How 4chan and 8chan fuel white nationalism, inspire violence, and infect politics. The internet has transformed the ways we think and act, and by consequence, our politics. The most impactful recent political movements on the far left and right started with massive online collectives of teenagers. Strangely, both movements began on the same

website: an anime imageboard called 4chan.org. It Came from Something Awful is the fascinating and bizarre story of sites like 4chan and 8chan and their profound effect on youth counterculture. Dale Beran has observed the anonymous messageboard community's shifting activities and interests since the beginning. Sites like 4chan and 8chan are microcosms of the internet itself—simultaneously at the vanguard of contemporary culture, politics, comedy and language, and a new low for all of the above. They were the original meme

machines, mostly frequented by socially awkward and disenfranchised young men in search of a place to be alone together. During the recession of the late 2000's, the memes became political. 4chan was the online hub of a leftist hacker collective known as Anonymous and a prominent supporter of the Occupy Wall Street movement. But within a few short years, the site's ideology spun on its axis; it became the birthplace and breeding ground of the alt-right. In *It Came from Something Awful*, Beran uses his insider's knowledge and natural storytelling ability to chronicle 4chan's strange journey from creating rage-comics to inciting riots to—according to some—memeing Donald Trump into the White House.

It Came from Something Awful Three Rivers Press (CA)

A kaleidoscopic exploration that traverses history, literature, art, and science to reveal humans' unique and vibrant relationship with color. We have an extraordinary connection to color—we give it meanings, associations, and properties that last millennia and span cultures, continents, and languages. In *The World According to Color*, James Fox takes seven

elemental colors—black, red, yellow, blue, white, purple, and green—and uncovers behind each a root idea, based on visual resemblances and common symbolism throughout history. Through a series of stories and vignettes, the book then traces these meanings to show how they morphed and multiplied and, ultimately, how they reveal a great deal about the societies that produced them: reflecting and shaping their hopes, fears, prejudices, and preoccupations. Fox also examines the science of how our eyes and brains interpret light and color, and shows how this is inherently linked with the meanings we give to hue. And using his background as an art historian, he explores many of the milestones in the history of art—from Bronze Age gold-work to Turner, Titian to Yves Klein—in a fresh way. Fox also weaves in literature, philosophy, cinema, archaeology, and art—moving from Monet to Marco Polo, early Japanese ink artists to Shakespeare and Goethe to James Bond. By creating a new history of color, Fox reveals a new story about humans and our place in the universe: second only to language, color is the greatest carrier of cultural meaning in our world.

Kissinger's Shadow Macmillan

An examination of intoxicants from alcohol, caffeine, and tobacco to opiates, amphetamines, and hallucinogens. Looks at why intoxication has always been part of the human experience.

The Grishaverse will be coming to Netflix soon with *Shadow and Bone*, an original series. Enter the Grishaverse with *Book One of the Shadow and Bone Trilogy* by the #1 New York Times-bestselling author of *Six of Crows* and *Crooked Kingdom*. Soldier. Summoner. Saint. Orphaned and expendable, Alina Starkov is a soldier who knows she may not survive her first trek across the Shadow Fold—a swath of unnatural darkness crawling with monsters. But when her regiment is attacked, Alina unleashes dormant magic not even she knew she possessed. Now Alina will enter a lavish world of royalty and intrigue as she trains with the Grisha, her country's magical military elite—and falls under the spell of their notorious leader, the Darkling. He believes Alina can summon a force capable of destroying the Shadow Fold and reuniting their war-ravaged country, but only if she can

master her untamed gift. As the threat to the kingdom mounts and Alina unlocks the secrets of her past, she will make a dangerous discovery that could threaten all she loves and the very future of a nation. When the Beat Was Born Berghahn Books This timely and important book introduces readers to the largest and fastest-growing minority group in the United States - Latinos - and their diverse conditions of departure and reception. A central theme of the book is the tension between the fact that Latino categories are most often assigned from above, and how those defined as Latino seek to make sense of and enliven a shared notion of identity from below. Providing a sophisticated introduction to emerging theoretical trends and social formations specific to Latino immigrants, chapters are structured around the topics of Latinidad or the idea

of a pan-ethnic Latino identity, pathways to citizenship, cultural citizenship, labor, gender, transnationalism, and globalization. Specific areas of focus include the 2006 marches of the immigrant rights movement and the rise in neoliberal nativism (including both state-sponsored restrictions such as Arizona's SB1070 and the hate crimes associated with Minutemen vigilantism). The book is a valuable contribution to immigration courses in sociology, history, ethnic studies, American Studies, and Latino Studies. It is one of the first, and certainly the most accessible, to fully take into account the plurality of experiences, identities, and national origins constituting the Latino category.

