This book is a comprehensive historical overview of the formative period of Sufism, the major mystical tradition in Islam, from the ninth to the twelfth century CE. Based on a fresh reading of the primary sources and integrating the findings of recent scholarship on the subject, the author presents a unified narrative of Sufism's historical development within an innovative analytical framework. Karamustafa gives a new account of the emergence of mystical currents in Islam during the ninth century and traces the rapid spread of Iraq-based Sufism to other regions of the Islamic world and its fusion with indigenous mystical

movements elsewhere, most notably the Malr cultural context

This volume focuses on how the far right's views of Islam have been increasingly co-opted by both liberal and conservative parties and woven into the policies of Western governments over the past two decades. The unprecedented influence of xenophobic and Islamophobic parties, whether in coalition with governments or recipients of the popular vote, reflects a major realignment of forces and a danger to the Western core values of human rights and equality. From the Far Right to the Mainstream explores how Islamophobia has moved to the mainstream of Western policy making, and the role that

the media has played.

The essays in Reclaiming Indigenous Voice and Vision spring from an International Summer Institute held in 1996 on the cultural restoration of oppressed Indigenous peoples. The contributors, primarily Indigenous, unravel the processes of colonization that enfolded modern society and resulted in the oppression of Indigenous peoples.

"The Flagellants is the story of the romantic relationship between Ideal and Jimson. After a brief prologue establishing Ideal's childhood connection to a black community called "the Bottom," the novel unfolds as a series of arguments between the couple, representing the historical gender conflicts between black men and women."--eNotes.

The remarkable true story of the man tasked by the Nazis with prosecuting crimes at concentration camps. In autumn 1943, SS judge Konrad Morgen—a graduate of the Hague Academy of International Law—visited Auschwitz concentration camp to investigate an intercepted parcel

containing gold sent from the camp. While there, Morgen found the SS camp guards engaged in widespread theft and corruption. Worse, Morgen also discovered that inmates were being killed without authority from the SS leadership. While millions of Jews were being exterminated under the Final Solution program, Konrad Morgen set about gathering evidence of these “illegal murders.” Morgen also visited other camps, such as Buchenwald, where he had the notorious camp commandant Karl Koch and Ilse, his sadistic spouse, arrested and charged. Found guilty by an SS court, Koch was sentenced to death. Remarkably, the apparently fearless SS judge also tried to prosecute other Nazi criminals including Waffen-SS commanders Oskar

Dirlewanger and Hermann Fegelein and Auschwitz Commandant Rudolf Höss. He even claimed to have tried to indict Adolf Eichmann, who was responsible for organizing the mass deportation of the Jews to the extermination camps. This intriguing work reveals how the lines between justice and injustice became blurred in the Third Reich. As well as describing the actions of this often-contradictory character, the author questions Morgen’s motives and delves into his postwar life—which included both testifying at Nuremberg and being investigated for crimes himself.

This volume engages with antisemitic stereotypes as religious symbols that express and transmit a belief system of Jew-hatred. These religious symbols are stored in Christian, Muslim and even today's secular cultural and religious memories. This volume explores how antisemitic religious symbol systems can play a key role in the construction of

group identities.

This book presents the theory that the linguistic and cultural landscape of Europe north of the Alps and the Pyrenees was shaped in prehistoric times by the interaction of Indo-European speakers with speakers of languages related to Basque and to Semitic. These influences on the lexicon, grammar, and toponymy of the West Indo-European languages (with special focus on Germanic) are demonstrated in German and English research papers, provided here with summaries, commentaries, and a new introduction in English, and with general and etymological indexes.

During the winter of 1947, Black Elk, the Oglala Sioux holy man, related to Joseph Brown seven of the sacred Oglala traditions, including such revered rites as "The Keeping of the Soul", "The Rite of Purification", and "Preparing for Womanhood". The San Francisco Chronicle calls The Sacred Pipe "a valuable contribution to American Indian literature".

Islam and the Economic Challenge

Manchester University Press
Germania Semitica explores prehistoric language contact in general, and attempts to identify the languages involved in shaping Germanic in particular. The book deals with a topic outside the scope of other disciplines concerned with prehistory, such as archaeology and genetics, drawing its conclusions from the linguistic evidence alone, relying on language typology and areal probability. The data for reconstruction comes from Germanic syntax, phonology, etymology, religious loan names, and the writing system, more precisely from word order, syntactic constructions, word formation, irregularities in phonological form, lexical peculiarities, and the structure and rules of the Germanic runic

alphabet. It is demonstrated that common descent is neither a necessary nor a sufficient condition for reconstruction. Instead, lexical and structural parallels between Germanic and Semitic languages are explored and interpreted in the framework of modern language contact theory.

I.B.Tauris in association with the Iran Heritage Foundation It proposes a convincing contemporary answer answer to an ages-old mystery and conundrum: why, in the seventh century CE, did the seemingly powerful and secure Sasanian empire of Persia succumb so quickly and disastrously to the all-conquering Arab armies of Islam? Offering an impressive appraisal of the Sasanians' nemesis at

the hands of the Arab forces which scythed all before them, the author suggests a bold solution to the enigma. On the face of it, the collapse of the Sasanians - given their strength and imperial power in the earlier part of the century - looks startling and inexplicable. But Professor Pourshariati explains their fall in terms of an earlier corrosion and decline, and as a result of their own internal weaknesses. The decentralised dynastic system of the Sasanian empire, whose backbone was a Sasanian-Parthian alliance, contained the seeds of its own destruction. This confederacy soon became unstable, and its degeneration sealed the fate of a doomed dynasty.

The underlying goal of this book is to

facilitate and stimulate sharing of information on these phenomena and to provide an interdisciplinary framework for bringing about improved environmental conditions in Sindh. The book offers methods to identify environmental and climate change priority problems; analyzes interventions

to address such problems; establishes a social learning mechanism to continuously improve Sindh's responses and build resilience to climate variability and change; and provides opportunities for stakeholders to be involved in decisively tackling climate change and deteriorating environmental conditions.
