Tropical Rainforests is one of four books that make up the set Plants in their Habitats. It is Book A. Each book in the set is written at a different reading

standard, yet covers the same key concepts about the theme Plants in their Habitat. This enables you to cater for all students in your class by teaching the same content to every student - from struggling to fluent readers - with books that cater for different reading needs. The goal of this set is for all students in your class to a

Who Will Plant a Tree? Capstone

The information contained in this resource and activity book follows a learning cycle that includes: a) free exploration by the students; b) expansion of exploration through activities that allow children to test, integrate, and sort out their discoveries; and c) application of concepts through individual and group projects which provide students with the opportunity to

enhance and share what they have learned. Each section includes teacher resource material, planned lessons, and expansion activities. Students will examine various items, books, and resources. The display table's contents of fruits, nuts, woods, and other rainforest items will pique students' interest. Four transparencies (print books) or PowerPoint slides (eBooks) are included to engage students in discussion and reinforce the concepts presented in the book.

[The Rainforest Book](#) Disney Electronic Content

Rainforests are one of the most amazing environments on Earth and many plants,

people and animals have made rainforests their home and are adapted to living there. They have to be tough to survive in the dense jungle, whether they live on the forest floor or high up in the canopy, what they eat and how they are adapted to survive in this hot and humid place, and of course avoiding the variety of predators that live there. Read on to find out how they do it! Books aimed at KS2 readers wanting to find out a bit more about world environments.
