What is emo? For starters it's a form of melodic, confessional, or EMOTional punk rock. But emo is more than a genre of music-it's the defining counterculture movement of the '00s. EVERYBODY HURTS is a reference book for emo, tracing its angsty roots all the way from Shakespeare to Holden Caulfield to today's most popular bands. There's nothing new about that perfect chocolate and peanut butter combination--teenagers and angst. What is new is that emo is the first cultural movement born on the internet. With the development of early social networking sites like Make Out Club (whose mission is to unite "like-minded nerds, loners, indie rockers, record collectors, video gamers, hardcore kids, and artists through friendship, music, and sometimes even love") outcast teens had a place to find each other and share their pain, their opinions, and above all,

their music—which wasn't available for sale at the local record store. Authors Leslie Simon and Trevor Kelley lead the reader through the world of emo including its ideology, music, and fashion, as well as its influences on film, television, and literature. With a healthy dose of snark and sarcasm, EVERYBODY HURTS uses diagrams, illustrations, timelines, and step-by-step instructions to help the reader successfully achieve the ultimate emo lifestyle. Or, alternately, teach him to spot an emo kid across the mall in order to mock him mercilessly.

"Mission" has become, for many North American Christians, an ambiguous

and often uncomfortable term. To many it brings to mind a past in which western culture was identified with the gospel in missionary practice and programs. Distressed with this history and uncertain about how to overcome it, many prefer to ignore the New Testament mandate that the church must be in mission if it is to be the church. Others swing the other way, declaring that everything the church does is mission, depriving the idea of mission of its power to define those specific actions of God which proclaim the gospel and build God's kingdom. "The church exists by missions, just as fire exists by burning." With these words of Emil Brunner, the author reminds us that to be the church is to be in mission. After describing the various "captivities of mission" which plague North American Christianity, the author argues for a robust and engaged practice of mission, beginning in congregations and extending to the broader community. If your main focus is to find love, then find love. If you are looking to have casual sex, say so. People are often surprised at

what they find when they are honest about their intentions. The Essential Guide on How to be a Hoe is a modern look on one of the oldest states in the world. The hoe. No, I don't mean the gardening tool. I mean what it takes to become sexually positive and take ownership of our bodies in a world that is constantly violating us with new advice, old ideas, and outdated judgements. People say we can be free but how? This is the problem that this guide attempts to solve, not just logistically, but mentally and spiritually too. This book was not only practical and full of excellent guidance on how to discover oneself and stay safe in a world that is slowly throwing off the chains of sexual oppression, but it also looks at making peace within ourselves, setting boundaries, making sure we are able to identify our liberation from our wounds and treating others with tolerance and respect. It is not afraid to talk about the things that are still considered to be taboo. The narrator is spirited, authentic and hilarious, making difficult topics relatable and understandable

In this compelling new book Vicky Hutchin provides an accessible and readable guide to effective practice in the revised EYFS which Explains the revised EYFS areas of learning and development Considers the three 'characteristics of effective learning' and the implications for practitioners in their interactions with children and the provision they make for them Explores in detail the role of practitioners and parents in supporting children's learning and development Examines the importance of partnership with parents in their children's learning and development and how to develop this Details the observation, assessment and planning cycle with a particular focus on the statutory

summative assessment, the 'Progress Check at Age Two' This is the revised EYFS brought to life for early years practitioners, professionals and students. Threaded throughout the book are real case studies taken from a range of inspiring early years settings. These are backed up by interviews with practitioners as they reflect on and develop their practice to ensure the best support for young children's development, learning and wellbeing. Each chapter makes reference to relevant research and includes 'top tips for effective practice'. "Effective Practice in the EYFS is a clear, comprehensive and accessible exposition of the new EYFS and its requirements for practitioners. Using case studies, examples from settings and observations of children, Vicky Hutchin brings breadth and depth to each aspect of the EYFS and ensures that practitioners have a principled understanding of the importance and relevance of each aspect of their work with young children. The Characteristics of Early Learning are given

appropriate significance and can be seen to underpin all subsequent chapters. The Prime and Specific Areas of Learning are each highlighted with great clarity and every chapter concludes with 'Top Tips for Effective Practice' which could be used to create a development plan by any setting wanting to reflect on current practice. This book would be valuable for all practitioners but particularly those new to the early years and wanting a clear reference guide to all that is important about teaching in this phase." Julie Fisher, Independent Early Years Advisor "This book will guide practitioners on their journey into the new requirements of the EYFS, and will build confidence. It is written with clarity, encourages common sense and draws on the good practice of real settings together with useful reference to research and literature. Just what is needed!" Professor Tina Bruce CBE, University of Roehampton, UK "As an Essential Guide to the revised EYFS Vicky Hutchin's book covers everything a practitioner needs to know and think about. The emphasis on the Characteristics of

Effective Learning ensures that the reader understands right from the outset that HOW children learn rather than WHAT they learn is a priority. There are clear explanations of the Characteristics which are underpinned by the theory of how children learn and develop, including important connections to the psychology of children's early learning. Vicky has woven together the statutory requirements of the EYFS with examples of good early years practice and the voice of the child. The central strand of observation and interpreting how children are learning supports practitioners' understanding and gives them helpful directions to the work of Ferre Laevers, Julie Fisher and others. There is a strong reflective element running through the book with helpful case studies, questions to think about and useful summaries at the end of each chapter.

Chapter 12 helpfully directs the reader to think about the EYFS as an evaluative tool to improve the quality of practice. These are the strengths of Vicky's book along with the following A good explanation of school readiness Clear explanations of child initiated and adult- led thinking and learning Links to parental involvement throughout the book as well as a dedicated chapter Assessment which is child focussed and based in the context of observation and planning next steps. The messages are clear and respectful of children Unpicking each area of learning and making the links between theory and practice as well as a frequent reminder of the holistic nature of children's development and learning Top tips for effective practice and points for reflection" Di Chilvers, Advisory Consultant in Early
