This 1995 book is a detailed study of Sicilian life and economy in the 'transitional' reign of Frederick III (1296-1337).

Myths in Sicily Taylor & Francis

Second edition. A comprehensive survey of historical literature produced in Italy during the Renaissance; a major contribution which discusses hundreds of authors who wrote in Latin or Italian in all parts of Italy during the fifteenth and sixteenth centuries.

A Small Greek World Routledge

The principal theme of this volume is the importance of the public use of human remains in a historical perspective. The book presents a series of case studies aimed at offering historiographical and methodological reflections and providing interpretative approaches highlighting how, through the ages and with a succession of complex practices and uses, human remains have been imbued with a plurality of meanings. Covering a period running from late antiquity to the present day, the contributions are the combined results of multidisciplinary research pertaining to the realities of the Italian peninsula, hitherto not investigated with a long-term and multidisciplinary historical perspective. From the relics of great men to the remains of

patriots, and from anatomical specimens to the skeletons of the saints: through these case studies the scholars involved have investigated a wide range of human remains (real or reputed) and of meanings attributed to them, in order to decipher their function over the centuries. In doing so, they have traversed the interpretative boundaries of political history, religious history and the history of science, as required by questions aimed at integrating the anthropological, social and cultural aspects of a complex subject.

This Encyclopedia gathers together the most recent scholarship on Medieval Italy, while offering a sweeping view of all aspects of life in Italy during the Middle Ages. This two volume, illustrated, A-Z reference is a cross-disciplinary resource for information on literature, history, the arts, science, philosophy, and religion in Italy between A.D. 450 and 1375. For more information including the introduction, a full list of entries and contributors, a generous selection of sample pages, and more, visit the Medieval Italy: An Encyclopedia website.

Morgantina Studies, Volume I Princeton University Press

Described as "the perfect Baroque city," the southeastern Sicilian city of Noto was totally destroyed by an earthquake in 1693 and then rebuilt by ambitious citizens eager to match Italian achievements. The Genesis of Noto traces the complex history of Noto's foundation and growth as a grid-

planned Renaissance-Baroque utopia. Described as "the perfect Baroque city," the southeastern Sicilian city of Noto was totally destroyed by an earthquake in 1693 and then rebuilt by ambitious citizens eager to match Italian achievements. The Genesis of Noto traces the complex history of Noto's foundation and growth as a grid-planned Renaissance-Baroque utopia.

Lost Books Meltemi Editore srl

This is the first full-length volume in English that focuses on the historiographical section of the *Mirabilia* or *De mirabilibus auscultationibus* (On Marvelous Things Heard), attributed to Aristotle but not in fact by him. The central section of the *Mirabilia*, namely §§ 78–151, for the most part deals with historiographical material, with many of its entries having some relationship to ancient Greek historians of the 4th and 3rd centuries BC. The chapters in this volume discuss various aspects of this portion of the text, including textual issues involving toponyms; possible structural principles behind the organization of this section; the passages on Theopompus and Timaeus; mythography; the philosopher Heracleides of Pontos; Homeric exegesis; and the interrelationship between pseudo-Plutarch's *On Rivers*, a section of the historian Stobaeus' *Geography*, and the *Mirabilia*.

Historiography and Mythography in the Aristotelian *Mirabilia* is an invaluable resource for scholars and students of this text, and of Greek philosophy, historiography, and literature more broadly.

Sicania Oxford Symposium

The obelisk in Piazza Duomo in Catania is Egyptianizing: that is to say, it is a monument that imitates Egyptian figurative elements in the imagery and in the regal and divine attributes. Furthermore, it does not exhibit hieroglyphics relating to the cult of Isis, but simply incised designs: above all human and divine figures, placed from top to bottom, which, as they do not constitute hieroglyphic writing in the full sense, serve a purely ornamental purpose. A peculiar characteristic of our obelisk, which tourist guides should highlight, is the untypical and singular octagonal shape, which so far has not been found in any other known obelisks, which have quadrangular section.

The Seer and the City Booksprint

This authoritative work sheds light on the religious world of the Kalasha people of the Birir valley in the Chitral district of Pakistan, focusing on their winter feasts, which culminate every year in a great winter solstice festival. The Kalasha are not only the last example of a pre-Islamic culture in the Hindu Kush and Karakorum mountains but also practice the last observable example anywhere in the world of an archaic Indo-European religion. In this book, Augusto S. Cacopardo takes readers inside the world of the Kalasha people. Cacopardo outlines the history and culture of this ancient but still extant people. Exploring an array of relevant literature, he enriches our understanding of their practices and beliefs through illuminating comparisons with both the Indian religious world and the religious folklore of Europe. Bringing together several disciplinary approaches and drawing on extensive ethnographic fieldwork, this book offers the first extended study of this little-known but fascinating Kalasha community. It will take its place as a standard international reference source on the anthropology, ethnography, and history of religions in Pakistan and Central South Asia.

