New features in AutoCAD 2002 are

covered in this book, making it a useful refresher course for anyone using AutoCAD at this level, and upgrading to the new software release. The material in the book is also relevant to anyone using other recent releases, including, AutoCAD 2000.

Hearings, Reports and Prints of the Senate Committee on Banking, Housing and Urban Affairs "O'Reilly Media, Inc." Die internationalen Ägyptologischen Tempeltagungen wurden 1990 mit einem Kongress in Gosen bei Berlin eröffnet. Dort ging es zum Auftakt um "Struktur, Funktion und Programm" ägyptischer Kultanlagen als zentrale staatliche Einrichtungen. Inzwischen gab es

Folgeveranstaltungen mit unterschiedlichen Themen in Deutschland, den Niederlanden und Belgien. Sie unterstrichen zum einen die internationale Ausrichtung des Faches Ägyptologie, zum anderen aber zeigten sie die Bedeutung ägyptischer Tempel für die politische und kulturelle Basis des pharaonischen Ägypten. Immer wieder aufs Neue beweist die Erforschung der ägyptischen Tempel die enge Verzahnung dieser religiösen Machtzentren mit sämtlichen Aspekten des pharaonischen Ägypten bis weit in die römische Zeit hinein. Thema der 2008 in Warschau abgehaltenen 8. Ägyptologischen Tempeltagung waren die kultischen und politisch-kulturellen

Verknüpfungen einzelner Kulturanlagen. Dieser Gesichtspunkt wurde in 16 Referaten ausführlich beleuchtet. Die Veröffentlichung der Ergebnisse dieser Tempeltagung gibt wie auch schon die Bande zu den früheren Tempeltagungen Anstöße zu weiteren Forschungen in der Ägyptologie und ihren Nachbardisziplinen. *Canadian Moving Picture Digest* CRC Press Genomics is a rapidly growing scientific field with applications ranging from improved disease resistance to increased rate of growth. Aquaculture Genome Technologies comprehensively covers the field of genomics and its applications to the aquaculture industry. This volume looks to bridge the gap between a basic understanding of genomic technology to its practical use in the aquaculture industry.

This book discusses the newest approach to online learning systems in higher education. As e-Learning platforms change their mechanisms for data processing and storage, there is a need to move these systems toward being more efficient and smarter. This book covers online learning systems and their application to large-scale data along with the technological aspects of these processes and problem-solving methods. *Online Learning Systems: Methods and Applications with Large-Scale Data* discusses the efficiency measurement and environmental impact of online education. The book offers a parametric evaluation and categorization of online learning systems and provides an exploration of big data ecosystems in cloud computing. Descriptive analytical methods that assist in finding solutions for big data challenges are also covered within the book. The book is written for academicians, which includes teachers, students, and higher education policymakers who believe in transforming the education industry, as well as research scholars and those working in education technology and artificial intelligence. Industry professionals involved in education management and those working in e-Learning companies will also find this book useful.

Of the many varieties of date palms, the species *Phoenix dactylifera* Linn. is cultivated extensively and traded and consumed worldwide. *Dates: Production, Processing, Food, and Medicinal Values* draws from a broad spectrum of contributors to present a comprehensive survey of this particular species. The book explores a range of essential facets of what many consider to be a wonder plant—from its cultivation to its potential for medicinal purposes. Divided into four parts, the book begins by examining cultural practices and their implications for date quality. The contributors discuss tissue culture studies, farm water management, mechanization approaches in pollination and harvesting operations, and marketing aspects. The second section focuses on postharvest operations

such as drying and explores alternatives for methyl bromide fumigation and value-added products. It also reviews biofuel production from by-products and discusses the issue of waste generated from industry. The third part of the book highlights the physical, chemical, and structural characteristics of dates. It reviews fermentative products that use dates as substrate, discusses the fruits as a substitute for added sugar in food, and explores date palm feeding to livestock. The final section discusses the possibilities for nutritional and medicinal use and reviews the use of dates in indigenous medicine. Exploring essential properties and agricultural implications, this volume is a reliable resource for understanding the many aspects of the *Phoenix dactylifera* Linn.

The first textbook dedicated to interactional linguistics, focusing on linguistic analyses of conversational phenomena, this introduction provides an overview of the theory and methodology of interactional linguistics. Reviewing recent findings on linguistic practices used in turn construction and turn taking, repair, action formation, ascription, and sequence and topic organization, the book examines the way that linguistic units of varying size - sentences, clauses, phrases, clause combinations, and particles - are mobilized for the implementation of specific actions in talk-in-interaction. A final chapter discusses the implications of an interactional perspective for our understanding of language as well as its

variation, diversity, and universality. Supplementary online chapters explore additional topics such as the linguistic organization of preference, stance, footing, and storytelling, as well as the use of prosody and phonetics, and further practices with language. Featuring summary boxes and transcripts from recordings of everyday conversation, this is an essential resource for advanced undergraduate and postgraduate courses on language in social interaction.
