How to Be an American Housewife Archipelago

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let’s Pretend This Never Happened*, Lawson’s long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the

dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside

A NEW YORK TIMES NOTABLE BOOK * ONE OF NPR'S BEST BOOKS OF THE YEAR "Knausgaard is among the finest writers alive." —Dwight Garner, New York Times The Morning Star is an astonishing, ambitious, and rich novel about what we don't understand, and our attempts to make sense of our world nonetheless. One long night in August, Arne and Tove are staying with their children in their summer house in southern Norway. Their friend Egil has his own place nearby. Kathrine, a priest, is flying home from a Bible seminar, questioning her marriage. Journalist Jostein is out drinking for the night, while his wife, Turid, a nurse at a psychiatric care unit, is on a nightshift when one of her patients escapes. Above them all, a huge star suddenly appears blazing in the sky. It brings with it a mysterious sense of foreboding. Strange things start to happen as nine lives come together under the star. Hundreds of crabs amass on the road as Arne drives at night; Jostein receives a call about a death metal band found brutally murdered in a Satanic ritual; Kathrine conducts a funeral service for a man she met at the airport—but is he actually dead?

Knausgaard’s struggle is still ongoing with *In the Land of the Cyclops* as he continues to navigate the fjord of truth between reality and experience “This, which we perhaps could call inexhaustible precision, is the goal of all art, and its essential legitimacy.” —Jessica Ferri, The Los Angeles Times In his first essay collection to be published in English, the New York Times bestselling author of the *My Struggle* series Karl Ove Knausgaard explores art, philosophy, and literature with piercing candor and remarkable erudition. Paired with full color-images, his essays render the shadowlands of Cindy Sherman’s photography, illuminate the depth of Stephen Gill’s eye, and tussle with the inner mechanics of Ingmar Bergman’s workbooks. In one essay he describes the figure of Francesca Woodman, arms coiled in birch bark and reaching up toward the sky—a tree. In another, he unearths Sally Mann’s photographs of decomposing corpses, so much so that branches and limbs, hair and grass, begin to harmonize. Each essay bristles with Knausgaard’s searing honesty and longing to authentically see, understand, and experience the world.

Endorsed by Amnesty International. Imagine if war broke out - not in Iraq or Afghanistan, somewhere far far away, but here, in our country. In *War*, Janne Teller embarks on a thought-provoking experiment: by simply turning the current crisis on its head, she reveals what it is like to flee your home country, to be exiled, and to fight for survival in a foreign country. In this illustrated short story, Europe has fallen apart and the only place at peace within reach is the Middle East. You follow a normal British family as they flee to the Middle East and see what they go through as refugees, through the eyes of their fourteen-year-old son. Originally published in Denmark in 2001, *War* has become more and more relevant and thought-provoking in the intervening years. In addition to the striking format and illustrations, what makes this book so special is that Janne Teller adapts the story for each country in which it is published.

Together, they search for answers amid crushing isolation. But while their empty world may appear harmless . . . it's not. Because nothing is quite as it seems, and if Hannah and Leo don't figure out what's going on, they might just be torn apart forever. Perfect for fans of John Green. A major work of contemporary fiction from a "leading light of international literature" (Publishers Weekly, starred review), Hanne Ørstavik, whose last novel, *Love*, won the PEN Translation Prize. A thought-provoking, existential novel – as Liv searches for meaning and identity in her own life, she must find the words to connect, comfort and lead others. Liv, an intense and reticent theologian, moves to a bitterly cold fishing village to take up a post as the church's new pastor following the death of her friend, Kristiane. In the upper rooms of a large house overlooking the fjord, Liv plans her sermons and studies the violent interplay of Norway's Christian colonial past. She trails downstairs into the apartment below for dinners and breakfasts with a widow and her two children. As Liv becomes acquainted with the villagers and their own private tragedies, memories bloom in passages that urgently question the unpredictable bedrock of language, and the peculiar channels of imagined experience as it might have been, if only there had been a different set of words, or an outstretched hand. The past mingles darkly with the present, cascading in chilling images: a dog lying dead in the snowy plains, Kristiane's teeth flashing as she laughs, a procession of singing, knife-carrying protesters curving along a river's edge. Martin Aitken's translation of this extraordinary novel rings with the brilliance and rigor of a master.

Pierre Winther is a world-renowned conceptualist, raconteur, image-maker, and visionary. For over three decades, the Copenhagen-born artist has pioneered the realms of photography and film. With his mind deeply rooted in cinema, he composes each image impeccably, telling entire narratives in a single moment. Timeless dramas unfold through depictions of organized chaos presented in bold, saturated hues. Winther uses lighting and composition to propel his subjects from the image's surface--allowing them to live among made-up and sometimes hyper-real worlds in ways that remain natural, human, and organic. And this happens without the aid of digital technology, a feat almost unheard of in photography today. It's clear that for Winther, strong concepts are what drive his work, while the medium is almost incidental. For instance, his most radical artistic treatments have been translated into award-winning commissions for Hugo Boss, Nike, Diesel, and others. His ground breaking editorial work includes spreads for *The Face*, *i-D*, *Rolling Stone*, *Vibe*, and *Vogue*.

Working in the vein of Anne Carson, Josefina Klougart's novel is both true-to-life and incredibly poetic in its relating of a brief, intense love affair and the grief and disillusionment that follow its end. While she recounts the time with her lover, the narrator is also heading back home, where her mother is dying of cancer. This contrast between recollection and the belief that certain things will always be present in your life runs throughout the book, underpinning the striking imagery and magnificent prose.
