Avalanche Press Callahan's Place is the neighborhood tavern to all of time and space, where the regulars are anything but. Pull up a chair, grab a glass of your favorite, and listen to the stories spun by time travelers, cybernetic aliens, telepaths...and a bunch of regular folks on a mission to save the world, one customer at a time.

How to Survive Your Computer Workstation

McGraw-Hill/Contemporary Finally, a Photoshop book that is written expressly for professional photographers and hi-end serious amateurs that doesn't talk about F-stops, exposures, and how to frame a shot (you know all that stuff already--if you don't; I hate to say it, but this isn't for you). This new book, from Photoshop User magazine editor and bestselling author Scott

Kelby, starts at the moment your digital camera photos come into Photoshop, and he shows you the Photoshop pros techniques for managing, correcting, retouching and outputting your photos to knock your client's socks off, and turn you into a Photoshop production wizard. This book is absolutely ideal for traditional photographers who are making the jump to digital

photography, and Scott's casual, step-by-step, plain-English style makes even the most complex Photoshop techniques seem so easy and accessible. It's the type of book that makes you smile and think "Ahhhh, so that's how they do it" and then immediately you realize "Hey, I can do this!" The entire book is graphically rich, in full color cover-to-cover, and best of all it's packed with real-world project-based tutorials that will take you through the process of sizing your images with the proper resolution (and the secret to doing so without losing image quality), how to deal with High ISO noise, blue channel noise, and other common plagues introduced by digital cameras; you'll learn how the pros color correct their photos for output on everything from inkjet printers to printing presses, and the secrets to getting perfect fleshtones no matter where it's output. You'll learn the sharpening techniques today's top digital photographers use, and how the leading retoucher's perform "digital plastic surgery" in Photoshop, plus professional facial retouching techniques using Photoshop 7.0's amazing

new tools. Plus, you'll also learn how to manage your photos, "digital dodging and burning" tricks, dealing with common problems, making client presentations within Photoshop and on the Web, and the inside tips on how to work faster and more efficiently than you ever thought possible. If you're serious about digital photography and Photoshop, this is book you've been

waiting for. Battletech Field Manual BoD - Books on Demand The Algernon Files is a compilation of heroic and villainous NPCs designed to give a GM and his players additional resources for the Mutants & Masterminds game. It includes over 100 write-ups for NPCs of varying power levels, as well as maps, new rules, new powers, and new feats. It introduces the hero teams, The Sentinels, The Aerie, and

The Covenant, as well as solo heroes. The book also introduces the villainous teams The Black Knights, The Prometheans, and The Sinister Circle, as well as heavy hitters such as Praetorian and The Serpent Queen, followed by other villains and potential sparring partners of different types, power models, and general effectiveness. **Locomotive World** Macmillan Reprint of the

original, first published in 1843.

**Mercenary's Handbook**

McGraw-Hill/Contemporary  
A princess thinks she was a bird, a coconut that cost a thousand rupees, and a shepherd with a bag of

words...Kings and misers, princes and paupers, wise men and foolish boys, the funniest and oddest men and women come alive in this sparkling new collection of stories. The clever princess will only marry the man who can ask her a question she cannot answer; the orphan boy outwits his greedy uncles with a bag of ash; and an old couple in distress is saved by a magic drum.  
Sudha Murty's

grandparents told her some of these stories when she was a child; others she heard from her friends from around the world. These delightful and timeless folktales have been her favourites for years, and she has recounted them many times over to the young people in her life. With this collection, they will be enjoyed by many more readers, of all ages. Age group of target audience is

8+.  
The Secret Guide to Computers  
 Yale University Press  
 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation,

English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor;

it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past. *The Magic Drum and Other Favourite Stories* C R T Services, Incorporated Fantasy-roman.

**People** Fasa The Free Worlds League (FWL) field manual provides an extensive survey of House Marik's Free Worlds League, one of the major Inner Sphere military powers. The manual includes a full military history of the rebellion-riddled confederation, from the Succession Wars to the Andurien Civil War and beyond, and profiles of every League regiment, including the

elite Marik Guard and the chivalrous Knights of the Inner Sphere. Also included are color renderings of FWL uniforms and insignia and special rules for new, exclusive League weapons and BattleMechs. [Alexander the Great](#) Fasa BattleTech celebrates its tenth anniversary with the BattleTech Compendium: the Rules of Warfare, the ultimate guide to combat in the 31st century. All the rules

needed to simulate exciting conflicts between BattleMechs, vehicles, and infantry are included, revising and streamlining material from BattleTech, 3rd Edition, CityTech, 2nd Edition, and the original BattleTech Compendium. The Rules of Warfare also contains a concise history of the BattleTech universe and its movers and shakers, several new BattleMech and OmniTech designs, rules

for miniatures play, and full-color illustrations. [BattleTech Compendium](#) Random House A BattleTech and MechWarrior supplement describing the mercenary way of life. [BattleTech Field Manual](#) John Wiley & Sons In the year 3050 the mysterious invaders known as the Clans struck without warning from beyond known space. Their advanced 'Mechs destroyed all

opposition and captured planet after planet. Now the Clans' secrets are revealed in Field Manual: Warden Clans. The second of two volumes on the Clans, this BattleTech sourcebook describes the seven most noble Clans: Cloud Cobra, Coyote, Diamond Shark, Ghost Bear, Goliath Scorpion, Snow Raven, and Steel Viper. Each Clans tactics, uniforms and battle histories are described in

detail, along with new Clan 'Mechs and equipment.
