit“ weiter entwickelt werden? Neben diesem Schwerpunktthema werden in den Beiträgen Themen der Stadterneuerung in der Geschichte, der Praxis, im Ausland sowie in Forschung und Lehre analysiert. Mit Beiträgen von: Uwe Altrock, Hannah Baltes, Adam Bartoszek, Fabian Beran, Matthias Bernt, Julia Drittenpreis, Martin Düchs, Susanne Dürr, Daphne Rebecca Frank, Katrin Großmann, Annegret Haase, Anna Juliane Heinrich, Martin Hölscher, Petra Jähnke, Sigrun Kabisch, Arvid Krüger, Ronald Kunze, Holger Leimbrock, Michael Locher, Gerhard Mahnken, Anja B. The need to discuss and reflect existing paradigms of urban renewal is driven by the fact that cities are facing a plurality of different problems within very heterogeneous spatial contexts, and new challenges like the energy efficient redesign of the built environment. The contrary situations of German cities reflect the diversity of challenges associated with urban renewal: Many cities in eastern Germany are confronted with vacancies in housing estates whereas other metropolitan regions in Germany have to deal with upgrading processes and shortages in housing. Thus, facilitating social inclusion, participation and sustainability in urban renewal within different spatial settings are major topics in this issue. Besides, the issue includes contributions on the history and practice of urban renewal in foreign countries and the role of urban renewal in research and education. Mudlark (/ˈmʌdlɑːk/) noun A person who scavenges for usable debris in the mud of a river or harbour Lara Maiklem has scoured the banks of the Thames for over fifteen years, in pursuit of the objects that the river unearths: from Neolithic flints to Roman hair pins, medieval buckles to

Tudor buttons, Georgian clay pipes to Victorian toys. These objects tell her about London and its lost ways of life. Moving from the river's tidal origins in the west of the city to the point where it meets the sea in the east, Mudlarking is a search for urban solitude and history on the River Thames, which Lara calls the longest archaeological site in England. As she has discovered, it is often the tiniest objects that tell the greatest

stories. \_\_\_\_\_ 'Enchanting' - Sunday Times 'Driven by curiosity, freighted with mystery and tempered by chance, wonders gleam from every page' - Melissa Harrison 'Brilliant. Their renown was cemented by their early work of the 1960s--that decade of reaction and rebellion, of confrontation and upheaval, of utopias and a new social compass. In conversations with Gotz Adriani, the artists talk frankly about their work during this time when German society, East and West, may have got over the Nazi regime and the worst of the devastation of the war, but not the cultural and intellectual roots of Germany's fascist past. The book offers a fresh and comprehensive look at the early works of Baselitz, Richter, Polke, and Kiefer, at how each one variously tackled the aesthetic dominance of abstract art and the unique social and political environment of their newly founded

country, the Federal Republic of Germany.

The twelfth installment of Bernard Cornwell's New York Times bestselling series chronicling the epic saga of the making of England—"superior entertainment that is both engaging and enlightening" (Washington Post), and the basis for *The Last Kingdom*, the hit Netflix series. It is a time of political turmoil once more as the fading King Edward begins to lose control over his successors and their supporters. There are two potential heirs—possibly more—and doubt over whether the once separate states of Wessex and Mercia will hold together . Despite attempts at pulling him into the political fray, Uhtred of Bebbanburg cares solely about his beloved Northumbria and

its continuing independence from southern control. But an oath is a strong, almost sacred commitment and such a promise had been exchanged between Uhtred and Aethelstan, his onetime companion in arms and now a potential king. Uhtred was tempted to ignore the demands of the oath and stay in his northern fastness, leaving the quarrelling Anglo-Saxons to sort out their own issues. But an attack on him by a leading supporter of one of the candidates and an unexpected appeal for help from another, drives Uhtred with a small band of warriors south, into the battle for kingship—and England's fate.
