With its unparalleled coverage of English slang of all types (from 18th-century cant to contemporary gay slang), and its uncluttered editorial

apparatus, Cassell's Dictionary of Slang was warmly received when its first edition appeared in 1998. 'Brilliant.' said Mark Lawson on BBC2's *The Late Review*; 'This is a terrific piece of work - learned, entertaining, funny, stimulating' said Jonathan Meades in *The Evening Standard*. But now the world's best single-volume dictionary of English slang is about to get even better. Jonathon

Green has spent the last seven years on a vast project: to research in depth the English slang vocabulary and to hunt down and record written instances of the use of as many slang words as possible. This has entailed trawling through more than 4000 books - plus song lyrics, TV and movie scripts, and many newspapers and magazines - for relevant material. The research has

thrown up some fascinating results. *The Encyclopedia of Popular Music* Edinburgh University Press. This book pays tribute to the sacrifices and achievements of seven individuals who made difficult and controversial choices to insure that black Americans shared in the evolution of the nation's cultural heritage. Transcriptions and analyses

of never-before published uncensored conversations with Lorenzo Tucker, Lillian Gish, King Vidor, Clarence Muse, Woody Strode, Charles Gordone, and Frederick Douglass O'Neal reveal many of the reasons and rationalizations behind a racist screen imagery in the first three-quarters of the twentieth century. This primary source, replete with pictures, documentatio

n, and extensive annotations, recounts through the words of important participants what happened to many film pioneers when a new generation of African-Americans rebelled against the nation's stereotyped film imagery. "A unique historical resource, this book is a fitting tribute to these artists, reminding us of their courage, integrity, and

perseverance to succeed against great odds. The thorough, meticulous annotations make it an indispensable addition to collections in film studies and African American studies." - Denise Youngblood, Professor of History, University of Vermont. "The author has taken a unique approach and may have even created a new genre of writing: the interview embellished with scholarly

commentary. It is a fascinating experiment. . . This book belongs in every research library and in all public libraries from mid-size to large cities. It fills in lacunae between existing studies." - Peter C. Rollins, Editor-in-Chief of Film & History.

Combining industrial research and primary interview material with detailed textual analysis, Contemporary British Horror Cinema looks beyond the dominant paradigms which have explained away British horror in the past, and sheds light on one of the most dynamic and distinctive " yet scarcely talked about " areas of contemporary British film production. Considering high-profile theatrical releases, including The Descent, Shaun of the Dead and The Woman in Black, as well as more obscure films such as The Devil's Chair, Resurrecting the Street Walker and Cherry Tree Lane, Contemporary British Horror Cinema provides a thorough examination of British horror film production in the twenty-first century.

The End of a Primitive
ABC-CLIO
Written by an expert in media, popular culture,

gender, and sexuality, this book surveys the common archetypes of Internet users—from geeks, nerds, and gamers to hackers, scammers, and predators—and assesses what these stereotypes reveal about our culture's attitudes regarding gender, technology, intimacy, and identity. The Internet has enabled an exponentially larger number of people—individuals who are members of

numerous and vastly different subgroups—to be exposed to one other. As a result, instead of the simple "jocks versus geeks" paradigm of previous eras, our society now has more detailed stereotypes of the undesirable, the under-the-radar, and the ostracized: cyberperverts, neckbeards, goths, tech nerds, and anyone with a non-heterosexual identity. Each chapter of this book explores a different

stereotype of the Internet user, with key themes—such as gender, technophobia, and sexuality—explored with regard to that specific characterization of online users. Author Lauren Rosewarne, PhD, supplies a highly interdisciplinary perspective that draws on research and theories from a range of fields—psychology, sociology, and communications studies as well as feminist theory, film

theory, political science, and philosophy—to analyze what these stereotypes mean in the context of broader social and cultural issues. From cyberbullies to chronically masturbating porn addicts to desperate online-daters, readers will see the paradox in popular culture's message: that while Internet use is universal, actual Internet users are somehow subpar—less desirable, less

cool, less friendly—than everybody else. **Slow Fade to Black** New Academia Publishing, LLC
A Washington Post Notable Fiction Book for 2011 One of The Telegraph's Best Fiction Books 2011 Far from London's crime and pollution, Hanmouth's wealthier residents live in picturesque, heavily mortgaged cottages in the center of a town packed with artisanal

