AGUILAR NATHANAEL

The Muslim Brotherhood in Jordan CreateSpace

The Muslim Brotherhood and the West is the first comprehensive history of the relationship between the world's largest Islamist movement and the Western powers that have dominated the Middle East for the past century: Britain and the United States. In the decades since the Brotherhood emerged in Egypt in the 1920s, the movement's notion of "the West" has remained central to its worldview and a key driver of its behavior. From its founding, the Brotherhood stood opposed to the British Empire and Western cultural influence more broadly. As British power gave way to American, the Brotherhood's leaders, committed to a vision of more authentic Islamic societies, oscillated between anxiety or paranoia about the West and the need to engage with it. Western officials, for their part, struggled to understand the Brotherhood, unsure whether to shun the movement as one of dangerous "fanatics" or to embrace it as a moderate and inevitable part of the region's political scene. Too often, diplomats failed to view the movement on its own terms, preferring to impose their own external agendas and obsessions. Martyn Frampton reveals the history of this complex and charged relationship down to the eve of the Arab Spring. Drawing on extensive archival research in London and Washington and the Brotherhood's writings in Arabic and English, he provides the most authoritative assessment to date of a relationship that is both vital in itself and crucial to navigating one of the world's most turbulent regions.

Inside the Brotherhood Amsterdam University Press

The Muslim Brotherhood is one of the oldest and most influential Islamist movements. As the party ascends to power in Egypt, it is poised to adopt a new system of governance and state-society relations, the effects of which are likely to extend well beyond Egypt's national borders. This book examines the Brotherhood's visions and practices, from its inception in 1928, up to its response to the 2011 uprising, as it moves to redefine democracy along Islamic lines. The book analyses the Muslim Brotherhood's position on key issues such as gender, religious minorities, and political plurality, and critically analyses whether claims that the Brotherhood has abandoned extremism and should be engaged with as a moderate political force can be substantiated. It also considers the wider political context of the region, and assesses the extent to which the Brotherhood has the potential to transform politics in the Middle East.

The Muslim Brotherhood Routledge

The Muslim Brotherhood is one of the most influential Islamist organisations today. Based in Egypt, its network includes branches in many countries of the Near and Middle East. Although the organisation has been linked to political violence in the past, it now proposes a politically moderate ideology. The book provides an in-depth analysis of the Muslim Brotherhood during the years of al-Hudaybi's leadership, and how he sought to steer the organization away from the radical wing, inspired by Sayyid Qutb, into the more moderate Islamist organization it is today. It is his legacy which eventually fostered the development of non-violent political ideas. During the years of persecution, 1954 to 1971, radical and moderate Islamist ideas emerged within the Brotherhood's midst. Inspired by Sayyid Qutb's ideas, a radical wing evolved which subsequently fed into radical Islamist

networks as we know them today. Yet, it was during the same period that al-Hudaybi and his followers proposed a moderate political interpretation, which was adopted by the Brotherhood and which forms its ideological basis today.

Inside the Muslim Brotherhood' provides a comprehensive analysis of the Muslim Brotherhood in Egypt since 1981. The book unpacks the principal factors that shape the Brotherhood's identity, organization, and activism, investigating the processes of socialization, indoctrination, recruitment, identification, networking, and mobilization utilized by the movement. Khalil al-Anani argues that the Brotherhood is not merely a political actor seeks power but also an identity maker that aims to change societal values, norms, and morals to line up with its ideology and worldview. As a socio-political movement, he finds, the Brotherhood is involved in an intensive process of meaning construction and symbolic production that shape individuals' identity and gives sense to their lives. The result is Brotherhood a distinctive code of identity that governs the norms, values, and regulations that bind members together, maintains their activism, and guides their behavior in everyday life.

The Muslim Brotherhood Oxford University Press

The al Ikhwan al Muslimim, the Society of Muslim Brothers or Muslim Brotherhood, (MB) is an international Islamist organization with over fifty national branches. Its motto reflects its Salafi jihadist motives and methods: "Allah is our objective. The Prophet is our leader. Qur'an is our law. Jihad is our way. Dying in the way of Allah is our highest hope." Contrary to the American national narrative endorsed by the media and public leaders, jihad is part of orthodox Islam and a fundamental component of Islamic law. The MB's goals, strategy, doctrine, and tactics descended logically from the sources of Islamic law, Sharia, which include the "trilogy of Sharia": the Qur'an, Sira, and Hadith. MB writers are not radicals who have adopted an unusual interpretation of Islam. Rather, they carefully based their strategy for political action in America upon Sharia-compliant doctrines of jihad, holy war, and da'wa, invitation to Islam. The MB in North America built their goals and strategies upon the international strategies and implemented these strategies through various front groups established to maintain some secrecy for the MBs members. The goals, strategies, and nature of the relationships with the MB and its affiliate organizations in America all work to achieve the international MB's ultimate goal, which is to establish a global caliphate – a single Islamic state where Sharia is enforced. The MB thus seeks to propagate Islam universally as a political, social, legal, financial, and religious system. These international goals, as well as the supporting goals sought by the MB in America represent a fundamental threat to the United States (US) and the American way of life.

