Jesse Rigsby hates video games—and for good reason. You see, a video game character is trying to kill him. After getting sucked in the new game Full Blast with his friend Eric, Jesse starts to see the appeal

of vaporizing man-size praying mantis while cruising around by jet pack. But pretty soon, a mysterious figure begins following Eric and Jesse, and they discover they can't leave the game. If they don't figure out what's going on fast, they'll be trapped for good! With black-and-white illustrations throughout and a cliff hanger at the end of every chapter, this is a great series for kids who think they don't like to read!

Who Would Win?: Ultimate Showdown Macmillan

If you want your startup to succeed, you need to understand why startups fail. "Whether you're a first-time founder or looking to bring innovation into a

corporate environment, *Why Startups Fail* is essential reading."—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of *The Lean Startup* and *The Startup Way* Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it. So he launched a multiyear research project to find out. In *Why Startups Fail*, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • **Bad Bedfellows.** Startup success is thought to rest largely on the founder's talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • **False Starts.** In following the oft-cited advice to "fail fast" and to "launch before you're ready," founders risk wasting time and capital on the wrong solutions. • **False Promises.** Success with early adopters can be misleading and give founders unwarranted confidence to expand. • **Speed Traps.** Despite the pressure to "get big fast," hypergrowth can spell disaster for even the most promising ventures. • **Help Wanted.** Rapidly scaling startups need lots of

capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • **Cascading Miracles.** Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, *Why Startups Fail* is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

This title was first published in 2002: This field guide assesses two views of human error - the old view, in which human error becomes the cause of an incident or accident, or the new view, in which human error is merely a symptom of deeper trouble within the system. The two parts of this guide concentrate on each view, leading towards an appreciation of the new view, in which human error is the starting point of an investigation, rather than its conclusion. The second part of this guide focuses on the circumstances which unfold around people, which causes their

assessments and actions to change accordingly. It shows how to "reverse engineer" human error, which, like any other component, needs to be put back together in a mishap investigation.

An Unorthodox Match is a powerful and moving novel of faith, love, and acceptance, from author Naomi Ragen, the international bestselling author of *The Devil in Jerusalem*. California girl Lola has her life all set up: business degree, handsome fiancé, fast track career, when suddenly, without warning, everything tragically implodes. After years fruitlessly searching for love, marriage, and children, she decides to take the radical step of seeking spirituality and meaning far outside the parameters of modern life in the insular, ultraorthodox enclave of Boro Park, Brooklyn. There, fate brings her to the dysfunctional home of newly-widowed Jacob, a devout Torah scholar, whose life is also in turmoil, and whose small children

are aching for the kindness of a womanly touch. While her mother direly predicts she is ruining her life, enslaving herself to a community that is a misogynistic religious cult, Lola's heart tells her something far more complicated. But it is the shocking and unexpected messages of her new community itself which will finally force her into a deeper understanding of the real choices she now faces and which will ultimately decide her fate.

Developed from celebrated Harvard statistics lectures, *Introduction to Probability* provides essential language and tools for understanding statistics, randomness, and uncertainty. The book explores a wide variety of applications and examples, ranging from coincidences and paradoxes to Google PageRank and Markov chain Monte Carlo (MCMC). Additional application areas explored include genetics, medicine, computer science, and information theory. The print book version includes a code that provides free access to an eBook version. The

authors present the material in an accessible style and motivate concepts using real-world examples. Throughout, they use stories to uncover connections between the fundamental distributions in statistics and conditioning to reduce complicated problems to manageable pieces. The book includes many intuitive explanations, diagrams, and practice problems. Each chapter ends with a section showing how to perform relevant simulations and calculations in R, a free statistical software environment.

Discover the essential thinking tools you've been missing with *The Great Mental Models* series by Shane Parrish, New York Times bestselling author and the mind behind the acclaimed Farnam Street blog and "The Knowledge Project" podcast. This first book in the series is your guide to learning the crucial thinking tools nobody ever taught you. Time and time again, great thinkers such as Charlie Munger and Warren Buffett have credited their success to mental models—representations of how something works that can scale onto other fields. Mastering a small number of mental

models enables you to rapidly grasp new information, identify patterns others miss, and avoid the common mistakes that hold people back. *The Great Mental Models: Volume 1, General Thinking Concepts* shows you how making a few tiny changes in the way you think can deliver big results. Drawing on examples from history, business, art, and science, this book details nine of the most versatile, all-purpose mental models you can use right away to improve your decision making and productivity. This book will teach you how to: Avoid blind spots when looking at problems. Find non-obvious solutions. Anticipate and achieve desired outcomes. Play to your strengths, avoid your weaknesses, ... and more. *The Great Mental Models* series demystifies once elusive concepts and illuminates rich knowledge that traditional education overlooks. This series is the most comprehensive and accessible guide on using mental models to better understand our world, solve problems, and gain an advantage.

Named a Best Book of Summer by Refinery29, Bustle, and PopSugar "The

best rom-com of the season...overflowing with charm and heart." —Bustle "The perfect Summer read—smart, funny, escapist, and bursting with charm." —PopSugar In the tradition of *Good in Bed* and *The Assistants* comes a funny and smart comedy about a young matchmaker balancing her messy personal life and the demands of her eccentric clients. Sasha Goldberg has a lot going for her: a recent journalism degree from NYU, an apartment with her best friend Caroline, and a relationship that would be amazing if her finance-bro boyfriend Jonathan would ever look up from his BlackBerry. But when her dream career falls through, she uses her family's darkest secret to land a job as a matchmaker for New York City's elite at the dating service Bliss. Despite her inexperience, Sasha throws herself into her new career, trolling for catches on Tinder, coaching her clients through rejection, and dishing out dating advice to people twice her age. She sets up a TV exec who wanted kids five years ago, a forty-year-old baseball-loving virgin, and a consultant with a rigorous five-page checklist for her ideal match. Sasha hopes to find her clients *The One*, like she did.

But when Jonathan betrays her, she spirals out of control—and right into the arms of a writer with a charming Southern drawl, who she had previously set up with one of her clients. He's strictly off-limits, but with her relationship on the rocks, all bets are off. Fresh, sweet, and laugh-out-loud funny, *Playing with Matches* is the addictive story about dating in today's swipe-heavy society, and a young woman trying to find her own place in the world.

Long Way Down Corwin Press

Having worked for Southern Service Paws for a few years now, I like to think I'm prepared for just about any client meeting under the sun. I am dead wrong. The day I meet with single dad, Jacob Broaden, about potentially matching his daughter with one of our service dogs, I learn a few valuable lessons. 1) Always set my alarm clock. 2) Single dads are way hotter than I previously thought. 3) It is possible to go from fantasizing about kissing someone to wishing they would be run over by a truck in a matter of two minutes. Unfortunately, I don't hold that opinion of him for very long. Not when he shows me a different side of himself--one that's sweet as maple syrup and hot as apple pie fresh out of the

oven. Too bad this guy is so far out of my league that I shouldn't even be allowed to enter the game. Jake doesn't seem to get that memo though. And after a few days of working closely with him and his daughter, he starts looking at me with fire in his eyes, making me dream of something I probably shouldn't...A family. The Match is a feel-good romantic comedy! Perfect for readers who enjoy a sizzling romance without explicit content.