Classical Philology University of Illinois Press

The island of Sicily was a highly contested area throughout much of its history. Among the first to exert strong influence on its political, cultural, infrastructural, and demographic developments were the two major decentralized civilizations of the first millennium BCE: the Phoenicians and the Greeks. While trade and cultural exchange preceded their permanent presence, it was the colonizing movement that brought territorial competition and political power struggles on the island to a new level. The history of six centuries of colonization is replete with accounts of conflict and warfare that include cross-cultural confrontations, as well as interstate hostilities, domestic conflicts, and government violence. This book is not concerned with realities from the battlefield or questions of military strategy and tactics, but rather offers a broad collection of archaeological case studies and historical essays that analyze how political competition, strategic considerations, and violent encounters substantially affected rural and urban environments, the island's heterogeneous communities, and their social practices. These contributions, originating from a workshop in 2018, combine expertise from the fields of archaeology, ancient history, and philology. The focus on a specific time period and the limited geographic area of Greek Sicily allows for the thorough investigation and discussion of various forms of organized societal violence and their consequences on the developments in society and landscape.

Bilychnis Skenè. Texts and Studies

"L'ultima spiaggia" è un romanzo fantascientifico, fantascientifico e distopico. Le vicende narrate si svolgono nell'arco di sette anni, dal 2053 al 2059, con riferimenti ai decenni immediatamente precedenti. Si è nel pieno di uno scontro di civiltà tra il mondo occidentale e una nuova entità politica che mira a ricostituire l'antico impero persiano. L'evento cruciale che dà il via alla narrazione è lo scoppio di alcune bombe nucleari che colpiscono il mondo occidentale: dagli Stati Uniti, all'Europa, alla Russia, a Israele. Il bombardamento colpisce anche l'Italia, soprattutto la costa tirrenica, fino alla Sicilia. Per ritorsione, si ha un bombardamento nucleare che colpisce l'avversario. Ne emerge un mondo sconvolto, dove la povera umanità derelitta deve trascinarsi tra le sofferenze e i lutti subiti, le conseguenze imprevedibili sulla propria salute e sull'ambiente, la necessità impellente di sopravvivere davanti a un futuro fosco e incerto. L'umanità si divide in due grandi blocchi: i potenti (gli Eletti) che vorrebbero accaparrarsi le ultime terre incontaminate nell'emisfero australe (l'ultima spiaggia), e i Superflui, tutta quella massa di diseredati che dovrebbero sparire perché le risorse sono ormai molto limitate, oppure, nella migliore delle ipotesi, essere utilizzati come schiavi. Chi può organizzare la eliminazione di questa umanità "inutile" è una Cupola che raccoglie tutti i super potenti. I Superflui, da parte loro, si organizzano in una rete di formazioni resistenti, che cercano di opporsi al criminale progetto della Cupola. L'arma decisiva che porrebbe fine alla massa dei Superflui è la WPR, una terribile bomba che ridurrebbe tutto allo stato di polvere. Essa è contenuta in un laboratorio segreto e per farla esplodere è necessario risolvere una serie di quiz. Solo una mente geniale potrebbe riuscirci. Ma i dati sono tutti contenuti in un dispositivo che può capitare o nelle mani degli Eletti o in quella dei Superflui. In questo clima generale e in varie parti del mondo, dall'Italia all'Africa, dalla Palestina agli Stati Uniti, dalla Grecia alla Mongolia si delineano le storie di diversi personaggi, con i loro drammi, le loro fragilità, le loro genialità, i loro ideali e le loro meschinità, i loro odi tenaci e i loro appassionati amori. E queste storie finiscono tutte per collegarsi e per intrecciarsi insieme, in una sorta di grande dramma che giunge sino all'enigma finale: una volta trovata la soluzione per fare esplodere o disattivare la bomba, vale la pena o no salvare l'umanità? Il romanzo è lungo (infatti si suddivide in tre tomi, costituendo una trilogia) e anche complesso, perché vi si ritrovano vari filoni: quello socio-economico, quello interculturale, quello etico, quello

esistenziale-affettivo, quello spirituale, tutti condensati nelle vicende che riguardano storie concrete di esseri umani, con i loro sentimenti e i loro ideali, ma anche con i loro egoismi e le loro volontà di dominio e di sopraffazione. In definitiva, nel corso della narrazione si delinea l'eterna, ciclopica lotta tra il Male e il Bene, inquadrata nel mondo di un possibile futuro prossimo. In essa si intrecciano conoscenze, esperienze, meditazioni, desideri, ideali e fantasie che hanno dato vita e sostanza all'immaginario dell'autrice.

Subject Index of Modern Books Acquired Springer

Greek civilization and identity crystallized not when Greeks were close together but when they came to be far apart. This book looks at how Greek the network shaped a small Greek world where separation is measured by degrees of contact rather than by physical dimensions.

