In Love Your Life, Not Theirs, Rachel Cruze shines a spotlight on the most damaging money habit we have:

comparing ourselves to others. Then she unpacks seven essential money habits for living the life we really want--a life in line with our values, where we can afford the things we want to buy without being buried under debt, stress, and worry. The Joneses are broke. Life looks good, but hidden beneath that glossy exterior are credit card bills, student loans, car payments, and an out-of-control mortgage. Their money situation is a mess, and they're trying to live a life they simply can't afford. So why exactly do we try so hard to keep up with the Joneses? Are we really living the lives we want, or are we chasing someone else's dream, just trying to keep up appearances on social media, at church, and in our community? Why are we letting other people set the pace for our

own family's finances? In *Love Your Life, Not Theirs*, Rachel shows you how to buy and do the things that are important to you--the right way. That starts by choosing to quit the comparisons, reframing the way you think about money, and developing new habits like avoiding debt, living on a plan, watching your spending, saving for the future, having healthy conversations about money, and giving. These habits work, and Rachel is living proof. Now, she wants to empower you to live the life you've always dreamed of without creating the debt, stress, and worry that are all too often part of the deal. Social media isn't real life, and trying to keep up with the Joneses will never get you anywhere. It's time to live--and love--your life, not theirs. "I've never read a

book about money that takes this approach--and that's a good thing! Comparison has a way of weaving itself throughout all aspects of our lives, including our money. In *Love Your Life, Not Theirs*, Rachel Cruze outlines the seven money habits that really matter--and they have nothing to do with keeping up with the Joneses!" Candace Cameron-Bure Actress, author, and co-host of *The View* "*Love Your Life, Not Theirs* is full of the kind of practical, straightforward advice we've come to expect from Rachel Cruze. She offers guidance on paying down debt, smart saving, and the right way to talk to your spouse about money. These indispensable tips can help with day-to-day spending decisions and put you on a path to establishing healthy financial

habits." Susan Spencer Editor-in-Chief for *Woman's Day* "Cruze's self-deprecating and honest voice is a great resource for anyone wanting to take charge of their money. With humor and approachability, she helps her readers set themselves up for success and happiness, no matter what current financial state they may be in." Kimberly Williams-Paisley New York Times best-selling author of *Where the Light Gets In* "In today's world of social media, the temptation to play the comparison game is stronger than ever. *Love Your Life, Not Theirs* is the perfect reminder that, when it comes to money, comparison is a game you can't win. A terrific--and much needed--read." Jean Chatzky Financial Editor, *NBC TODAY* and Host of *HerMoney* with Jean Chatzky Podcast

The valuable lesson contained in this

book is that the best way to attract prosperity is to abandon the pursuit of wealth and allow it to flow toward oneself. The ancient laws of attraction are explained in plain language and applied in an economic framework—a new perspective not found in other popular explications of these principles. A path to prosperity is offered in tandem with guidance for achieving harmony in both professional and personal spheres while strategies to overcome destructive thinking patterns and to sustain the flow of wealth while channeling it constructively are delineated. Profiles of individuals who pursued their passion rather than profit, and subsequently reaped immense rewards, will inspire those seeking to transform their lives. Outrageous Openness Authors &

Our relationship with money is one that lasts a lifetime, yet traditionally books on the subject tend to take one of two routes: a) how to get more, or b) how to deal with less. John Armstrong turns these approaches upside down, and looks not at money itself, but at how we relate to it and the meaning we attach to it. How does it drive us and frighten us? Can it change the world for the better? And how much do we actually need? Offering surprising and helpful new insights, this book will encourage you to redefine your feelings about money, and ultimately enable you to discover what is really important to you in life. A new way forward for sustainable quality of life in cities of all sizes Strong Towns: A Bottom-Up Revolution to Build American Prosperity is a book of forward-thinking ideas that breaks with modern wisdom to present a new vision of urban development in the United States. Presenting the foundational ideas of the Strong Towns movement he co-founded, Charles Marohn explains why cities of all sizes continue to struggle to meet their basic needs, and reveals the new

paradigm that can solve this longstanding problem. Inside, you'll learn why inducing growth and development has been the conventional response to urban financial struggles—and why it just doesn't work. New development and high-risk investing don't generate enough wealth to support itself, and cities continue to struggle. Read this book to find out how cities large and small can focus on bottom-up investments to minimize risk and maximize their ability to strengthen the community financially and improve citizens' quality of life. Develop in-depth knowledge of the underlying logic behind the "traditional" search for never-ending urban growth. Learn practical solutions for ameliorating financial struggles through low-risk investment and a

grassroots focus. Gain insights and tools that can stop the vicious cycle of budget shortfalls and unexpected downturns. Become a part of the Strong Towns revolution by shifting the focus away from top-down growth toward rebuilding American prosperity. Strong Towns acknowledges that there is a problem with the American approach to growth and shows community leaders a new way forward. The Strong Towns response is a revolution in how we assemble the places we live.

The way we treat money is a mirror reflection of how we treat ourselves. We give so much of our power away to the feelings inspired by money and our relationship with it. It's time to redirect

that power, to move from feeling disempowered to empowered ... from not good enough to more than good enough ... from unworthy to deserving. We need to look at money through a trauma-informed lens. We need to distil the little traumas and the big traumas from our unconscious mind, from our belief systems, in order to change our perception of money to one of empowerment. This book will help you to do that. It's not about the money: 3 Steps to Be a Wealthy Woman guides us through the journey from Financial Insecurity to Financial Freedom through the lense of financial trauma and the emotions of money. Catherine Morgan shares stories, inspiring thoughts, practical steps and powerful exercises, distilled through the lens of financial

past, financial present and financial future in order to equip you to manage your money, mind and the behaviours that have prevented you from having more money, keeping hold of it and growing it. The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel

H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how

we think and transform how we live. *Your Money or Your Life* Penguin

In February 1999 the tragic New York City police shooting of Amadou Diallo, an unarmed street vendor from Guinea, brought into focus the existence of West African merchants in urban America. In *Money Has No Smell*, Paul Stoller offers us a more complete portrait of the

complex lives of West African immigrants like Diallo, a portrait based on years of research Stoller conducted on the streets of New York City during the 1990s. Blending fascinating ethnographic description with incisive social analysis, Stoller shows how these savvy West African entrepreneurs have built cohesive and effective multinational trading networks, in part through selling a simulated Africa to African Americans. These and other networks set up by the traders, along with their faith as devout Muslims, help them cope with the formidable state regulations and personal challenges they face in America. As Stoller demonstrates, the stories of these West African traders illustrate and illuminate ongoing debates about globalization, the informal

economy, and the changing nature of American communities.
