Financial Management:

Theory and Practice celebrates the 23rd Anniversary of its publication. Over these two decades, Indian business and finance have considerably changed owing to deregulation, liberalisation, privatisation, globalisation, and the ascendance of the services sector. The book has kept pace with these changes and captures the central themes and concerns of corporate financial management-making it both contemporary and

comprehensive. The book seeks to:
 *Build understanding of the central ideas and theories of modern finance
 *Develop familiarity with the analytical techniques helpful in financial decision making
 *Furnish institutional material relevant for understanding the environment in which financial decisions are taken
 *Discuss the practice of financial management.
Advanced Capital Budgeting Tata McGraw-

Hill Education
Capital budgeting is an important part of the financial management of a business organization. It is a process that business houses use to evaluate an investment project. The decision of whether to accept or deny an investment project is capital budgeting decision. Capital budgeting is important because it determines the long-term economic and financial profitability of any investment project. It lays down the future success of a business. Capital

Budgeting aims to develop not only an understanding of the concepts of capital budgeting but also to provide its practical application to help students learn both theory and practice of capital budgeting used in the financial management of a business organization. It analyzes the capital budgeting practices of corporate enterprises in India in diverse sectors, on comparative basis, in order to provide the reader a better insight

into the various issues and challenges regarding capital budgeting management.
