Provides homework tips, tools, and solutions for parents and their children customized by the child's homework profile: the disorganized, the rusher, the procrastinator, the avoider, the inattentive, and the easily frustrated. *Homework Contracts* Springer Nature Today's children and adolescents are constantly facing new and unique challenges, and school counselors must respond to this by expanding their role and function within the schools. This revised and expanded edition of Thompson's important text explores these issues, as well as the necessary steps school counselors need to take in order to adapt and effectively deal with them. Thompson advocates for the need for standards-based school counseling, outlining the framework and benefits of the ASCA National Model® and comprehensive guidance and counseling programs. She addresses the newest research in implementing evidence-based practices; the mental health issues that may be faced by children and adolescents; consulting with teachers, parents, administrators, and the community; and crisis intervention and management. New to this edition are chapters that focus on minority and disenfranchised students and emphasize the need for school counselors to be able to advocate, coordinate, and collaborate on services for these students and their families. This is an essential resource for every school counselor in a time when the

profession is becoming increasingly important.

School, Family, and Community Partnerships: Preparing Educators and Improving Schools addresses a fundamental question in education today: How will colleges and universities prepare future teachers, administrators, counselors, and other education professionals to conduct effective programs of family and community involvement that contribute to students' success in school? The work of Joyce L. Epstein has advanced theories, research, policies, and practices of family and community involvement in elementary, middle, and high schools, districts, and states nationwide. THE SECOND EDITION OFFERS EDUCATORS AND RESEARCHERS: A framework for helping rising educators to develop comprehensive, goal-linked programs of school, family, and community partnerships. Parents, the Missing Link in Education Reform Routledge

Tasked chiefly with providing effective instruction, classroom teachers must also manage student behavior. Prevalence of student problem behavior is a strong indicator of failing schools, and has been linked to reduced academic achievement, truancy, bullying, and loss of teacher time. As such demand is on the rise for intervention programs that may effectively reduce levels of problem behavior in schools. *Handbook of Behavioral Interventions in Schools* is a comprehensive collection of evidence-based strategies for addressing student behavior in the classroom and other school settings. Experts in the fields of special education and school psychology provide practical guidance on over twenty behavior interventions that can be used to promote appropriate student behavior. Framed within a multi-tiered system of support, a framework representing one of the predominant service delivery models in schools, interventions are categorized as Tier I, Tier II, or Tier III, and chapters provide insight into how students might be placed in and moved through respective levels of service intensity. Each chapter details a specific intervention strategy, and includes reproducible materials to facilitate use of the intervention, case studies, and further reading for school-based practitioners. Introductory chapters on behavior analysis, multi-tiered systems of support, and law and ethics place the practical guides in a context that is relevant for school-based practice. Walking readers through the entire process of assessment of problem behaviors to intervention and progress

monitoring, *Handbook of Behavioral Interventions in Schools* is an invaluable resource for special education teachers, school psychologists, and trainees in these fields.