The Mythology of All Races ... BRILL

Combining impeccable scholarship with accessible, straightforward prose, *Pederasty and Pedagogy in Archaic Greece* argues that institutionalized pederasty began after 650 B.C., far later than previous authors have thought, and was initiated as a means of stemming overpopulation in the upper class. William Armstrong Percy III maintains that Cretan sages established a system under which a young warrior in his early twenties took a teenager of his own aristocratic background as a beloved until the age of thirty, when service to the state required the older partner to marry. The practice spread with significant variants to other Greek-speaking areas. In some places it emphasized development of the athletic, warrior individual, while in others both intellectual and civic achievement were its goals. In Athens it became a vehicle of cultural transmission, so that the best of each older cohort selected, loved, and trained the best of the younger. Pederasty was from the beginning both physical and emotional, the highest and most intense type of male bonding. These pederastic bonds, Percy believes, were responsible for the rise of Hellas and the "Greek miracle": in two centuries the population of Attica, a mere 45,000 adult males in six generations, produced an astounding number of great men who laid the enduring foundations of Western thought and civilization.

Up-to-date Guide for the Visitor to the Monuments of Agrigento Anthropos Editorial

The author considers the Morgantina terracottas as representatives of one of the liveliest traditions of the Greek minor arts, and thus he examines questions of stylistic development and influence, workshop traditions, and technique. Originally published in 1982. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Historians and Historiography in the Italian Renaissance BRILL

Stereotypical representations of the Mezzogiorno are a persistent feature of Italian culture at all levels. John Dickie analyzes these stereotypes in the post Unification period, when the Mezzogiorno was widely seen as barbaric, violent or irrational, an "Africa" on the European continent.

Rassegna della letteratura siciliana Univ of California Press

Questions of survival and loss bedevil the study of early printed books. Many early publications are not particularly rare, but many have disappeared altogether. Here leading specialists in the field explore different strategies for recovering this lost world of print.

The Decline and Fall of Medieval Sicily Barkhuis

Συναγωνίζεσθαι, the ancient Greek verb chosen as the title of this volume, belongs to the jargon of dramaturgy as employed by Aristotle in *Poetics*, where he emphasizes the function of the Chorus as an active co-protagonist in the dynamics of drama. Here it suggests the collaborative nature of this *Festschrift* offered to Guido Avezzi in the year of his retirement by friends and colleagues. The volume collects a wide selection of contributions by international scholars, grouped into four sections: Greek Tragedy (Part 1), Greek Comedy (Part 2), Reception (Part 3), and Theatre and Beyond (Part 4). The Authors. A. Andrisano, P. Angeli Bernardini, A. Bagordo, A. Bierl, S. Bigliuzzi, M.G. Bonanno, S. Brunetti, D. Cairns, G. Cerri, V. Citti, A.T. Cozzoli, F. Dall'Olio, M. Di Marco, M. Durante, S. Fornaro, A. Grilli, S. Halliwell, E.M. Harris, O. Imperio, P. Judet de La Combe, W. Lapini, V. Liapis, L. Lomiento, F. Lupi, A. Markantonatos, G. Mastromarco, E. Medda, F. Montana, F. Montanari, C. Neri, E. Nicholson, R. Nicolai, H. Notsu, G. Paduano, N. Pasqualicchio, M.P. Pattoni, A. Provenza, J. Redondo, A. Scafuro, S.L. Schein, A. Sidiropoulou, R. Tosi, P. Totaro, M. Treu, M. Tulli, G. Ugolini, P. Volpe, M. Zanolli

I culti orientali in Sicilia OUP USA

America in Italy examines the influence of the American political experience on the imagination of Italian political thinkers between the late eighteenth century and the unification of Italy in the 1860s. Axel Körner shows how Italian political thought was shaped by debates about the American Revolution and the U.S. Constitution, but he focuses on the important distinction that while European interest in developments across the Atlantic was keen, this attention was not blind admiration. Rather, America became a sounding board for the critical assessment of societal changes at home. Many Italians did not think the United States had lessons to teach them and often concluded that life across the Atlantic was not just different but in many respects also objectionable. In America, utopia and dystopia seemed to live side by side, and Italian references to the United States were frequently in support of progressive or reactionary causes. Political thinkers including Cesare Balbo, Carlo Cattaneo, Giuseppe Mazzini, and Antonio Rosmini used the United States to shed light on the course of their nation's political resurgence. Concepts from Montesquieu, Rousseau, and Vico served to evaluate what Italians discovered about America. Ideas about American "domestic manners" were reflected and conveyed through works of ballet, literature, opera, and satire. Transcending boundaries between intellectual and cultural history, *America in Italy* is the first book-length examination of the influence of America's political formation on modern Italian political thought.

Religion and Colonization in Ancient Greece Routledge

Seers featured prominently in ancient Greek culture, but they rarely appear in archaic and classical colonial discourse. Margaret Foster exposes the ideological motivations behind this discrepancy and reveals how colonial discourse privileged the city's founder and his dependence on Delphi, the

colonial oracle par excellence, at the expense of the independent seer. Investigating a sequence of literary texts, Foster explores the tactics the Greeks devised both to leverage and suppress the extraordinary cultural capital of seers. The first cultural history of the seer, *The Seer and the City* illuminates the contests between religious and political powers in archaic and classical Greece.
