The boy who comes back from a war far away in a wooden box is glorified and called a hero. As the funeral plans are made in a small Kent town, his siblings squabble over who he was. Maybe the fanfare isn't needed for this heroic martyr.

Vera Vera Vera is a blackly comic play about what we are willing to fight for. Her first work for the theatre, Hayley Squires is a bracing new voice, clear eyed and loud, looking at violence, neglect and apathy. Depicting a gritty slice of social realism, *Vera Vera Vera* portrays the disjunction between the lives of the surviving family against the memories and patriotic

commemoration for the dead. Looking at drug addiction, crime, verbal and domestic abuse, engrained racism, the characters' downtrodden and trapped lives are exposed with honesty and verve. This brave and uncompromising play questions both the validity of the myth of the martyred soldier and the true worth of survival for those left behind.

His works continue to be read

today and have been adapted many times into films. Chandler's writings have also been receiving growing amounts of scholarly attention, and while most of this attention has focused on his use of language, critics are now studying the fictitious world he created and the milieu in which he wrote. This reference is a detailed guide to his writings. A chronology and brief biography overview the chief events in his life and career, with the biography discussing thematic patterns in his life and writings. The major section of the book, Chandler's World, describes the characters and places in his 7 novels and 25 short stories. Alphabetically arranged entries also provide summaries of his works, along with discussions of key topics. The entries are concise and informative and thus readily guide the reader through Chandler's complex universe. Appendices provide information about adaptations of his works, along with extensive listings of primary and secondary sources for additional consultation.

After many years of geographical and bibliographical journeys, William Panczner has completed a project that many of us would have loved to initiate, but did not undertake because of its magnitude and intrinsic complexity. Not since L. Salazar Salinas, who is credited with authoring *Bole tin* numeros 40 and 41 (Instituto Geologico de Mexico, 1922, 1923), has an author been able to provide readers with a comprehensive volume containing information that is both authentic and reliable on Mexican mineralogy, mineral species, and localities. This volume is the most complete synthesis about Mexican minerals and their occurrences to date. It is richly illustrated with photographs and drawings, is well documented, and is organized into four sections, making it easy to use and enjoyable to read. The introduction contains an interesting summary of the mining history and the development of mineralogy. It also describes, in a condensed but accurate and stimulating manner, the geography and the mineralogy of the country, dividing it into eleven mineral provinces. The author discusses eight of the more important mining districts in Mexico, which produce fine mineral specimens. There is also a chronology of historical, geological, and mineralogical events in Mexico. This is followed by a bibliography with over 500 references on the subject.

Tim Burton is one of the great modern-day visionaries of cinema, a director who has fabricated his own deliciously nightmarish universe in movies as extraordinary as *Beetlejuice*, *Edward Scissorhands*, *Mars Attacks!* and *The Nightmare before Christmas* - not to mention his twisted takes on the tales of *Batman*, *Sleepy Hollow* and *Planet of the Apes*. Following the release of his re-imagining of Roald Dahl's *Charlie and the Chocolate Factory* with long-time comrade Johnny Depp (who also provides a new foreword here), this updated and fully illustrated new edition of the definitive Burton interview book casts light on Burton's Burbank childhood, his early work at Disney, the recurrent themes and stunning designs of his movies, and the creative obsessions that fuel them.

Postmodern Fairy Tales Springer Nature

"When Cedric Morris and Arthur Lett-Haines opened The East Anglian School of Painting and Drawing in Dedham, Essex, in 1937 they were both established artists with international reputations...Their idea was to set up an art school which would provide an alternative to the formal courses offered by the art schools in the metropolis. The aim, as expressed in the school's brochure, was to provide 'an environment where students can work together with more experienced artists in a common endeavour to produce sincere painting.' The emphasis was on encouraging freedom of invention, enthusiasm, and enjoyment, with the assumption that the student 'believes himself to have a clear idea of creative work and requires help only in its

production'...The extracts which form the text of this book are based largely on conversations with our contributors which took place during the years 1998 and 1999. Articles, extracts from an autobiography and a diary are also included. They comprise the affectionate memories of a few of those who knew and loved Benton End and its two gifted and hospitable hosts." -- from the Introduction.
Minerals of Mexico University of Pennsylvania Press
Iconic, groundbreaking interviews of Alfred Hitchcock by film critic François Truffaut—providing insight into the cinematic method, the history of film, and one of the greatest directors of all time. In Hitchcock, film critic François Truffaut presents fifty hours of interviews with Alfred Hitchcock about the whole of his vast directorial career, from his silent movies in Great Britain to his color films in Hollywood. The result is a portrait of one of the greatest directors the world has ever known, an all-round specialist who masterminded everything, from the screenplay and the photography to the editing and the soundtrack. Hitchcock discusses the inspiration behind his films and the art of creating fear and suspense, as well as giving strikingly honest assessments of his achievements and failures, his doubts and hopes. This peek into the brain of one of cinema's greats is a must-read for all film aficionados.

