A Dictionary, Hindūstānī and English Mel Bay Publications

A collection of 21 songs arranged in a fingerpicking style for the mountain dulcimer, this book offers a wide variety of musical genres and playing levels. Divided equally between arrangements for three and four equidistant strings, the songs progress in difficulty within each section from beginner to advanced level. Each piece is written in both standard music notation and dulcimer tablature, and is accompanied by performance tips for playing that song. Many arrangements utilize the 6 1/2 fret, and tunings range from standard modal tunings to four-string variations. The arrangements cover a wide range of song styles including traditional ragtime, blues, and classical standards. Songs include My Old Kentucky Home; Londonderry Air, All Through the Night, the Entertainer, Careless Love, House of the Rising Sun, Für Elise, and Bach's Minuet in G. There is an extensive introduction on playing techniques for both left and right hands, tunings, reading tablature, and dulcimer embellishments. The accompanying CD is an instrumental recording of solo dulcimer, designed to give the student a note-for-note reference to each written arrangement while providing a performance-quality listening experience.

This book presents fretted dulcimer arrangements of 58 Stephen Collins Foster classics. Each song is written as a melody line in standard notation with dulcimer tablature beneath plus complete lyrics, historical notes, and suggested guitar chords. Cover graphics from the original nineteenth century sheet music publications lend grace and authenticity, and songwriters and music historians will find much interest in this book. The tunings used are DAD, DAA, DGD, and DAA#D. Intended for experienced beginners to intermediate players, many of these pieces require a 6 1/2 fret dulcimer and a capo.

Dulcimer a La Mode takes the mystery of our modal tuning and playing for the mountain dulcimer player by presenting four common tunings (DAA, DAG, DAD, and DAC) with instructions for tuning, finding the scales and chords, and learning traditional tunes in each of the four modes. This book will encourage players to retune their instrument and learn more of its versatility. Each tune is presented as a melody with a drone in the mode indicated with strumming and rhythm guides. For most tunes, an optional arrangement or accompaniment is also provided using more complex chords and reflecting more traditional Western harmony. As a further learning tool, the accompanying CD allows the listener to play along with the song as presented in the book.

This instruction book for beginning lap dulcimer in DAD tuning is unique in two ways. First, it instructs the beginning student in the increasingly popular DAD tuning. Secondly, the author, a classroom music teacher, has carefully and systematically layered the lessons to guide the student through familiar songs while teaching skills and musical concepts. This not only enables the student to enjoy the lap dulcimer but also enhances total music understanding and participation. The accompanying CD provides instructional dialogue and demonstrations of the techniques and songs included in the book. Additional hints and exercises are presented in an inviting and encouraging conversational text.

This updated textbook provides a balanced, seamless treatment of both classic, analytic methods and contemporary, computer-based techniques for conceptualizing and designing a structure. New to the second edition are treatments of geometrically nonlinear analysis and limit analysis based on nonlinear inelastic analysis. Illustrative examples of nonlinear behavior generated with advanced software are included. The book fosters an intuitive understanding of structural behavior based on problem solving experience for students of civil engineering and architecture who have been exposed to the basic concepts of engineering mechanics and mechanics of materials. Distinct from other undergraduate textbooks, the authors of Fundamentals of Structural Engineering, 2/e embrace the notion that engineers reason about behavior using simple models and intuition they acquire through problem solving. The perspective adopted in this text therefore develops this type of intuition by presenting extensive, realistic problems and case studies together with computer simulation, allowing for rapid exploration of how a structure responds to changes in geometry and physical parameters. The integrated approach employed in Fundamentals of Structural Engineering, 2/e make it an ideal instructional resource for students and a comprehensive, authoritative reference for practitioners of civil and structural engineering.

This instruction manual and song collection is a well-crafted collection of basic dulcimer technique and traditional songs that might have been popular in CrippleCreek, Colorado in the 19th Century--plus a few modern day tunes by its current inhabitants. The techniques and songs have been transcribed from the performances of Bud and Donna Ford who have been collecting songs for their favorite instrument for some time. Bud and Donna explain the basics of playing the dulcimer, including instructions on strumming, tunings, and picking. Solos are offered in all of the various modes (Ionian, Dorian, Locrian, etc.) in standard notation only with lyrics and chord symbols. The end result is an attractive yet pragmatic book that offers a solid grounding in the art of dulcimer playing. The recording features verbal instruction and performances of most of the tunes in the book on solo dulcimer, making learning easy and fun. The recording used tunings which are lower than those in the book, but this will not affect players reading the tablature. Includes access to online audio

*A New Abridgment of Ainsworth's Dictionary, English and Latin* Mel Bay Publications

This collection of traditional music for the mountain dulcimer seeks to reunite this beautiful instrument with the people, the music, and the world from which it came. It tells the story of the Wilderness Road, a trail through the Appalachian Mountains from Gate City, Virginia, to Fort Boonesboro, Kentucky, blazed by Daniel Boone, and links it to the history and heritage of the mountain dulcimer. Numerous photographs and maps help tell the story, and each tune in the book

includes a historical anecdote describing its origin. This book is a must for anyone interested in the history of the Appalachian Mountain region and its music. The sixteen tunes in this book are written in notation and tablature for the standard three-course mountain dulcimer (without the 6 1/2 or 1 1/2 fret in the fretboard), with chord symbols and complete lyrics. A knowledge of simple chording techniques is all that is needed to play the tunes. The tunings used are Ionian (DAA), Aeolian (DAC), and Dorian (DAG).

This book is designed to help fretted dulcimer players at all levels grow in their technical abilities by developing strength, precision, control and flexibility in both the right and left hands. Acquiring a solid technical foundation provides a base upon which to build strong musicianship, enabling one to play more satisfying music regardless of style. Explore flatpicking, fingerpicking, slurs, chords, strumming, left hand precision and placement, right hand strength and control, volume, tone, articulation, and more using both dulcimer tablature and standard music notation. In this book, Mike has used ideas drawn from classical guitar study plus years of teaching dulcimer to develop exercises that will inspire and challenge players at all levels. The tunes and exercises are in the common dulcimer tuning of D-A-D, with a few exceptions. Some exercises are included for the four-string and five-string dulcimers, and a 6+ fret is required. The accompanying CD demonstrates key exercises and most of the tunes in the book.