cheese shops and antiques stores. They're reminded of the town's less desirable outskirts—with their grim, flimsy housing stock and chain stores—only when their neighbors have the presumption to claim also to live in Hanmouth. When an eight-year-old girl from the outer area goes missing, England's eyes suddenly turn toward the sleepy town with a curiosity as piercing and

unblinking as the closed-circuit security cameras that line Hanmouth's idyllic streets. But somehow these cameras have missed the abduction of the girl, whose name is China. Is her blank-eyed hairdresser mother hiding her as part of a moneymaking hoax? Has she been abducted by one of the lurking perverts the townspeople imagine the cameras are protecting them from? Perhaps more

cameras are needed? As it turns out, more than one resident of Hanmouth has a secret hidden behind closed doors. There's Sam and Harry, the cheesemonger and aristocrat who lead the county's gay orgies. The quiet husband of postcolonial theorist Miranda (everyone agrees she's marvelous) keeps a male lover, while their daughter disembowels dolls she's named Child Pornography and Slightly Jewish. Moral

crusader John Calvin's Neighborhood Watch has an unusual reason for holding its meetings in secret. And, of course, somewhere out there is the house where little China is hidden. With the dark hilarity and unflinching honesty of a modern-day Middlemarch, King of the Badgers demolishes the already fragile privacy of Hanmouth's inhabitants. These characters, exquisitely

drawn and rawly human, proclaim Philip Hensher's status as an extraordinary chronicler of the domestic, and one of the world's most dazzling and ambitious novelists.

It's no secret that the African American community is in crisis. From health disparities and political injustice to crime statistics and

a variety of social ills, it is a community teetering on the edge. Through personal stories and essays, *Family Affair* addresses this imbalance, offering insight on issues and topics that the majority of African Americans only talk about in secret. The goal: to stimulate dialogue that supports reflection, healing, and understanding. *Family Affair* comprises five sections

representing the key features that influence the African American identity: History, Politics, Behavior, Beliefs, and Self-evaluation. The book showcases a wide cross-section of contributors representing various elements of the black community. Each section features at least one religious leader and one institutional leader, as well as many

celebrities from the worlds of music and broadcasting, along with ordinary people with extraordinary stories. *King of the Badgers* Sterling Publishing Company, Inc. The world's most comprehensive, well documented and well illustrated book on this subject. With extensive subject and geographical index. 318 photographs and illustrations - many in color.

Wild, has there been such a powerful epic adventure by a woman alone. In *Wild by Nature*, National Geographic Explorer Sarah Marquis takes you on the trail of her ten-thousand-mile solo hike across the remote Gobi desert from Siberia to Thailand, at which point she was transported by boat to complete the hike at her favorite tree in Australia. Against nearly insurmountable odds and

relying on hunting and her own wits, Sarah Marquis survived the Mafia, drug dealers, thieves on horseback who harassed her tent every night for weeks, temperatures from subzero to scorching, life-threatening wildlife, a dengue fever delirium in the Laos jungle, tropic ringworm in northern Thailand, dehydration, and a life-threatening abscess. This is an incredible

story of adventure, human ingenuity, persistence, and resilience that shows firsthand what it is to adventure as a woman in the most dangerous of circumstance, what it is to be truly alone in the wild, and why someone would challenge themselves with an expedition others would call crazy. For Marquis, her story is about freedom, being alive and wild by nature.

Ethnic American Minorities
Omnibus Press
This book offers a critical survey of film and media representations of black masculinity in the early twenty-first-century United States, between President George W.