Postmodern Fairy Tales seeks to understand the fairy tale not as children's literature but within the broader context of folklore and literary studies. It focuses on the narrative strategies through which women are portrayed in four classic stories: "Snow White," "Little Red Riding Hood," "Beauty and the Beast," and "Bluebeard." Bacchilega traces the oral sources of each tale, offers a provocative interpretation of contemporary versions by Angela Carter, Robert Coover, Donald Barthelme, Margaret Atwood, and Tanith Lee, and explores the ways in which the

tales are transformed in film, television, and musicals.

Umberto Eco shares with us his Secret Life as a reader—his love for MAD magazine, for Scarlett O'Hara, for the nineteenth-century French novelist Nerval's Sylvie, for Little Red Riding Hood, Agatha Christie, Agent 007 and all his ladies. We see, hear, and feel Umberto Eco, the passionate reader who has gotten lost over and over again in the woods, loved it, and come back to tell the tale, *The Tale of Tales*. Eco tells us how fiction works, and he also tells us why we love fiction so much. This is no deconstructionist ripping the veil off the Wizard of Oz to reveal his paltry tricks, but the Wizard of Art himself inviting us to join him up at his level, the Sorcerer inviting us to become his apprentice.

Crying Men is a series of photographic portraits of famous film actors. Taylor-Johnson makes portraits of her subjects as actors; she shoots them in role, asking each to perform and cry for the camera and demands the actor's investment in the process. These are no passive sitters. Each of the resulting images is distinct; one actor recalls the hieratic clarity of a Byzantine saint whose tears appear decorative. Other images are of heroic crying where stoic restraint has broken down, there are some that display the voluptuous crying of medieval saints, there are images of cathartic crying, quiet tears of regret and grief, and yet whilst being moved by these intimate revelatory images we simultaneously know that the emotional display is being playacted. Sam Taylor-Johnson's film and photographic works are distinguished by their subversive creation of enigmatic situations full of latent but explosive energy. The portraits include Tim Roth, Gabriel Byrne, Laurence Fishburne, Woody Harrelson, Michael Gambon, Jude Law, Hayden Christiansen, Ryan Gosling, Robert Downey Jr., Paul Newman, Ed Harris, Benicio Del Toro, Willem Dafoe, and Kris Kristofferson.

Forgotten Books

'A dense, challenging and important book.' Philip French Observer 'At the very least, this blockbuster is probably the best single volume history of Hollywood we're likely to get for a very long time.' Paul Kerr City Limits 'Persuasively argued, the book is also packed with facts, figures and photographs.' Nigel Andrews Financial Times Acclaimed for their breakthrough approach, Bordwell, Staiger and Thompson analyze the basic conditions of American film-making as a historical institution and consider to what extent Hollywood film production constitutes a systematic enterprise, in both its style and its business operations. Despite differences of director, genre or studio, most Hollywood films operate within a set of shared assumptions about how a film should look and sound. Such assumptions are neither natural nor inevitable; but because classical-style films have been the type most widely seen, they have come to be accepted as the 'norm' of film-making and viewing. The authors show how these classical conventions were formulated and standardized, and how they responded to the arrival of sound, colour, widescreen ratios and stereophonic sound. They argue that each new technological development has served a function within an existing narrational system. The authors also examine how the Hollywood cinema standardized the film-making process itself. They describe how, over the course of its history, Hollywood developed distinct modes of production in a constant search for maximum efficiency, predictability and novelty. Set apart by its combination of theoretical analysis and empirical evidence, this book is the standard work on the classical Hollywood cinema style of film-making from the silent era to the 1960s. Now available in paperback, it is a 'must' for film students, lecturers and all those seriously interested in the development of the film industry.

Award-winning photographer Mark Nixon has created a trove of quirky and nostalgic portraits of teddy bears and other stuffed animals that have been lovingly abused after years of play. MuchLoved collects 60 of these images along with their accompanying background tales. An exhibit in the photographer's studio led to a small sensation on the Internet when a few of the pictures circulated unofficially on scores of blogs and on many legitimate news sites. Viewers have been intrigued by the funny, bittersweet images and their ironic juxtaposition of childhood innocence and aged, loving wear and tear. When you see these teddy bears and bunnies with missing noses and undone stuffing, you can't help but think back to childhood and its earliest companions who asked for nothing and gave a lot back. This prequel to the Ken Games series gives us a little more insight into the enigmatic Louviers, Anne's childhood sweetheart and partner-in-crime. Louviers is at the end of his tether. He blows up the apartment he shares with Anne and takes flight. After this incident, he accepts a contract in a war zone. Once he's there, he finds himself struggling as much with the suspiciously vague information on his target as he does understanding the language. Consumed by doubt, he falls victim to the ghosts of the past and his eternal, impossible love for Anne begins to devour him...
