Numerology is the belief that numbers have power over events. It is a descendent of number mysticism, the belief the contemplation of numbers can give mystical and non-rational insights into life, the universe, and everything. Twenty-five hundred years ago, Pythagoras originated number mysticism, crediting certain numbers with characteristics, though numerology is a more recent invention that allots numbers, hence, characteristics to individuals. Underwood Dudley outlines here the history of number mysticism and numerology and gives many examples, including biorhythms, Bible-numberists, pyram.

Complete celebrated method for clarinet "O'Reilly Media, Inc."

The study of classic ragtime guitar is very challenging. For this set of lessons for the intermediate and advanced guitarist we have picked four ever-popular rags. You have the advantage in this series of learning from three different teachers, each with his own individual approach. 32 page tab/music book with three compact discs. LESSON ONE: The classic rag that started the "ragtime revival" was *The Entertainer*. This was used in the soundtrack for the film *The Sting*. It is a lyrical four part classic rag written by Scott Joplin. This lesson is taught by Stefan Grossman. LESSON TWO: One of the most popular classic rags written by Scott Joplin was his *Maple Leaf Rag*. Duck Baker teaches his arrangement to this highly syncopated and energetic classic rag. This is followed by *Silver Swan*. Stefan Grossman is your teacher for this beautiful classic rag. LESSON THREE: Our last lesson is a tour de force in ragtime arranging and playing. It is James Scott's *Hilarity Rag*. This is a four part classic rag taught by Leo Wijnkamp Jr.

At long last, the secrets of Tower of Power drummer David Garibaldi's groundbreaking funk/jazz fusion drumming techniques are presented in this innovative book. Whether you play rock, heavy metal, jazz or funk, you'll learn how to incorporate

Garibaldi's contemporary "linear" styles and musical concepts into your playing as you develop your own unique drumset vocabulary. Funk/Jazz techniques are highlighted in chapters on development of the "Two Sound Level" concept, Four-Bar Patterns, Groove Playing and Funk Drumming, followed by a series of challenging exercises which include 15 Groove Studies and 17 Permutation Studies. These techniques are combined with modern musical ideas that will help you build a solid foundation and add finesse to your bag of tricks.

First 50 Songs You Should Play On Ocarina Walter de Gruyter

Joe Franco presents an organized discussion of this powerful and consistent sound in a method he calls "The Single Stroke System." Focusing on beats, fills, and soloing over the double bass roll, this book provides practical applications that will guide a single bass player into the world of playing two bass drums.

Beyond bop drumming Hal Leonard

Cultivated in East Kentucky and North Carolina for over 100 years, the two finger picking style has almost been forgotten. Few "old timer" players have mastered this style but fortunately some committed players like Art Rosenbaum and Mike Seeger have preserved this heritage and kept the style present. And now in three installments, Sebastian Schroeder will introduce you to this interesting style. In this second 2-finger book the focus will be on Thumb Lead Style. Here the melody tones are plucked by the thumb, while the first and fifth string is played by thumb or index finger as drone strings. The tones of the lower strings of the banjo are easier when played in the Thumb Lead Style. So this add a nice contrast when accompanying singing or other instruments. Therefore this is also a good style for ballads. This book includes 48 pages for banjo beginners and advanced players, 48 downloadable audio examples and tablature for all exercises and songs.
