Daniel in the Lions' Den BoD - Books on Demand

Spoken originally along the eastern coast of Africa (the name *kiSwahili* means 'coastal language'), and now the official language of Tanzania as well as a major language in Kenya, Uganda and the eastern Congo, Swahili is the lingua franca of Eastern Africa. A significant fraction of Swahili vocabulary is derived from Arabic through contact with Arabic-speaking Muslim inhabitants of the Swahili Coast. It has also incorporated German, Portuguese, English, Hindustani and French words into its vocabulary through contact with empire builders, traders and slavers during the past five centuries. The earliest known documents written in Swahili are letters written in Kilwa in 1711 A.D. in the Arabic script that were sent to the Portuguese of Mozambique and their local allies.

Another ancient written document dated to 1728 is an epic poem in the Arabic script titled *Utendi wa Tambuka* (The History of Tambuka). One key step in spreading Swahili was to create a standard written language. In June 1928, an inter-territorial conference took place at Mombasa, at which the Zanzibar dialect, *Kiunguja*, was chosen to be the basis for standardising Swahili. Today's standard Swahili, the version taught as a second language, is for practical purposes Zanzibar Swahili. Swahili has become a second language spoken by tens of millions in three African Great Lakes countries (Tanzania, Kenya, and the Democratic Republic of the Congo (DRC)) where it is an official or national

language. The neighbouring nation of Uganda made Swahili a required subject in primary schools in 1992. Some 80 percent of approximately 49 million Tanzanians speak Swahili in addition to their first languages. Many of the rising generation of Tanzania, however, speak Swahili as a primary language because of a decrease of the traditional cultures and the rise of a more unified culture in urban areas. Kenya's population is comparable as well, with a greater part of the nation being able to speak Swahili. Most educated Kenyans are able to communicate fluently in Swahili since it is a compulsory subject in school from grade one to high school and a distinct academic discipline in many of the public and private universities. The five eastern provinces of the DRC are Swahili-speaking. Nearly half the 66 million Congolese reportedly speak it, and it is starting to rival Lingala as the most important national language of that country. Swahili speakers may number 120 to 150 million. This English - Swahili and Swahili - English Dictionary (*Kamusi ya Kiswahili - Kiingereza*), contains 11,000 entries. It is based on our Words R Us - Wordnet implementation (www.wordsrus.info) which enables pairing the Swahili language with hundreds of others. It was created using dozens of sources including academic papers on the language as well as native speakers.

This massive authoritative Swahili dictionary, is the most definitive and comprehensive in existence. It has taken a team of lexicographers and academics fourteen years to prepare, with the

support of the Institute of Kiswahili Research in Dar es Salaam. The last comparable edition was in 1939, and was primarily intended to help the user to comprehend English texts. The dictionary records new words and meanings of words which the language has acquired since 1939; and provides lexicographical information needed by current dictionary users. There are more than 50,000 entries, with an attempt to give every English word an equivalent in Swahili, or otherwise a phrase; and the vocabulary covers both general and specialized language. Guidance is provided on use and connotation, word formation and syntax, and derivatives and compounds of a headword are explicitly shown in each entry. The full information and arrangement given for each entry is: headword, homographs, wordclass, alternative spelling of a headword, cross-reference, gloss, definition, subject label, usage label, regional label, senses separated by numbers, illustrative examples, compounds, derivatives, and adjectival complementation.

For i Know the Plans i Have for You, Says the Lord Zondervan

The growth of Christianity in Africa during the twentieth century is one of the most fascinating shifts in the history of religions. This book presents a history of the Tanzanian Seventh-day Adventist

Church, which is representative of this shift in many respects: slow beginnings, struggles over cultural issues, the emergence of a unique church life combining denominational heritage and African elements, frictions with governments, and the development of popular theology. Yet Tanzanian Adventism also exemplifies an important phenomenon which has been given little attention so far - the transformation of minority denominations to dominant religions. This study breaks new ground in analyzing how the Adventist "remnant" developed into an African "folk church" while attempting to remain true to its original ethos.

This is the fascinating and important story of how God's Word came to East Africa. Beginning with the pioneering efforts of Krapf and Rebmann, Aloo Osotsi Mojola traces the history of Bible translation in the region from 1844 to the present. He incorporates four decades of personal conversations and interviews, along with extensive research, to provide the first comprehensive account of the translations undertaken in Kenya, Uganda, Tanzania, Rwanda, Burundi, and eastern Democratic Republic of Congo. The maps and tables included assist the reader, as does a history of the Swahili language - its standardization, role as lingua franca, and impact on the work of translation. Mojola's writing is a tribute to those who sacrificed much in their quest to see the word of God accessible to all people, in all places - and the many who continue to sacrifice for the peoples of East Africa. This book is a key

contribution to the important and ongoing narrative of how God has met us, and continues to meet us, in our own contexts and our own languages.

The present volume sets Swahili religious tracts available in Kenya and Tanzania in their context. The book starts with an overview of tracts in Swahili from the 19th century to the present day, an examination of Swahili as a religious language, and an introduction to Swahili versions of the Bible and Qur'ān. Chesworth then introduces the range of tracts currently available, examining eight in detail. In

particular he considers how they present scripture in order to promote their own faith, Islam or Christianity, whilst denigrating the 'other'. Finally, the volume discusses the impact from modern media on these tracts.

"The Bible Home Instructor" is a classic Bible study guide, originally published in 1920. It is a compilation of Bible testimony on a multitude of Christian subjects. Each of the many biblical topics encapsulates one or more doctrinal truths, as understood and explained by the original author, Andrew N. Dugger. In 1995, I assisted ministerial author, Richard C. Nickels, in creating an updated edition of this popular Bible study guide. For all of us who participated in this project, it was a work of love. That printed version is still being sold, and oftentimes at exorbitant prices. Therefore, I have decided to publish this updated edition and sell it for the cost of printing. I also offer a free, text-only PDF through my online bookstore at <http://www.lulu.com/spotlight/KerryBarger>. The PDF can be copied and shared freely among any number of people. This book can shed the precious light of God's truth into your life and the lives of all who take its teachings to heart.

Although the arrival of the Bible in Africa has often been a tale of terror, the Bible

has become an African book. This volume explores the many ways in which Africans have made the Bible their own. The essays in this book offer a glimpse of the rich resources that constitute Africa's engagement with the Bible. Among the topics are: the historical development of biblical interpretation in Africa, the relationship between African biblical scholarship and scholarship in the West, African resources for reading the Bible, the history and role of vernacular translation in particular African contexts, the ambiguity of the Bible in Africa, the power of the Bible as text and symbol, and the intersections between class, race, gender, and culture in African biblical interpretation. The book also contains an extensive bibliography of African biblical scholarship. In fact, it is one of the most comprehensive collections of African biblical scholarship available in print. This publication has also been published in paperback, please click here for details.

 Professor Mazrui, Reith Lecturer and presenter of BBC1's series *The Africans*, makes us reconsider the realities of power in world politics. Ali Mazrui argues that the emphasis in world politics continues to be on arms, on resources and on strategic calculations and that the importance of culture has been grossly underestimated. Professor Mazrui's own mind is a cultural cross-roads; he can give Islamic insights to Western audiences about *The Satanic Verses*; he relates the Beijing Spring to the Palestinian Intifada; he compares the effects of Zionism and Apartheid; he puts together Muhammad, Marx and market forces; and he tells the Americans that their attitude to the Third World is a dialogue of the deaf. ALI A. MAZRUI was Director of the Institute of Global Cultural Studies at the State University of New York at Binghamton and Senior Scholar in African Studies at Cornell University Kenya: EAEP
