Music Production For Beginners 2020 Edition: How to Produce Music, The Easy to Read Guide for Music Producers iUniverse

This book exposes the degree of rage today's teenagers feel and how our nation's schools are failing them, not just academically, but in just about every way imaginable. Hall and Handley propose practical techniques, procedures, and core values that can make high school a safe learning environment once again. Drawing from their many years of experience administering a high school that provided a safe and fulfilling learning environment, they introduce readers to teaching techniques, administrative policies, and design ideas that encourage students to speak out, express their indomitable idealism, and feel welcome and accepted. The learning process works best when students are supported, encouraged, and accepted. The authors tell the story of a special school—Mountain View—that upholds a strong belief in the value of each student through smaller classes, experiential learning, and an awareness of community in and out of school. This book describes the journeys of students who were angry, unsure, or struggling with various labels of learning disabilities, as well as students who were successful in the traditional educational system but sought more opportunities for creativity and self-expression. Their stories are told in the context of how to build and run a school that is keenly attuned to teenagers' needs. Twenty Questions for Parents help to pinpoint issues and difficulties children may be struggling with. Also included is a bibliography of helpful sources and suggested readings. In keeping with the efforts of the Bill and Melinda Gates Foundation to support small high schools around the United States, this book provides a blueprint for parents, school districts, and communities.

In the New York Times best-selling book *The Tapping Solution*, Nick Ortner, founder of the Tapping World Summit and best-selling filmmaker of *The Tapping Solution*, is at the forefront of a new healing movement. In this book, he gives readers everything they need to successfully start using the powerful practice of tapping—or Emotional Freedom Techniques (EFT). Tapping is one of the fastest and easiest ways to address both the emotional and physical problems that tend to hamper our lives. Using the energy meridians of the body, practitioners tap on specific points while focusing on particular negative emotions or physical sensations. The tapping helps calm the nervous system to restore the balance of energy in the body, and in turn rewire the brain to respond in healthy ways. This kind of conditioning can help rid practitioners of everything from chronic pain to phobias to addictions. Because of tapping's proven success in healing such a variety of problems, Ortner recommends to try it on any challenging issue. In *The Tapping Solution*, Ortner describes not only the history and science of tapping but also the practical applications. In a friendly voice, he lays out easy-

to-use practices, diagrams, and worksheets that will teach readers, step-by-step, how to tap on a variety of issues. With chapters covering everything from the alleviation of pain to the encouragement of weight loss to fostering better relationships, Ortner opens readers' eyes to just how powerful this practice can be. Throughout the book, readers will see real-life stories of healing ranging from easing the pain of fibromyalgia to overcoming a fear of flying. The simple strategies Ortner outlines will help readers release their fears and clear the limiting beliefs that hold them back from creating the life they want.