Hit Makers Polity

The award-winning historian delivers a "brilliant and deeply informed" analysis of American power from the Spanish-American War to the Trump Administration (New York Journal of Books). In this sweeping and incisive history of US foreign relations, historian Alfred McCoy explores America's rise as a world power from the 1890s through the Cold War, and its bid to extend its hegemony deep into the

twenty-first century. Since American dominance reached its apex at the close of the Cold War, the nation has met new challenges that it is increasingly unequipped to handle. From the disastrous invasion of Iraq to the failure of the Trans-Pacific Partnership, fracturing military alliances, and the blundering nationalism of Donald Trump, McCoy traces US decline in the face of rising powers such as China. He also offers a critique of America's attempt to maintain its position through cyberwar, covert intervention, client elites, psychological torture, and worldwide surveillance.

The World According to Color

Prometheus Books

Contemporary society has seen an unprecedented rise in both the demand and the desire to be creative, to bring something new into the world. Once the reserve of artistic subcultures, creativity has now become a universal model for culture and an imperative in many parts of society. In this new book, cultural sociologist Andreas Reckwitz investigates how the ideal of creativity has grown into a major social force, from the art of the avant-garde and postmodernism to the

'creative industries' and the innovation economy, the psychology of creativity and self-growth, the media representation of creative stars, and the urban design of 'creative cities'. Where creativity is often assumed to be a force for good, Reckwitz looks critically at how this imperative has developed from the 1970s to the present day. Though we may well perceive creativity as the realization of some natural and innate potential within us, it has rather to be understood within the structures of a very specific culture of the new in late modern society. *The Invention of Creativity* is a bold and refreshing counter to conventional wisdom that shows how our age is defined by radical and restrictive processes of social aestheticization. It will be of great interest to those working in a variety of disciplines, from cultural and social theory to art history and aesthetics.

The Shadow Elephant Tu Books

Did you know that many of America's Founding Fathers—who fought for liberty and justice for all—were slave owners? Through the powerful stories of five enslaved people who were "owned" by four of our greatest presidents, this book

helps set the record straight about the role slavery played in the founding of America. From Billy Lee, valet to George Washington, to Alfred Jackson, faithful servant of Andrew Jackson, these dramatic narratives explore our country's great tragedy—that a nation "conceived in liberty" was also born in shackles. These stories help us know the real people who were essential to the birth of this nation but traditionally have been left out of the history books. Their stories are true—and they should be heard. This thoroughly-researched and documented book can be worked into multiple aspects of the common core curriculum.

Troublemakers Spectra

Annotation This book captures the human face of the frontlines, revealing both the visible and the hidden realities of contemporary war, power, and international profiteering in the 21st century.

Shadow and Bone White Lion Publishing
A new account of America's most controversial diplomat that moves beyond praise or condemnation to reveal Kissinger as the architect of America's current imperial stance In his fascinating new

book Kissinger's *Shadow*, acclaimed historian Greg Grandin argues that to understand the crisis of contemporary America—its never-ending wars abroad and political polarization at home—we have to understand Henry Kissinger. Examining Kissinger's own writings, as well as a wealth of newly declassified documents, Grandin reveals how Richard Nixon's top foreign policy advisor, even as he was presiding over defeat in Vietnam and a disastrous, secret, and illegal war in Cambodia, was helping to revive a militarized version of American exceptionalism centered on an imperial presidency. Believing that reality could be bent to his will, insisting that intuition is more important in determining policy than hard facts, and vowing that past mistakes should never hinder future bold action, Kissinger anticipated, even enabled, the ascendance of the neoconservative idealists who took America into crippling wars in Afghanistan and Iraq. Going beyond accounts focusing either on Kissinger's crimes or accomplishments, Grandin offers a compelling new interpretation of the diplomat's continuing influence on how the United States views

its role in the world.

Shadows of War St. Martin's Press

This eBook is best viewed on a color device. *North American Indian Arts* is a fascinating introduction to the arts and crafts reflected in the material culture of North American Indians. Knowledge of the skills and techniques developed by the various Native American tribes, and the fine materials produced provides a key to understanding the rich diversity of native cultures. Packed with information and authentic full-color illustrations, this handsome guide will be welcomed by everyone interested in American cultural history.

Out of Mao's Shadow Macmillan

A radical educator's paradigm-shifting inquiry into the accepted, normal demands of school, as illuminated by moving portraits of four young "problem children" In this dazzling debut, Carla Shalaby, a former elementary school teacher, explores the everyday lives of four young "troublemakers," challenging the ways we identify and understand so-called problem children. Time and again, we make seemingly endless efforts to moderate, punish, and even medicate our

children, when we should instead be concerned with transforming the very nature of our institutions, systems, and structures, large and small. Through delicately crafted portraits of these memorable children—Zora, Lucas, Sean, and Marcus—*Troublemakers* allows us to see school through the eyes of those who know firsthand what it means to be labeled a problem. From Zora's proud individuality to Marcus's open willfulness, from Sean's struggle with authority to Lucas's tenacious imagination, comes profound insight—for educators and parents alike—into how schools engender, exclude, and then try to erase trouble, right along with the young people accused of making it. And although the harsh disciplining of adolescent behavior has been called out as part of a school-to-prison pipeline, the children we meet in these pages demonstrate how a child's path to excessive punishment and exclusion in fact begins at a much younger age. Shalaby's empathetic, discerning, and elegant prose gives us a deeply textured look at what noncompliance signals about the environments we require students to adapt to in our schools. Both urgent and

timely, this paradigm-shifting book challenges our typical expectations for young children and with principled affection reveals how these demands—despite good intentions—work to undermine the pursuit of a free and just society.

