A Reluctant Bride (The Bride Ships Book #1) Baker Books

Life is hard. We often find ourselves walking through stories that don't feel like they should be ours. And yet here we are. We wonder where our good God is in the midst of it. But we are not left without hope. In fact—we have the greatest hope of all. Through vulnerable stories and rich insight, Paula Rinehart and Connally Gilliam point to the Larger Story that carries all the anxiety, longing, and beauty of your life. The backdrop of the big gospel story—creation (how life ought to be), the fall (how life is), redemption (how life can be), and restoration (how life will be one day)—gives context to our lives and hope for walking forward. The grand story of the gospel of Jesus Christ frames our every step. Discover renewed strength and joy in the middle of your ache . . . and the goodness of God that will give you the courage to remain yet undaunted.

A Bride of Convenience (The Bride Ships Book #3) WaterBrook

"This is an unabashed call to each and every American to moral duty for the future of life on earth," begins National Wildlife Federation president and CEO Larry J. Schweiger in this stirring exposé and call to action. Speaking to us not just as a conservation leader but also as an outdoor lover and a parent, Schweiger describes the causes and effects of global warming on our wildlife, ecosystems, and human life as we know it. With an engaging, down-to-earth tone (and a dash of wit; e.g., "What Happens in Greenland Will Not Stay in Greenland"), Schweiger breaks down the science behind our looming environmental catastrophe. Not letting go of hope, he also offers practical solutions and proposes a plan of action for everyday citizens. Last Chance will inspire each of us to take part in restoring the vital connection to our natural world before it's too late."

Newton and Polly Baker Books

A frank, humorous exploration of interabled dating, love, and marriage Ben Mattlin's wife, ML, recalls falling in love with his confidence and sheer determination. On one of their earliest dates, he persuaded her to ride on his lap in his wheelchair on their way home from an Elvis Costello concert. Thirty years later, they still travel like this from time to time, undaunted by the curious stares following them down the street. But In Sickness and in Health is more than an “inspiring” story of how a man born with spinal muscular atrophy—a congenital and incurable neuromuscular condition—survived childhood, graduated from Harvard, married an able-bodied woman, built a family with two daughters and a cat and a turtle, established a successful career in journalism, and lived happily ever after. As Mattlin considers the many times his relationship has been met with surprise or speculation by outsiders—those who consider his wife a “saint” or him just plain “lucky” for finding love—he issues a challenge to readers: why should the idea of an “interabled” couple be regarded as either tragic or noble? Through conversations with more than a dozen other couples of varying abilities, ethnic backgrounds, and orientations, Mattlin sets out to understand whether these pairings are as unusual as onlookers seem to think. Reflecting on his own experience he wonders: How do people balance the stresses of personal-care help with the thrill of romance? Is it possible that the very things that appear to be insurmountable obstacles to a successful relationship—the financial burdens, the physical differences, the added element of an especially uncertain future—could be the building blocks of an enviable level of intimacy and communication that other couples could only dream of? We meet Shane Burcaw, a twenty-three-year-old writer, who offers a glimpse of his first forays into dating with a disability. There's Rachelle Friedman, the “paralyzed bride,” as the media refers to her, and her husband, discussing the joys and challenges of a new marriage and a growing family. And Christina Crosby and her partner, Janet Jakobsen, reflect on how Crosby's disabling accident called for them to renegotiate their roles and expectations in their long-term relationship. What emerges is a candid glimpse into the challenges and joys of interabled love—from the first blush of sexual awakening to commitment and marriage and through to widowhood.

[The Reason for My Hope](#) Thomas Nelson

Claudia Black, along with over a dozen world-renowned psychotherapists including Resmaa Menakem, Peter Levine, Patrick Carnes, Richard Schwartz, and Tian Dayton, provides clinical, human-focused insights on healing, treatment, and recovery. According to the CDC, people today are struggling with an unprecedented rise in mental health concerns such as depression, eating disorders, substance abuse, behavioral addictions, suicide, and more. The greatest barriers to

getting help are their shame, their self-loathing, and the belief that their situation is hopeless. *Undaunted Hope* destigmatizes these disorders and invites readers to take the first step to help: asking for it. *Undaunted Hope* recounts that even in some of the most complex and dire situations, people can and do recover and find happiness. Through the narratives of twenty-one alumni from The Meadows, a world-renowned treatment facility headquartered in Arizona, there is great potential for readers to see themselves in parts of the stories—and ultimately find the courage to ask for help. Each story is told in the alumnus's own words, revealing the origins of their struggles, the chaotic course of events leading up to treatment, what help entailed, and how their lives became richer, fuller, and more hopeful once they were willing to take the first step toward healing. In this urgent and timely narrative, *The Meadows* presents the stories of the therapeutic work that occurs in its facilities, recognizing that trauma is most often the underlying issue to people's struggles. The groundbreaking work at The Meadows has been validated by the landmark Adverse Childhood Experience Study (ACES) carried out by the US Centers for Disease Control and Prevention for the past twenty-five years. These studies repetitively demonstrate the relationship of various traumas to mental health, substance abuse, and behavioral health care problems. For more than forty-five years, *The Meadows* has been addressing these issues with complex clients.
