Keep in mind, the CIMA exam is NOT an accountant exam. It is more of a business management nature. Pure accounting knowledge

would not be sufficient. CIMA places emphasis on strategic business skills. A CIMA qualification can widen one's career options, in and outside of finance. In fact, CIMA claims itself as the only accounting body that focuses primarily on business needs. As a Chartered Management Accountant, one is at the forefront of business planning, strategy and change across the sectors

- industry, commerce, and the public sector and not-for-profit organizations. It is generally believed that the CIMA certification is more "international" while the CMA certification (the one from IMA) is more US oriented. According to the CIMA, a Chartered management accountant is qualified to engage in a wide variety of activities, such as: -advising managers about the financial implications of

project management - explaining the financial consequences of management decisions and suggesting actions - making strategic decisions and formulating business strategies to create wealth and shareholder value - monitoring spending and financial control - managing risk and business assurance -cost determination and financial control - evaluating existing financial information systems and suggesting improvements -

conducting internal business audits and preparing periodic financial statements for managers -explaining the impact of the competitive landscape. The CIMA syllabus has the following exams: E1 enterprise operations E2 enterprise management E3 enterprise strategy F1 financial operations F2 financial management F3 financial strategy P1 performance operations P2 performance management P3 performance strategy To help you focus on the

relevant exam contents, we develop the CIMA ExamFOCUS Study Notes to accompany your reading efforts. As a chartered management accountant, you need to be familiar with a wide variety of business management knowledge domains. You do not have to be an expert in each of these domains, but you need to know them well for purpose of the exam, and also for job search. In fact, from a job search site you can find job description like this one: A chartered management

accountant applies the principles of accounting to provide the financial information necessary for the planning and financial protection of organizations in the public and private sectors. They establish and maintain financial policies and management information systems, as well as liaise with management colleagues on all aspects of finance. The role combines accounting skills with business management skills. Chartered management accountants look to the

future (rather than the past, as in auditing). They analyze the performance of a business and advise on how to pre-empt problems, adapt to changing circumstances and improve value. They may work in a finance function or within specialist departments providing financial advice and information to support strategic business decision-making and control. This set of study notes provide you with knowledge information on the relevant business management domains. As

an effective learning aid implemented in the format of study notes, the ExamFOCUS CIMA Study Notes package covers topics relevant to the nine CIMA exams. It is designed to present information in an easy-to-understand, conversational format. Notes are well-written, technically accurate and completely representative of the key information covered by the exams. **CIMA E3** Elsevier BPP Learning Media provides comprehensive materials that highlight

the areas to focus on for your exams and complement the syllabus to increase your understanding.

best thing I came across
during my CIMA studies. I
don't know any better
way to help yourself to
pass these tough exams."
Grzegorz Narozanski "Just
wanted to let you know
that I passed all 3 exams

using the textbook and
your mock exams which I
found really helpful,
thanks!" Nneoma Nwaogu
"I would also like to

fantastic news this
morning that I have finally
passed T4!! Many thanks
for your support and
advice in the lead up to
the exam, I am certain
that without the really

important tips on exam
strategy you provided I
would not have passed.
Many thanks again!"
Babak Fardaghaie "So I
managed a 76% pass for
E2 using your notes. They
are very well structured
and easy to use. Thank
you so very much."
Amanda Vakalisa "The
Astranti method of
teaching is systematic
and easy to follow. I
gained a lot of knowledge
and regret not enrolling
with Astranti for my
earlier CIMA exams. After
the course I was confident
about my preparation. I

would recommend the course to everyone sitting the T4b exam especially the MARKED mocks. Its the section by section detailed feedback from tutors that helps to improve and gain confidence." Gunjan Nagpal "I have cleared all 3 strategic level papers in my first attempt. I used the Astranti learning material during my final revision. They were short, precise and saved a great amount of time which made all the difference for me in the exam. Thank you very much." Raj The

CIMA E1 Managing Finance in a Digital World
 CIMA Publishing
 CIMA offers a business qualification with a

finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper E3 'Enterprise Strategy' is a wide-ranging exam that includes aspects of strategic analysis, choice and implementation. To pass, candidates need both technical knowledge and the ability to apply their knowledge to specific scenarios. The

syllabus is split into four areas: * Interacting with the Competitive Environment (20%) * Change Management (20%) * Evaluation of Strategic Options (30%) * Implementation of Strategic Plans (30%) The first section explores the impact and influence of an organisation's environment on its strategy. An organisation needs to take account of its environmental context as well as its own internal capabilities when assessing the strategic options available to it.

Having identified these options, it then has to evaluate them to decide which is the most appropriate to pursue. The E3 syllabus recognises that implementing strategic plans involves managing change, and 20% of the syllabus is now devoted to issues involved in managing the change process. Change Management has not previously been examined at Strategic Level in the CIMA exams. The final section of the syllabus looks at the ways organisations control and

measure the performance of the strategies they have implemented. The E3 Study Text provides you with comprehensive coverage of the principles of business strategy and how they can be applied to design and implement enterprise strategies. The Text also offers a range of short case studies which illustrate how business strategy ideas are applied in the real world. In the E3 exam, your ability to apply knowledge to a scenario is as important as pure knowledge, but it is still crucial to have a

sound understanding of the key terms and ideas. The 'key terms' feature in the text will help you identify these key terms, while the 'section summaries' provide a convenient overview of each section of the text."e;
