"Peter Norton's
Introduction to
Computers 5th Edition"
is a state-of-the-art
text that provides
comprehensive
coverage of computer
concepts. It is geared

toward students
learning about
computer systems for
the first time. Some of
the topics covered are:
an Overview of
computers, input
methods and output
devices, processing
data, storage devices,
operating systems,
software, networking,
Internet resources, and
graphics.

One of the truly enigmatic personalities on the contemporary Indian political canvas, Narendra Damodardas Modi is difficult to ignore. From his humble beginnings as a RSS pracharak to his rise in the Hindutva ranks, and from being Bharatiya Janata Party's master planner to one of the its most popular and controversial state chief ministers, Modi's mantra of change and development is gradually finding many takers. Though he evokes vastly different reactions among the citizens for his alleged role during the Godhra aftermath, what is absolutely clear is that he indeed is racing

towards the centre stage, making the 2014 General Elections look more like a Presidential system – where, you either vote for him or against him. And that, as they say, is the Modi effect.

Kingshuk Nag paints the most vivid portrait of the extraordinary politician who is poised to take on a new role in the coming years.

This book constitutes the joint refereed proceedings of the three workshops held in conjunction with the 6th International Conference on Web Information Systems Engineering, WISE 2005, in New York, NY, USA, in November 2005. A total of 47 papers were submitted to the three

workshops, and 28 revised full papers were carefully selected for presentation. The workshop on Web Information Systems Quality (WISQ 2005) - discussing and disseminating research on the quality of WIS and Web services from a holistic point of view - included 7 papers out of 12 submissions. The workshop on Web-based Learning (WBL 2005) accounted for 10 papers from 14 papers submitted - organized in topical sections on tools, models, and innovative applications. The workshop on Scalable Semantic Web Knowledge Base Systems (SSWS 2005) included 11 presentations selected from 21 submissions. Topics addressed are scalable repository and

reasoning services, practical Semantic Web applications, query handling and optimization techniques.

Dr. Dharma Singh Khalsa “shows us how the tremendous power of medical meditation can heal not only the body but also the mind and soul” (Deepak Chopra) in this practical and engaging guide to natural healing. Proven effective by scientific research and presented here by Dr. Dharma Singh Khalsa

and Cameron Stauth, the practice of Medical Meditation revolutionizes the healing process. By balancing and regenerating the body's ethereal and physical energies through simple meditations, Medical Meditation unites the mind, body, and spirit into a powerful triad. Each Medical Meditation here has a specific physiological effect, targeting afflictions from arthritis to ulcers to cancer. Dr. Khalsa details the five unique attributes that endow this type of meditation with far more power than standard meditation. The combination of special postures and movements; exact positioning of the hands and fingers; particular mantras;

specific breathing patterns; and a unique focus of concentration can change your entire biochemical profile, easing you into a calm, healing state. Practiced in conjunction with conventional or alternative medical treatments, cutting-edge Medical Meditation activates the healing force within you.

Peter Norton's Intro to Computers 6/e

This is the autobiography of Abdul Salam Zaeef, a senior former member of the Taliban. His memoirs, translated from Pashto, are more than just a personal account of his extraordinary life. My Life with the Taliban offers a counter-

narrative to the standard accounts of Afghanistan since 1979. Zaeef describes growing up in rural poverty in Kandahar province. Both of his parents died at an early age, and the Russian invasion of 1979 forced him to flee to Pakistan. He started fighting the jihad in 1983, during which time he was associated with many major figures in the anti-Soviet resistance, including the current Taliban head Mullah Mohammad Omar. After the war Zaeef returned to a quiet life in a small village in Kandahar, but chaos soon overwhelmed Afghanistan as factional fighting erupted after the Russians pulled out. Disgusted by the lawlessness that

ensued, Zaeef was one among the former mujahidin who were closely involved in the discussions that led to the emergence of the Taliban, in 1994. Zaeef then details his Taliban career as civil servant and minister who negotiated with foreign oil companies as well as with Afghanistan's own resistance leader, Ahmed Shah Massoud. Zaeef was ambassador to Pakistan at the time of the 9/11 attacks, and his account discusses the strange "phoney war" period before the US-led intervention toppled the Taliban. In early 2002 Zaeef was handed over to American forces in Pakistan, notwithstanding his diplomatic status, and spent four and a half years in prison

(including several years in Guantanamo) before being released without having been tried or charged with any offence. My Life with the Taliban offers a personal and privileged insight into the rural Pashtun

village communities that are the Taliban's bedrock. It helps to explain what drives men like Zaeef to take up arms against the foreigners who are foolish enough to invade his homeland.
