 This overview of fatigue includes fatigue definitions, the measurement / assessment of fatigue, and the performance, mood, and safety problems associated

with fatigue in the operational setting. The physiological bases of fatigue are discussed, so the reader understands that fatigue is a physiological phenomenon that is not "just a state of mind". Scientifically-valid countermeasures are discussed and data from a variety of sources are included to provide readers with a "toolbox" from which they can choose solutions to fatigue-related problems. The book is of interest to aviation crews in both civilian and military sectors, managers as well as aviators, flight deck as well as maintenance crews. It aims to be 'user-friendly', although scientific information is included to help the reader understand why

certain behaviours occur.

From amidst the clutter of lead generation tactics, this strategic guide teaches marketers how to make the many available lead generation tactics work together to produce the maximum number of quality leads. Marketing expert David T. Scott identifies the seven most successful tactics--including email, direct mail, and search engine marketing; banner and social media advertising; cold calling; and trade shows--and reveals: when to use which tactics, how to use

them cost-effectively, how each tactic has changed in recent years, and how lead generation tactics will continue to evolve in the future. Most importantly, he shares how marketers can achieve the best results--actionable leads for their products and services--and help their companies succeed. Featuring valuable tools for tracking costs and measuring results and indispensable advice that's been thus-far absent from this emerging and in-demand field, *The New Rules of Lead Generation* takes a critical look at the most popular lead-generation strategies and shows marketers everywhere how to test new approaches on a limited budget, how to

combine multiple tactics for a more powerful, integrated

campaign, and how to capture the leads they need.