Bush's 2001 announcement of the War on Terror and President Barack Obama's 2009 acceptance of the Nobel Peace Prize. It argues that images of black masculine authority have become increasingly important to the legitimization of contemporary policing and its leading role in the maintenance of an antiblack social order forged by racial slavery and segregation. It

examines a constellation of film and television productions—from Antoine Fuqua's *Training Day* to John Lee Hancock's *The Blind Side* to Barry Jenkin's *Moonlight*—to illuminate the contradictory dynamics at work in attempts to reconcile the promotion of black male patriarchal empowerment and the preservation of gendered antiblackness within political and popular culture. *National Union Catalog*

Rowman & Littlefield
The authoritative source for information on the people, places, and events of the African Diaspora, spanning five continents and five centuries. The field of African Diaspora studies is rapidly growing. Until now there was no single, authoritative source for information on this broad, complex discipline. Drawing on the work of over 300 scholars, this

encyclopedia fills that void. Now the researcher, from high school level up, can go to a single reference for information on the historical, political, economic, and cultural relations between people of African descent and the rest of the world community. Five hundred years of relocation and dislocation, of assimilation and separation have produced a rich tapestry

of history and culture into which are woven people, places, and events. This authoritative, accessible work picks out the strands of the tapestry, telling the story of diverse peoples, separated by time and distance, but retaining a commonality of origin and experience. Organized in A-Z sections covering global topics, country of origin, and destination country, the work is designed for

easy use by all. *Contemporary British Horror Cinema* Grove Press Since publishing the original edition of *A Woman's World* in 1995, *Travelers' Tales* has been the recognized national leader in women's travel literature, and with the launch of the annual series *The Best Travel Writing* in 2004, the obvious next step was an annual collection of the best

women's travel writing of the year. This title is the tenth in that series—The Best Women's Travel Writing—presenting stimulating, inspiring, and uplifting adventures from women who have traveled to the ends of the earth to discover new places, peoples, and facets of themselves. The common threads connecting these stories are a female perspective and fresh, compelling

storytelling to make the reader laugh, weep, wish she were there, or be glad she wasn't. The points of view and perspectives are global, and themes are as eclectic as in all of our books, including stories that encompass spiritual growth, hilarity and misadventure, high adventure, romance, solo journeys, stories of service to humanity, family travel, and

encounters with exotic cuisine. *Blue Movie* Univ of California Press *Slow Fade to Black* is a history of US African-American accomplishment in film from the earliest movies through World War II. It explores the growth of discrimination as filmmakers became more and more intrigued with myths of the Old South. **The Film Club** Farrar, Straus and Giroux "This is a

These essays examine "film noir" in the light of contemporary social and political concerns, attempting to move beyond the views of the early French critics. Topics range from the re-

emergence of "noir" in films such as "Bladerunner", to the relations between the sexes and the role of women. *Encyclopedia of the African Diaspora* Bloomsbury Publishing

Two bombs over Japan. Two shells. One called Little Boy, one called Fat Man. Three days apart. The one implicit in the other. Brothers. Named one of Flavorwire's best independent books of 2014,

and winner of the 2013 Horatio Nelson Fiction Prize. In this striking debut novel, the atomic bombs dropped on Japan are personified as Fat Man and Little Boy. This small measure of humanity is a cruelty the bombs must suffer. Given life from death, the brothers' journey is one of surreal and unsettling discovery, transforming these symbols of mass destruction into beacons of longing and hope.

"Impressive. . . The novel straddles a hybrid genre of historical magical realism."
—The Japan Times

"Meginnis's talent is his ability to make the reader feel empathy for souls who killed so many. . . Many pages in this novel feel like engravings . . . Meginnis has written one of the best, most natural novels about the atomic bombs."
—Nick Ripatrazone, *The Millions*

Journal of Medical Science McFarland Over the last two decades, fatness has become the focus of ubiquitous negative rhetoric, in the USA and beyond, presented under the cover of the medicalized "war against the obesity epidemic". In *Fat on Film*, Barbara Plotz provides a critical analysis of the cinematic representation of fatness during this

timeframe, specifically in contemporary Hollywood cinema, with an emphasis on the intersection of gender, race and fatness. The analysis is based on around 50 films released since 2000 and includes examples such as *Transformers* (2007), *Precious* (2009), *Kung Fu Panda* (2008), *Paul Blart* (2009) and *Pitch Perfect* (2012). Plotz maps the

common cinematic tropes of fatness and also shows how commonplace notions of fatness that are part of the current "obesity epidemic" discourse are reflected in these tropes. In this original study, Plotz brings critical attention to the politics of fat representation, a topic that has so far received little attention within film and cinema studies.
