Baby Dinosaurs on the Ark? HarperCollins Christian Publishing  
The Bible is our foundation for living and our future in dying. It is our self-sufficient rule for faith in God and fellowship with man. In his book, *Knowing The Doctrines of the Bible*, Myer Pearlman states, “Strong beliefs make for strong character; clear-cut beliefs make for clear-cut convictions”. There would be no Christian experience if there were no Christian doctrine. Therefore, as you read the pages of this book, may you gain insight into the inspiration of God provided for us in His Holy Book, the Bible. And in reading, may you acknowledge the great

truths found therein and accept them as the foundation and the focus of your life. The grand inspiration and the glorious instructions that are revealed to humanity by the Spirit of God in the Bible are worth learning and living. For in these wonderful revelations are truths that will delight the soul, defend our life, defeat the enemy and declare us righteous before a holy God.

All the Doctrines of the Bible Zondervan

This volume is a thorough biblical expose of what has come to be called Lordship Salvation. Throughout the volume, Lou Martuneac rightly emphasizes that one's personal salvation from sin is by God's grace alone, through faith alone, in Christ alone. The Lordship of Christ is not a condition for salvation, but is most assuredly God's desire for His own. - Dr. Robert P. Lightner, Dallas Theological Seminary (Back cover).

**The Bible Believer's Handbook** Wm. B. Eerdmans Publishing

A scientific look at creationism from a former creationist A significant number of Americans, especially evangelical Christians, believe Earth and humankind were created in their present form sometime in the last 10,000 years or so—the rationale being that this is (presumably) the story told in the book of Genesis. Within that group, any threatening scientific evidence that suggests otherwise is rejected or, when possible, retrofitted into a creationist worldview. But can this uncomfortable blend of biblical literalism and pseudoscience hold up under scrutiny? Is it tenable to believe that the Grand Canyon was formed not millions of years ago by gradual erosion but merely thousands of years ago by the Great Flood? Were there really baby dinosaurs with Noah on his ark? Janet Kellogg Ray, a science educator who grew up a creationist, doesn't want other Christians to have to do the exhausting mental gymnastics she did earlier in her life. Working through the findings of a range of fields including geology, paleontology, and biology, she shows how a literal interpretation of the book of Genesis simply doesn't mesh with what we know to be reality. But as someone who remains a committed Christian,

Ray also shows how an acceptance of the theory of evolution is not necessarily an acceptance of atheism, and how God can still be responsible for having created the world, even if it wasn't in a single, momentary, miraculous event.

*All the Parables of the Bible* Independently Published

Clear comprehension of what the events in the Bible mean isn't a lost cause and doesn't require a PhD. This book is your guide to quickly deciphering key doctrines, providing expert observations so that you can comprehend more of Scripture than you ever have before. There's a lot to think about in the Bible. We believe things on the basis of what it says, but Scripture doesn't spell everything out with equal clarity. For instance: How should we really understand the idea of the Trinity or the concept of Hell? Can unbelievers still please God? Do the first chapters of Genesis allow for more than one interpretation of the creation? What the Bible says requires deep thought in order to come to conclusions about our Heavenly Father. If all you know of Scripture is Bible characters and stories, you're missing its life-changing teachings.
