The Most Wonderful Egg in the World

Verlag Stephen Janetzko

"One of the Good Ones is magic."

—Damon Young, author of *What Doesn't Kill You Makes You Blacker* A shockingly powerful exploration of the lasting impact of prejudice and the indomitable spirit of sisterhood that will have readers questioning what it truly means to be an ally, from sister-writer duo Maika Moulite

and Maritza Moulite, authors of *Dear Haiti, Love Elaine*. ISN'T BEING HUMAN ENOUGH? When teen social activist and history buff Kezi Smith is killed under mysterious circumstances after attending a social justice rally, her devastated sister Happi and their family are left reeling in the aftermath. As Kezi becomes another immortalized victim in the fight against police brutality, Happi begins to question the idealized way her sister is remembered. Perfect. Angelic. One of the good ones. Even as the phrase rings wrong in her mind—why are only certain

people deemed worthy to be missed?—Happi and her sister Genny embark on a journey to honor Kezi in their own way, using an heirloom copy of *The Negro Motorist Green Book* as their guide. But there's a twist to Kezi's story that no one could've ever expected—one that will change everything all over again. "Astonishing!" —Laura Ruby, two-time National Book Award finalist and author of *Bone Gap* "Brilliant" —Kirkus Reviews, starred review "Thrilling" —SLJ, starred review

The Legend of Saint Nicholas Hot Key Books

Beautiful, whimsical, and entertaining, this book of illustrations by Britta Teckentrup shows eggs in all their fragility, complexity, and variety. Is there anything as simple as an egg? Is there anything as complex? In this gorgeous picture book, Britta Teckentrup portrays eggs through the eyes of an artist. From hummingbirds to the extinct elephant bird, illustrations of the avian world's smallest and largest eggs demonstrate the variety present in nature. Pastel studies explore the rainbow of soft colors and intricate patterns that make eggs of common birds seem incredibly striking. In Teckentrup's hands, a scattering of broken egg shells become abstract art; a nest of unhatched eggs suggest the possibility and promise of life.

Her studies of songbirds and nests are themselves beautifully composed works of color and line. A lovely meditation on the diversity of eggs, this magnificent book offers hours of lingering pleasure, and becomes fertile ground for conversation and imagination.
