BooksBook 2, The
Emperor's Mask, is
available now!In a city
that runs on magic, it
takes a man with none
to solve an impossible
murder.In a world of
elves and dwarves and
sprites and mages,
Tane Carver is a
human with no gift but
his wits. Which, to be
fair, did get him into
the world's most
prestigious university
of magical
technology.For a
while.Until his lack of
magic was discovered.
And then it all came
crashing down.But
when a student is
murdered on campus
behind unbreakable
wards, Tane gets a
second chance. Solving

an impossible crime should be easy for the man who fooled the university's best mages for years. Except he's not counting on the head constable being an old flame who isn't so fond of him anymore. Or on Kadka, the half-crazy half-orc who insists she's his partner-- whether he likes it or not. Not to mention the masked mage who keeps trying to kill him. Now, Tane's survival depends on the one truth that has never failed him. The flaw in all magic that those who have it prefer to ignore: the mage. Outsmart the mage, and you outsmart the spell. And outsmarting mages is what Tane does best.

Forget naughty or nice—this is a battle of good vs. evil. Discover the origins of St. Nick and follow along as the Guardians start their quest to rid the world of nightmares in the first Guardians chapter book from Academy Award winner William Joyce that inspired the beloved film, *The Rise of the Guardians*.

Before SANTA was SANTA, he was North, Nicholas St. North—a

daredevil swordsman whose prowess with double scimitars was legendary. Like any swashbuckling young warrior, North seeks treasure and adventure, leading him to the fiercely guarded village of Santoff Clausen, said to be home to the greatest treasure in all the East, and to an even greater wizard, Ombric Shalazar. But when North arrives, legends of riches have given way to terrors of epic proportions! North must decide whether to seek his fortune...or save the village. When our rebellious hero gets sucked into the chaos (literally), the fight becomes very personal. The Nightmare King and his evil Fearlings are ruling the night, owning the shadows, and sending

waves of fear through all of Santoff Clausen. For North, this is a battle worth fighting...and, he's not alone. There are five other Guardians out there. He only has to find them in time.

When a king's pinky grows stinky, it is up to a smallish boy and a smallish pea to come up with a GIANT plan to save the kingdom—a fractured fairy tale from William Joyce and Moonbot Studios, the masterminds who brought you The Fantastic Flying Books of Mr. Morris Lessmore.

You might think you know the story of Jack and the Beanstalk, but you might want to think again. In this fairy tale with a twist, it hasn't rained in days and the king has dictated that something must be done—his royal pinky is getting stinky! With a little magic from a wizard, young Jack, paired with his pea pod pal, will find a GIANT reason as to why there's no water left in the kingdom...and prove that size doesn't prevent anyone from doing something BIG.

The True Story of St. Nicholas London : Cassell

This is a book for kids (and their parents) who are heartbroken about Santa Claus. "You might think there is no more magic in the world. But the truth is

much more interesting." You see, Saint Nicholas didn't HAVE magic-- he was an opening for magic. But he was never supposed to be the only one. The story got twisted, you see. Real magic was never about presents or a man in a red suit-- real magic is wilder and deeper than that. You might call it love, or kindness, or human goodness. The question is, will you become part of true magic? Will you bring more kindness and courage into the world? Will you join the Secret Society of Saint Nicholas?

Jack Frost Blackstone Publishing Provides the background, history, and life of Jackson Overland Frost, better known as the Jack Frost.

From the team who brought you The Fantastic Flying Books of Mr. Morris Lessmore comes an alphabet tale extraordinaire! Once upon a time there was no alphabet, only numbers... Life was...fine. Orderly. Dull as gray paint. Very...numberly. But our five jaunty heroes weren't willing to accept that this was all there could be. They knew there had to be more. So they broke out hard hats and welders, hammers and glue guns, and they started knocking some numbers together. Removing a piece here. Adding a piece there. At first, it was awful. But the five kept at it, and soon it was...artful! One letter

after another emerged, until there were twenty-six. Twenty-six letters—and they were beautiful. All colorful, shiny, and new. Exactly what our heroes didn't even know they were missing. And when the letters entered the world, something truly wondrous began to happen...Pizza! Jelly beans! Color! Books! Based on the award-winning app, this is William Joyce and Moonbot's Metropolis-inspired homage to everyone who knows there is more to life than shades of black and gray.

