*French Leave* Ticknor &  
Fields  
A worldwide  
phenomenon and the

most important French  
novelist since Camus,  
Michel Houellebecq  
now delivers his  
magnum opus—a tale of  
our present  
circumstances told  
from the future, when  
humanity as we know  
it has vanished.

Surprisingly poignant, philosophically compelling, and occasionally laugh-out-loud funny, *The Possibility of an Island* is at once an indictment, an elegy, and a celebration of everything we have and are at risk of losing. It is a masterpiece from one of the world's most innovative writers.

NATIONAL BESTSELLER

• From the New York Times bestselling author of *American Psycho* and *Less Than Zero* comes a chilling tale that combines reality, memoir, and fantasy to create a fascinating portrait of this most controversial

writer but also a deeply moving novel about love and loss, parents and children, and ultimately forgiveness. "John Cheever writes *The Shining*."

—Stephen King, *Entertainment Weekly*  
Bret Ellis, the narrator of *Lunar Park*, is the bestselling writer whose first novel *Less Than Zero* catapulted him to international stardom while he was still in college. In the years that followed he found himself adrift in a world of wealth, drugs, and fame, as well as dealing with the unexpected death of his abusive father. After a decade of decadence a chance for salvation arrives; the chance to reconnect with an actress he was once involved with, and their son. But almost

immediately his new life is threatened by a freak sequence of events and a bizarre series of murders that all seem to connect to Ellis's past. His attempts to save his new world from his own demons makes Lunar Park Ellis's most suspenseful novel.

Look for Bret Easton Ellis's new novel, *The Shards!*

Boris Vian is a rare phenomenon. Nothing short of a national treasure in France, he is hardly known overseas. In his lifetime, he divided literary opinion with masterpieces that failed to sell and best sellers that caused outrage, trials and even deaths, including his own. As an

impresario, he became the figurehead of the jazz scene that marked the French left bank at the end of the Second World War and was responsible for bringing Duke Ellington and Miles Davis to France. As a musician, he played his trumpet against the advice of cardiologists, sang pacifist songs before audiences of outraged patriots and, in passing, created French rock 'n' roll.

Posthumously, he became known for his theatre, film scripts and poetry as well as for his novels. And in May '68 he became a revolutionary icon.

This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. This book provides a complete overview of the of parties in France. The social and ideological profiles of all the major parties are analysed chapter by chapter, highlighting their

principal functions and dynamics within the system. These are complemented by analyses of bloc and system features, including the pluralist left, Europe, and the ideological space in which the parties operate. In particular, the book addresses the impressive capacity of French parties and their leaders to adapt themselves to the changing concerns of their electorates and to a shifting institutional context.

**The French Resistance** Harvard University Press  
The most celebrated and controversial French novelist of our time now delivers his magnum opus—about art and money, love and friendship and death, fathers and sons. The Map and the

Territory is the story of an artist, Jed Martin, and his family and lovers and friends, the arc of his entire history rendered with sharp humor and powerful compassion. His earliest photographs, of countless industrial objects, were followed by a surprisingly successful series featuring Michelin road maps, which also happened to bring him the love of his life, Olga, a beautiful Russian working—for a time—in Paris. But global fame and fortune arrive when he turns to painting and produces a host of portraits that capture a wide range of professions, from the commonplace (the owner of a local bar) to the autobiographical (his father, an accomplished

architect) and from the celebrated (Bill Gates and Steve Jobs Discussing the Future of Information Technology) to the literary (a writer named Houellebecq, with whom he develops an unusually close relationship). Then, while his aging father (his only living relative) flirts with oblivion, a police inspector seeks Martin's help in solving an unspeakably gruesome crime—events that prove profoundly unsettling. Even so, now growing old himself, Jed Martin somehow discovers serenity and manages to add another startling chapter to his artistic legacy, a deeply moving conclusion to this saga of hopes and losses and dreams.

This history of coiffure in modern France illuminates a host of important twentieth-century issues: the course of fashion, the travails of small business in a modern economy, the complexities of labour reform, the failure of the Popular Front, the temptations of Pétainism, all accompanied by a parade of waves, chignons, and curls.

**The Possibility of an Island** ABRAMS

By placing Joseph Conrad's fiction at the center of an examination of the term "the West", this study reconceives the major contours of Conrad's work to show how the contemporary commonplace idea of

the West emerged around the turn of the century from the combined and related phenomena of European imperial expansion and a crisis of democratic politics. The author argues that twentieth-century ideas of the West can be traced to the convergence of two distinct discursive contexts: the "new imperialism" of the 1890's that gave wider currency to oppositions between East and West, and the influence of nineteenth-century Russian debates on Western European ideas of Europe. The work of Conrad is shown to be uniquely suited to studying the relation between these two cultural and political contexts, since they provided Conrad

with his two great themes - colonialism and revolution.
