A surprising history of explorers, pirates, priests, artists, and more: "The best overall study of the French experience in Texas ever assembled." —Jack Jackson, editor of *Texas* by Terán The flag of France is one of the six flags that have flown over Texas, but all that many people know about the French presence in Texas is the ill-fated explorer Cavalier de La Salle, fabled pirate Jean Lafitte, or Cajun music and food. Yet the French have made lasting contributions to Texas

history and culture that deserve to be widely known and appreciated. In this book, François Lagarde and thirteen other experts present original articles that explore the French presence and influence on Texas history, arts, education, religion, and business from the arrival of La Salle in 1685 to the dawn of the twenty-first century. Each article covers an important figure or event in the France-Texas story. The historical articles thoroughly investigate early French colonists and explorers; the French pirates and privateers; the Bonapartists of Champ-d'Asile; the French at the Alamo; Dubois de Saligny and French recognition of the Republic of Texas; the nineteenth-century utopists of Icaria and Reunion; and the French Catholic missions. Other articles deal with French immigration in Texas, including the founding of Castroville; Cajuns in Texas; and the French economic presence in Texas today—the first such study ever published. The remaining articles look at painters Théodore and Marie Gentilz; sculptor Raoul Josset; French architecture in Texas; French travelers from Théodore Pavie to Simone de Beauvoir who have written on Texas; and the French heritage in Texas education. Includes more than seventy photos and illustrations

The global expansion of European colonization is commonly perceived as lawful according to the valid European colonial law of the time. This book is substantially challenging this belief by uncovering its legal justifications based on discovery and terra nullius as retrospectively created legal fictions and demonstrating its untenability in practice. Focused on the critical reconstruction of Spanish and Dutch colonization practices in northeastern South America, Trinidad and Tobago between 1498 and 1817, the book offers an illuminating view on the European shadow of the colonial past in the Americas. Based on the application of an innovative comparative spatio-legal Global History approach to 1,770 excavated European colonial written sources from archives of both sides of the Atlantic in comparison to the colonial legal provisions of Europe's most

influential legal writers, the book, moreover, provides a substantial argument to the contemporary Caribbean-European reparation debate in favor of the return of Indigenous Peoples' historical territories. Therefore, the book calls for the extension of the traditional territory approach to reparations of the United Nations Declaration of the Rights of Indigenous Peoples (UNDRIPs) and the Inter-American Court of Human Rights (IACHR).
