Pediatrics Board Review is a concise yet thorough review of pediatrics for pediatricians taking the pediatric board certification exam or recertification exam. This text is an outline-format, fact-filled, user-friendly review filled with exam-taking pearls to adequately prepare the exam-taker. Each year 200 new pediatric residents take the pediatric board exam and currently there is only one pediatric board review text on the market. The American Board of Pediatrics recently changed the requirements for the pediatric recertification process. Now, all board-certified pediatricians (roughly 70,000) need to take a closed- book exam once every 7 years (that means around 10,000 pediatricians a year will take the test). Therefore, they will need a review text.

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice - from cardiovascular emergencies through to obstetric

and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app - a separate product containing 180 randomised multiple-choice questions on all the topics within the book. Test bank Evidence-based clinically oriented material Question format coherent with updated ACEM guidelines updated in August 2011 References and further reading