In the Shadow of Liberty Metropolitan Books

An inside analysis of modern cultural and political upheavals in China by a fluent Beijing correspondent describes the power struggles currently taking place between the party elite and supporters of democracy, the outcome of which the author predicts will significantly affect China's rise to a world super-power. 125,000 first printing.

Shadowplayers Roaring Brook Press
The city states of the Lowlands have lived in peace for decades, bastions of civilization, prosperity and sophistication, protected by treaties, trade and a belief in the reasonable nature of their neighbors. But meanwhile, in far-off corners, the Wasp Empire has been devouring city after city with its highly trained armies, its machines, it killing Art . . . And now its hunger for conquest and war has become

insatiable. Only the aging Stenwold Maker, spymaster, artificer and statesman, can see that the long days of peace are over. It falls upon his shoulders to open the eyes of his people, before a black-and-gold tide sweeps down over the Lowlands and burns away everything in its path. But first he must stop himself from becoming the Empire's latest victim.

Opium's Long Shadow Penguin

"George Black rediscovers the history and lore of one of the planet's most magnificent landscapes. Read *Empire of Shadows*, and you'll never think of our first—in many ways our greatest—national park in the same way again." —Hampton Sides, author of *Blood and Thunder*
Empire of Shadows is the epic story of the conquest of Yellowstone, a landscape uninhabited, inaccessible and shrouded in myth in the aftermath of the Civil War. In a radical reinterpretation of the nineteenth century West, George Black casts Yellowstone's creation as the culmination of three interwoven strands of history - the passion for exploration, the violence of the Indian Wars and the "civilizing" of the frontier - and charts its course through the lives of those who sought to lay bare its

mysteries: Lt. Gustavus Cheyney Doane, a gifted but tormented cavalryman known as "the man who invented Wonderland"; the ambitious former vigilante leader Nathaniel Langford; scientist Ferdinand Hayden, who brought photographer William Henry Jackson and painter Thomas Moran to Yellowstone; and Gen. Phil Sheridan, Civil War hero and architect of the Indian Wars, who finally succeeded in having the new National Park placed under the protection of the US Cavalry. *George Black's Empire of Shadows* is a groundbreaking historical account of the origins of America's majestic national landmark.

The Shadow out of Time (□□□□) Golden Guides from St. Martin's Press

"A new star is rising in the fantasy firmament...teems with magic and spine-chilling amounts of skullduggery."—Dave Duncan, author of *The Great Game*
When young Alec of Kerry is taken prisoner for a crime he didn't commit, he is certain that his life is at an end. But one thing he never expected was his cellmate. Spy, rogue, thief, and noble, Seregil of Rhiminee is many things—none of them predictable. And when he offers to take on Alec as his

apprentice, things may never be the same for either of them. Soon Alec is traveling roads he never knew existed, toward a war he never suspected was brewing. Before long he and Seregil are embroiled in a sinister plot that runs deeper than either can imagine, and that may cost them far more than their lives if they fail. But fortune is as unpredictable as Alec's new mentor, and this time there just might be...Luck in the Shadows.

In the Shadows of the American Century

All Points Books

Until his early retirement at age 50, Hasse

Ekman was one of the leading lights of Swedish cinema, an actor, writer, and director of prodigious talents. Yet today his work is virtually unknown outside of Sweden, eclipsed by the filmography of his occasional collaborator (and frequent rival) Ingmar Bergman. This comprehensive introduction—the first ever in English—follows Ekman's career from his early days as a film journalist, through landmark films such as *Girl with Hyacinths* (1950), to his retirement amid exhaustion and disillusionment. Combining historical context with insightful analyses of

Ekman's styles and themes, this long overdue study considerably enriches our understanding of Swedish film history. [Sugar and Civilization](#) Simon and Schuster Edward Curtis was charismatic, handsome, a passionate mountaineer, and a famous photographer, the Annie Leibovitz of his time. He moved in rarefied circles, a friend to presidents, vaudeville stars, leading thinkers. And he was thirty-two years old in 1900 when he gave it all up to pursue his Great Idea: to capture on film the continent's original inhabitants before the old ways disappeared.
