The Popular Front in
Europe Yale University
Press

Think you know about
British history and the
causes of the First World
War? Think again. This
fascinating and gripping

study of events at the
turn of the Twentieth
Century is a remarkable
insight into how political
and social factors that we
widely accept to be the
causes of The Great War,
were really just a
construct put together by
a very small, but
powerful, political elite...
'Thought-provoking . . .
Docherty and Macgregor
do not mince their words .

. . their arguments are
powerful' -- Britain at War
'Simply astonishing' --
***** Reader review 'Very
illuminating' -- *****
Reader review 'You simply
MUST read this book' --
***** Reader review 'This
is a page-turner' -- *****
Reader review

***** Hidden History

uniquely exposes those responsible for the First World War. It reveals how accounts of the war's origins have been deliberately falsified to conceal the guilt of the secret cabal of very rich and powerful men in London responsible for the most heinous crime perpetrated on humanity. For ten years, they plotted the destruction of Germany as the first stage of their plan to take control of the world. The assassination of Archduke Franz Ferdinand was no chance happening. It lit a

fuse that had been carefully set through a chain of command stretching from Sarajevo through Belgrade and St Petersburg to that cabal in London. Our understanding of these events has been firmly trapped in a web of falsehood and duplicity carefully constructed by the victors at Versailles in 1919 and maintained by compliant historians ever since. The official version is fatally flawed, warped by the volume of evidence they destroyed or concealed from public

view. Hidden History poses a tantalising challenge. The authors ask only that you examine the evidence they lay before you . . .

Le Front populaire en France Manchester

University Press

The Communist Party appeared a hundred years ago on the French political and social scene.

According to opinions and moments, it has been the party of Moscow, of those shot, of the working class, of the union of the left, the party of the foreigner or that of the nation. It has been underground, in government, in town halls, in factories or in the streets. Some considered it too revolutionary, others not enough. More than others, it aroused passions, positive or negative. It attracted many and repelled just as many. After the fall of the USSR, it decided to remain a communist

party, while many others gave it up. But it no longer has the place it once had, in reality as in the imagination. This book does not intend to judge, but to provide keys to understanding. It is based on a considerable number of archives that are now available and is an ordered and distanced look at an object that is not lacking in complexity and no doubt even in mystery. This book has been translated from French to English thanks to a financial help from the Gabriel Péri

Foundation and the LIR3S UMR Cnrs 7366 of Dijon. *Histoire vivante du Front populaire, 1934-1939* FeniXX
John Colton is a meticulous researcher and a fine craftsman. In his political biography of Leon Blum, these two qualities are beautifully blended; none of the available evidence appears to have been overlooked, and the enormous mass of variegated material has been transmuted in a polished, richly tapestried, and absorbing narrative.

Fascism and Big Business

Duke University Press
 Monograph tracing the
 historical evolution of
 strike and unofficial strike
 activities in France from
 1830 to 1968 - covers
 trade unionization, the
 impact of industrialization
 and urbanization, etc.

 412, graphs, maps,
 references and statistical
 tables.

The Image of the**Popular Front** Springer

Nature

Since its original landmark
 publication in 1980, A
 People's History of the

United States has been
 chronicling American
 history from the bottom
 up, throwing out the
 official version of history
 taught in schools -- with
 its emphasis on great
 men in high places -- to
 focus on the street, the
 home, and the,
 workplace. Known for its
 lively, clear prose as well
 as its scholarly research,
 A People's History is the
 only volume to tell
 America's story from the
 point of view of -- and in
 the words of -- America's
 women, factory workers,
 African-Americans, Native

Americans, the working
 poor, and immigrant
 laborers. As historian
 Howard Zinn shows, many
 of our country's greatest
 battles -- the fights for a
 fair wage, an eight-hour
 workday, child-labor laws,
 health and safety
 standards, universal
 suffrage, women's rights,
 racial equality -- were
 carried out at the
 grassroots level, against
 bloody resistance.
 Covering Christopher
 Columbus's arrival
 through President
 Clinton's first term, A
 People's History of the

United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

Front Populaire, Frente Popular Cambridge University Press
Out of the social and

economic turmoil of Europe in the 1930s, the Popular Front emerged as the spearhead of the left's bid to stop fascism in its tracks. Fifty years on from the birth of the Popular Front this edited collection assesses the impact of the idea of bourgeois-proletarian alliance on the European left as a whole. It also examines the fate of the Popular Front governments, both in France, which remained nominally 'at peace', and in Spain, where the bitter strife over social and

economic reform erupted into open civil war. *A Transnational History of Right-Wing Terrorism* Springer
Julius Fein examines the French response to the large number of German refugees between 1933 and 1938. Fein demonstrates how the Quai d'Orsay sought a compromise between the Republican canon, which said France must help the persecuted, and the factors that limited its willingness to accept refugees, including economic depression,

mass unemployment, anti-Semitism, and anti-German sentiment.