Ptolemy's Almagest is one of the most influential scientific

works in history. A masterpiece of technical exposition, it was the basic textbook of astronomy for more than a thousand years, and still is the main source for our knowledge of ancient astronomy. This translation, based on the standard Greek text of Heiberg, makes the work accessible to English readers in an intelligible and reliable form. It contains numerous corrections derived from medieval Arabic translations and extensive footnotes that take account of the great progress in understanding the work made in this century, due to the discovery of Babylonian records and other researches. It is designed to stand by itself as an interpretation of the

original, but it will also be useful as an aid to reading the Greek text. with audio recording Simon and Schuster Retells the story of the life of Saint Nicholas, from his miraculous birth and generous nature to the many miracles he performed during his life and after his death.

This is Nicholas Monsarrat's final masterpiece, an epic tale of the sea and seafaring from the sixteenth century to near the end of the twentieth. Told from the point of view of Mathew Lawe, a young Devon sailor who is cursed after a spectacular act of cowardice to wander 'the wild waters till all the seas run dry', it is historical fiction but beset by real events. Monsarrat follows the great captains and naval adventurers from the Arctic to the South

Pacific. Lawe represents the spirit of maritime exploration and fortitude; his life is the thread stringing together a long history of nautical adventure. He finds himself mixed up with Drake and the Armada; sailing with Hudson in search of the North-West passage; a buccaneer under Sir Henry Morgan in the Caribbean; assisting Samuel Pepys with his responsibilities as Secretary to the Navy; at the side of Captain Cook as he transports General Wolf to the storming of Quebec, and then on to his death in the Pacific; serving in Nelson's household and then to the Nile, Naples and Trafalgar; working on a slaver from Liverpool to the Caribbean; press-ganged aboard

the Shannon just before her duel with the American Chesapeake, exploring the Arctic with Sir John Franklin; fighting in both world wars, including the action at Zebrugge and 'D' Day; before a final test with a tanker catching fire after the opening of the St. Lawrence Seaway - and much more besides Under sail and steam, as Mathew's eternal existence progresses, the action-packed novel is both highly entertaining and instructive and has been widely acclaimed as a masterpiece. Some fourteen true maps, along with other diagrams, are included, and what was originally two volumes is supplied as one. Note: Nicholas Monsarrat died before Book II was

finished. Anne Monsarrat completed the remainder of the story in Nicholas's own words, partly from some working notes he left and partly from his original synopsis of The Master Mariner Book II. Both are included here. [Why He Matters to Christmas](#) Simon and Schuster

Michelle Monaghan, James Marsden, Luke Bracey, and Liana Liberato "Everyone wanted to believe that endless love was possible. She'd believed in it once, too, back when she was eighteen." In the spring of 1984, high school students Amanda Collier and Dawson Cole fell deeply, irrevocably in love. Though they were from opposite sides of the tracks, their love for one another seemed to defy the realities of life in the small town of Oriental, North Carolina. But as the summer of their senior year came to a close, unforeseen events would tear the young couple apart, setting them on radically divergent paths. Now, twenty-five years later, Amanda and Dawson

are summoned back to Oriental for the funeral of Tuck Hostetler, the mentor who once gave shelter to their high school romance. Neither has lived the life they imagined . . . and neither can forget the passionate first love that forever changed their lives. As Amanda and Dawson carry out the instructions Tuck left behind for them, they realize that everything they thought they knew -- about Tuck, about themselves, and about the dreams they held dear -- was not as it seemed. Forced to confront painful memories, the two former lovers will discover undeniable truths about the choices they have made. And in the course of a single, searing weekend, they

will ask of the living, and the dead: Can love
truly rewrite the past?
