 NEW YORK TIMES BESTSELLER • “The definitive biography for decades to come.”—Leo Jansen, curator, the Van Gogh Museum, and co-editor of Vincent van Gogh: The Complete Letters Steven Naifeh and Gregory White Smith, who galvanized readers with their Pulitzer Prize-winning biography of Jackson Pollock, have written another tour de

force—an exquisitely detailed, compellingly readable portrait of Vincent van Gogh. Working with the full cooperation of the Van Gogh Museum in Amsterdam, Naifeh and Smith have accessed a wealth of previously untapped materials to bring a crucial understanding to the larger-than-life mythology of this great artist: his early struggles to find his place in the world; his intense relationship with his brother Theo; and his move to Provence, where

he painted some of the best-loved works in Western art. The authors also shed new light on many unexplored aspects of Van Gogh’s inner world: his erratic and tumultuous romantic life; his bouts of depression and mental illness; and the cloudy circumstances surrounding his death at the age of thirty-seven. Though countless books have been written about Van Gogh, no serious, ambitious examination of his life has been attempted in more than seventy years. Naifeh and

Smith have re-created Van Gogh's life with an astounding vividness and psychological acuity that bring a completely new and sympathetic understanding to this unique artistic genius. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Washington Post • The Wall Street Journal • San Francisco Chronicle • NPR • The Economist • Newsday • BookReporter "In their magisterial new biography, *Van Gogh: The Life*, Steven Naifeh and

Gregory White Smith provide a guided tour through the personal world and work of that Dutch painter, shining a bright light on the evolution of his art. . . . What [the authors] capture so powerfully is Van Gogh's extraordinary will to learn, to persevere against the odds."—Michiko Kakutani, *The New York Times* "Brilliant . . . Steven Naifeh and Gregory White Smith are the big-game hunters of modern art history. . . . [Van Gogh] rushes along on a tide of

research. . . . At once a model of scholarship and an emotive, pacy chunk of hagiography."—Martin Herbert, *The Daily Telegraph* (London) *Portrait of an Artist: Vincent van Gogh* Springer A vibrantly illustrated biography of Vincent van Gogh based on letters he sent to his brother Theo. [The Knowledgebook](#) Flame Tree Illustrated Including unpublished material recorded from Henri Nouwen's lectures, this book comes at the request of the Henri

Nouwen's literary estate from someone who knew him as a teacher and friend. Carol Berry brings her own experience in both ministry and art education to bear as she unpacks the much misunderstood spiritual context of Vincent van Gogh's work, and reinterprets van Gogh's art in light of Nouwen's lectures.

"Vincent van Gogh is one of the greatest figures in Western art. Revered for

his bold, expressive paintings, he is also admired as a prodigious and eloquent letter writer. His correspondence displays a remarkable literary gift and an ability to communicate his ideas and feelings about nature, art and life in direct, emotive language."

"Illustrated with works of art and letters that demonstrate Van Gogh's abiding preoccupations - the role of colour in painting, portraiture and the cycles of nature, for example - this fascinating book explores the

correspondence as a self-portrait of the artist and the man. The letter-sketches that he used to describe completed works or those in progress are reproduced alongside the paintings or drawings on which they are based, providing a unique insight into his artistic development. Drawing on new and extensive research, leading authorities on Van Gogh reveal how the letters enhance and shape our view of this modern master." --Book Jacket.

Vincent van Gogh (1853-1890) show interesting parallels. They are known for their emotionally imbued paintings and drawings, their personal and innovative style and their tormented lives. Both strived to modernize art and developed expressive imagery to portray the universal emotions of human life. In 'Munch : Van Gogh', these similarities are focused on for the first time. The exhibition studies the essence of their art, their artistic ambitions, the

development in their style and technique and the influences to which they were subjected. This shows why these artists are so often mentioned in one breath. With over one hundred art works including various iconic masterpieces and special artworks which are rarely loaned out ; the two artists are brought together on a large scale for the first time.  A wildly entertaining and surprisingly educational dive into art history as you've never seen it before, from the host of the beloved ArtCurious podcast We're all familiar with the works of Claude Monet, thanks in no small part to the ubiquitous reproductions of his water lilies on umbrellas, handbags, scarves, and dorm-room posters. But did you also know that Monet and his cohort

were trailblazing rebels whose works were originally deemed unbelievably ugly and vulgar? And while you probably know the tale of Vincent van Gogh's suicide, you may not be aware that there's pretty compelling evidence that the artist didn't die by his own hand but was accidentally killed--or even murdered. Or how about the fact that one of Andy Warhol's most enduring legacies involves Caroline Kennedy's moldy birthday cake and a collection of toenail

clippings? ArtCurious is a colorful look at the world of art history, revealing some of the strangest, funniest, and most fascinating stories behind the world's great artists and masterpieces. Through these and other incredible, weird, and wonderful tales, ArtCurious presents an engaging look at why art history is, and continues to be, a riveting and relevant world to explore. A new look at the ways van Gogh represented the seasons and the natural world throughout his career The changing seasons captivated

Vincent van Gogh (1853–90), who saw in their unending cycle the majesty of nature and the existence of a higher force. *Van Gogh and the Seasons* is the first book to explore this central aspect of van Gogh's life and work. Van Gogh often linked the seasons to rural life and labor as men and women worked the land throughout the year. From his depictions of peasants and sowers to winter gardens, riverbanks, orchards, and harvests, he painted scenes that richly evoke the sensory

pleasures and deprivations particular to each season. This stunning book brings to life the locales that defined his tumultuous career, from Arles, where he experienced his most crucial period of creativity, to Auvers-sur-Oise, where he committed suicide. It looks at van Gogh's interpretation of nature, the religious implications of the seasons in his time, and how his art was perceived against the backdrop of various symbolist factions, antimaterialist debates,

and esoteric beliefs in fin de siècle Paris. The book also features revealing extracts from the artist's correspondence and artworks from his own collection that provide essential context to the themes in his work. Breathtakingly illustrated and featuring informative essays by Sjraar van Heugten, Joan Greer, and Ted Gott, *Van Gogh and the Seasons* shines new light on the extraordinary creative vision of one of the world's most beloved artists. *Van Gogh and the*