Strikes in France

1830-1968 Springer

The first comparative study of how the French Popular Front and its right-wing opponents transformed the masses into the people, whether in demonstrations and festivals, or theatre and film. Seven chapters examine the representation of the crowd, workers, electorate, nation and symbolic community, exploring parallels between left and right.
Le Front Populaire dans le Bas-Languedoc et le Roussillon (1) Routledge

This volume contains a series of essays which examines various regimes and working classes of such countries as Italy, France, Poland, the USA, the Soviet Union and Great Britain in the early 20th century.

The French Communist Party Pathfinder

Grèves, manifestations, tribunes politiques et syndicales... Par un puissant mouvement social, le Front populaire change la vie des Français : congés payés, semaine de 40 heures, hausse des salaires... De 1936 à

1938, les gouvernements du Front populaire, et notamment celui de Léon Blum, lancent des réformes historiques. Dans les villes et les campagnes, c'est la liesse : les ouvriers occupent les usines, les paysans luttent contre les saisies, les familles partent en vacances... Mais l'image de la joie collective masque les tensions nées de la peur du désordre, de l'entrave à la propriété privée ou d'un complot venu de l'étranger. À partir de nouvelles archives, Jean Vigreux

prouve que cette « échappée belle » a été une expérience gouvernementale fondamentale pour comprendre l'histoire sociale et politique de la France contemporaine. **The Republic in Danger** Rowman & Littlefield La manifestation de rue est une pratique minoritaire, antinomique au système parlementaire, longtemps dépourvue de tout statut juridique et qui ne doit qu'au vocable populaire de « manif » de s'être tardivement dotée d'une

dénomination non polysémique. Et pourtant, plus de 15 000 manifestations recensées en France métropolitaine cinquante années durant, une assise sociale, politique et géographique potentiellement sans limite, des périodes de basses eaux mais jamais de disparition prolongée, pas même durant la guerre ou sous l'Occupation et une incontournable donnée de l'histoire politique et sociale contemporaine. C'est de ce paradoxe que cette histoire des

manifestations de rue tente de rendre compte. Il s'agit de s'interroger sur la permanence du phénomène, son poids, son extension politique, sociale et géographique et leur pourquoi ; sur ce qui range la manifestation au nombre des causes pour la défense desquelles se mènent, parfois, des batailles. Que signifie le fait de privilégier parfois pareille forme d'action quand le droit de grève et le suffrage universel peuvent (et doivent), en droit, suffire à tout ?

Comment, pourquoi et avec quel résultat cette pratique qui est constitutivement la négation du système parlementaire finit-elle par s'imposer ? Comment le régime politique réussit-il à l'acclimater ? Avec quelles conséquences ?

Histoire du Front populaire FenixX

During the 1930s Europe was convulsed by political violence. The National Socialists rose to power in Germany and Fascists campaigned in Britain,

Spain and France. Yet Europe was also transformed in this decade through new applications of film, photography and radio. In fact, these political and technological developments were closely intertwined.

One Hundred Years of History of the French Communist Party
Cambridge University Press

A Transnational History of Right-Wing Terrorism offers new insights into the history of right-wing extremism and violence in

Europe, East and West, from 1900 until the present day. It is the first book to take such a broad historical approach to the topic. The book explores the transnational dimension of right-wing terrorism; networks of right-wing extremists across borders, including in exile; the trading of arms; the connection between right-wing terrorism and other forms of far-right political violence; as well as the role of supportive elements among fellow travelers, the state

security apparatus, and political elites. It also examines various forms of organizational and ideological interconnectedness and what inspires right-wing terrorism. In addition to several empirical chapters on prewar extreme-right political violence, the book features extensive coverage of postwar right-wing terrorism including the recent resurgence in attacks. This book will be of great interest to students and scholars of right-wing extremism, fascism, Nazism,

terrorism, and political violence.
