The intertribal pow-wow is the most widespread venue for traditional Indian music and dance in North America. Heartbeat of the People is an insider's journey into the dances and music, the traditions and regalia, and the functions and significance of these vital cultural events. Tara Browner focuses on the Northern pow-wow of the northern Great Plains and Great Lakes to investigate the underlying tribal and regional frameworks that reinforce personal tribal affiliations. Interviews with dancers and her own participation in pow-wow events and community provide fascinating on-the-ground accounts and provide detail to a rare ethnomusicological analysis of Northern music and dance.

Money is an evil that does good, and a good that does evil. It is wise to have money, says Pascal Bruckner, and wise to think and

talk about it critically. One of the world's great essayists guides us through the commentary that money has generated since ancient times, as he builds an unfashionable defense of the worldly wisdom of the bourgeoisie.

**Wonderful World 4: Grammar Book Anchor** Accomplished historical author James Reston, Jr., presents the enthralling saga of how the Christian kingdoms converted, conquered, and slaughtered their way to dominance in Europe as the year 1000 approached. Through Reston's brilliant narrative and engaging portraits of the unforgettable historical characters who embodied the struggle for the soul of Europe, students are introduced to a pivotal period in history during which an old order was crumbling, and terrifying, confusing new ideas were gaining hold in the populace. From the righteous fury of the Viking queen Sigrid the Strong-Minded, who burned unwanted suitors alive; to the brilliant but too-cunning Moor, al-Mansur the Illustrious Victor; to the aptly named English king Ethelred the Unready; to the abiding genius of the age, Pope Sylvester II—warrior kings and concubine empresses, maniacal warriors and religious zealots bring this stirring period to life.

**PB3 and the Vegetables** Routledge Language Diversity in the Sinophone World offers interdisciplinary insights into social, cultural, and linguistic aspects of multilingualism in the Sinophone world, highlighting language diversity and opening up the burgeoning field of Sinophone studies to new perspectives from sociolinguistics. The book begins by charting historical trajectories in Sinophone multilingualism, beginning with late imperial China through to the emergence of English in the mid-19th century. The volume uses this foundation as a jumping off point from which to provide an in-depth comparison of modern language planning and policies throughout the Sinophone world, with the final section examining multilingual practices not readily captured by planning frameworks and the ideologies, identities, repertoires, and competences intertwined within these different multilingual configurations. Taken together, the collection makes a unique sociolinguistic-focused intervention into emerging research in Sinophone studies and will be of interest to students and scholars within the discipline.
