BREANNA HARRISON

Revisiting the Gaze Yale University Press

All she needs is someone to prove her wrong. Laurel's life bears no resemblance to the love stories she writes. While handsome heroes are easy to imagine, they're much more difficult to find. Years of bad dates with creepy men have left her feeling cynical toward all things related to love. When she and her best friend find themselves caught up in Morna's meddling magic and are transported to seventeenth century Scotland, Laurel meets a man who threatens to change her attitude toward matters of the heart. After two years away, Raudrich returns to his home on The Isle of Eight Lairds to resume the duty he's pledged his life to. When he arrives, he finds an out-of-time lassie asleep in his bed. The woman intrigues him, and it doesn't take long before she captures his heart. But something inside causes her to resist her feelings. If only he could help her love herself, perhaps she would have room in her heart to love him in return. As their feelings grow, so does the

strength of an evil held captive beneath the castle--an evil that will do anything to escape. Will Laurel open herself up to the possibility of love? If she does, can she find the power within herself to outwit the evil she's destined to face? In 1975, after much resistance, Portugal became the last colonial power to relinquish its colonies on the African continent. The tardiness of Portuguese decolonization in Africa (Cabo Verde, Angola, Mozambique, Guinea Bissau, São Tomé e Príncipe) raises critical questions for the emergence of national literary and cultural production in the wake of national independence. Bringing together the works of poets, short story writers, and journalists, this book charts the emergence and evolution of the national literatures of Portugal's former African colonies, from 1975 to the present. The aim of this book is to examine the ways in which writers contended with the process of decolonization, forging national, transnational, and diasporic identities through literature while grappling with the legacies and continuities of racial power structures, colonial systems of representation, and the struggles for political sovereignty and social justice. This book will be the first of its kind in English to include canonical, emerging, and previously untranslated authors of poetry and short-form fiction to a new public.

Love Beyond Dreams Vintage

A comprehensive and timely resource on the depictions in film of enslaved African Americans and slavery from the Antebellum Period to Emancipation. American Slavery on Film highlights historical and contemporary depictions in film of the resistance, rebellion, and resilience of enslaved African Americans in the United States from the Antebellum period to Emancipation. In her study of such films as *Uncle Tom's Cabin* (1914), a silent movie adaptation of Harriet Beecher Stowe's novel; the groundbreaking and successful television miniseries *Roots* (1977); and the Harriet Tubman biopic *Harriet* (2019), Caron Knauer analyzes how African American slavery has been and continues to be portrayed in major studio blockbusters and independent films alike. Separating the romanticized and unrealistic depictions of slavery from the more accurate but often unflinching portrayals of its horrors, the author covers a wide range of topics, including the impact of slavery on popular culture, the Underground Railroad, Maroon communities, and the Los Angeles Film Rebellion of the 1960s. As a result, this book delivers a comprehensive, readable, and timely examination of enslaved African Americans and slavery in America's film history.

The Magical Matchmaker's Legacy Penn State Press

The apostle Paul has been justifiably described as the first and greatest Christian theologian. His letters were among the earliest documents to be included in the New Testament and, as such, they shaped Christian thinking from the beginning. As a missionary, theologian and pastor Paul's own wrestling with theological and ethical questions of his day is paradigmatic for Christian theology, not least for Christianity's own identity and continuing relationship with Judaism. The Cambridge Companion to St Paul provides an important assessment of this apostle and a fresh appreciation of his continuing significance today. With eighteen chapters written by a team of leading international specialists on Paul, the Companion provides a sympathetic and critical overview of the apostle, covering his life and work, his letters and his theology. The volume will provide an invaluable starting point and helpful cross check for subsequent studies.

In *Projecting Citizenship*, Gabrielle Moser gives a comprehensive account of an unusual project produced by the British government's Colonial Office Visual Instruction Committee at the beginning of the twentieth century—a series of lantern slide lectures that combined geography education and photography to teach schoolchildren around the world what it meant to look and to feel like an imperial citizen. Through detailed archival research and close readings, Moser elucidates the impact of this vast collection of photographs documenting the land and peoples of the British Empire, circulated between 1902 and 1945 in classrooms from Canada to Hong Kong, from the West Indies to Australia. Moser argues that these photographs played a central role in the invention and representation of imperial citizenship. She shows how citizenship became a photographable and teachable subject by tracing the intended readings of the images that the committee hoped to impart to viewers and analyzing how spectators may have used their encounters with these photographs for protest and resistance. Interweaving political and economic history, history of pedagogy, and theories of citizenship with a consideration of the aesthetic and affective dimensions of viewing the lectures, *Projecting Citizenship* offers important insights into the social inequalities and visual language of colonial rule.

Love Beyond Time Whitworth Art Gallery

Manchester at the end of the 19th century saw art education, design theory, community activism and socialist politics come together to make a uniquely rich visual culture. Walter Crane, the Arts and Crafts designer, theorist and socialist, was a key figure in this world. His astonishing body of work challenged the artistic and political establishment of the time. His connections to Manchester played a central role in Crane's fusion of art and politics. The exhibition features items such as book illustrations, political cartoons, socialist emblems and works of art. This exhibition has been devised and selected by Morna O'Neill, Mellon Assistant Professor, History of Art Department, Vanderbilt University, Nashville.

It began nearly four hundred years ago. The Conall clan and all their people were murdered in a surprise attack, their beloved castle and all evidence of who destroyed them burned to the ground with their bodies. In the centuries following, archaeologists searched through the ruins looking for any evidence of what or who had caused the untimely demise of such a powerful Scottish clan. All efforts were fruitless, until a spell put in place by an ancient Conall ancestor finally began to work its magic.... Texas kindergarten teacher, Brielle Montgomery, finds comfort in the mundane routines of her life, but when her archaeologist mother asks her to accompany her on a dig in Scotland, she decides to step out of her comfort zone. Once in Scotland, they discover a secret spell room below the castle ruins, and Bri finds herself transported back in time and suddenly married to the castle's ill-fated Laird. Now, she must work to change the fate of his people, all while trying to find a way to return to her home and century. But with each passing day, Bri finds herself falling more deeply in love with her new husband. If she can find a spell to bring her home, will she use it? And if she stays, will it ultimately mean her own death as well?

Readers' Guide to Periodical Literature

The instant New York Times bestseller By the acclaimed author of *In the Realm of Hungry Ghosts*, a groundbreaking investigation into the causes of illness, a bracing critique of how our society breeds disease, and a pathway to health and healing. In this revolutionary book, renowned physician Gabor Maté eloquently dissects how in Western countries that pride themselves on their healthcare systems, chronic illness and general ill health are on the rise. Nearly 70 percent of Americans are on at least one prescription drug; more than half take two. In Canada, every fifth person has high blood pressure. In Europe, hypertension is diagnosed in more than 30 percent of the population. And everywhere, adolescent mental illness is on the rise. So what is really "normal"

when it comes to health? Over four decades of clinical experience, Maté has come to recognize the prevailing understanding of “normal” as false, neglecting the roles that trauma and stress, and the pressures of modern-day living, exert on our bodies and our minds at the expense of good health. For all our expertise and technological sophistication, Western medicine often fails to treat the whole person, ignoring how today’s culture stresses the body, burdens the immune system, and

undermines emotional balance. Now Maté brings his perspective to the great untangling of common myths about what makes us sick, connects the dots between the maladies of individuals and the declining soundness of society—and offers a compassionate guide for health and healing. Cowritten with his son Daniel, *The Myth Of Normal* is Maté’s most ambitious and urgent book yet.
