CRISTOPHER HANA

Report Surplus Record

To many people, a wheel loader is called a PayLoader, thanks to the dominance of the classic rubber-tired, hydraulic front-end loader first developed by the Frank G. Hough company in 1944. When International Harvester acquired Hough and combined it with its struggling construction equipment division in 1974, PayLine was born, with the PayLoader as its signature machine. This book tells the story of PayLine, which marked the high point of International Harvester's foray into construction equipment. Oscar H. Will III chronicles the company's early efforts, its success with machines ranging from the PayLoader to the PayHauler, and its expansion right up to its sale to Dresser Industries in 1982. With attention to each particular model, including history, specifications, market position, and color photographs of these mighty machines at work, this book is a fitting tribute to International Harvester's giants in the earth, and a critical chapter in the story of American industry.

Foundry Management & Technology Surplus Record

A history of the industrial and construction machines built by the International Harvester Company along with Hough and Dresser.

Foundry Lloyd's Register

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery,

and industrial equipment, listing over 100,000 industrial assets; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more.

Over 1,100 businesses list with the SURPLUS RECORD. October 2022 issue. Vol. 99, No. 10

Annual Report WIT Press

First published in 1971, these Guides provide invaluable information on thousands of commercial ports and terminals across the globe. They are compiled and published annually by LR OneOcean, whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency, sustainability, and overall industry success. The Guides cover a significant geographical breadth, and the most recent volume includes information on over 12,500 ports, harbours and terminals worldwide. These are fully indexed and contain detailed port plans and mooring diagrams.

Produce News Motorbooks

In its 8th edition the SAFE conference continues to publish important research contributing to the development of the field. The papers included in this volume are the work of engineers, scientists, field researchers, managers and other specialists involved in one or more of the theoretical and practical aspects of safety and security.

International California Mining Journal

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery,

and industrial equipment, listing over 95,000 industrial assets; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more.

Over 1,100 businesses list with the SURPLUS RECORD. November 2022 issue. Vol. 99, No. 11

Journals and Proceedings of the House of Assembly of the Province of Nova Scotia

"Directory of members, constitution and by-laws of the Society of American Military Engineers. 1935" inserted in v. 27.

Cargo Handling

The Jan. 1956 issue includes Fluid power engineering index, 1931-55.