Since the 2011 revolution in Egypt, the Muslim Brotherhood has emerged as a key political player. Although individuals under the age of 35 make up a large share of the membership, the group's strict hierarchy has led to disaffection among its youth. These members merit attention not only as a challenge to the Brotherhood's organizational cohesion, but as a potential conduit for expanding U.S. engagement with the group.

The Muslim Brotherhood in the West remains a mysterious entity. In *The Closed Circle*, Lorenzo Vidino offers an unprecedented inside view into how one of the world's most influential Islamist groups operates. He marshals unique interviews with prominent former members and associates from Europe, the United Kingdom, and North America, shedding light on why and how people join and leave Western outfits of the Muslim Brotherhood. Drawing on these striking personal accounts, Vidino weaves together the experiences of individuals who participated in and later renounced Brotherhood groups. Their perspectives provide a wealth of new information about the Brotherhood's secretive inner workings and the networks that connecting the small yet highly organized cluster of Brotherhood-influenced groups. *The Closed Circle* examines the tactics the Brotherhood uses to recruit and retain participants as well as how and why individuals make the difficult decision to leave. Through the stories of diverse former members, Vidino paints a portrait of a highly structured, tight-knit movement. His unprecedented access and understanding of the group's activities and motivations has significant policy implications concerning Western Brotherhood organizations and also illuminates the underlying mechanisms found in a range of extremist groups.

A look at the history of the Muslim Brotherhood in Syria, examining why the group failed to capitalise on its political advantage during the Syrian uprising and civil war.

The Muslim Brotherhood in Syria Harvard University Press

The Muslim Brotherhood is often represented in mainstream media as a theocratic organisation that preaches Qur'an-based violence and is out to grab power in the West. As this book shows, such representations are wrought with prejudice and oversimplification; the organisation is in reality much more dynamic and diverse. Its goals, ideology and influence have never been static and vary greatly amongst its descendants in both Europe and the Middle East. Joas Wagemakers introduces the reader to this fascinating organisation and the major ideological and historical developments that it has gone through since its emergence in 1928.

This unique study offers a new perspective on the Muslim Brotherhood and its objectives.

[Muslim Brotherhood Review](#) Cambridge University Press

This is the first in-depth study of the relationship between the Egyptian Muslim Brotherhood and its own members. Drawing on years of participant observation, extensive interviews, previously inaccessible organizational documents, and dozens of memoirs and writings, the book provides an intimate portrayal of the recruitment and socialization of Brothers, the evolution of their intricate social networks, and the construction of the peculiar ideology that shapes their everyday practices. Drawing on his original research, Kandil reinterprets the Brotherhood's slow rise and rapid downfall from power in Egypt, and compares it to the Islamist subsidiaries it created and the varieties it inspired around the world. This timely book will be of great interest to students and scholars of the politics of the Middle East and to anyone who wants to understand the dramatic events unfolding in Egypt and elsewhere in the wake of the Arab uprisings.

The Fourth Ordeal tells the history of the Muslim Brotherhood in Egypt from the late 1960s until 2018. Based on over 140 first-hand interviews with leaders, rank-and-file members and dissidents, as well as a wide range of original written sources, the story traces the Brotherhood's re-emergence and rise following the collapse of Nasser's Arab nationalism, all the way to its short-lived experiment with power and the subsequent period of imprisonment, persecution and exile. Unique in terms of its source base, this book provides readers with unprecedented insight into the Brotherhood's internal politics during fifty years of its history.

The Muslim Brotherhood, Its Youth, and Implications for U.S. Engagement Harvard University Press

The Muslim Brotherhood is a phenomenon worthy of investigation given its geographical reach and the depth of its social and political influence, not only in the Arab and Muslim regions, but throughout the whole world. An analytical view of the historical circumstances surrounding the Group's emergence in Egypt is key to understanding the factors that have shaped its followers, its ideological vision and its tools of change. An examination of the social, economic and cultural environment which witnessed the inception of the Muslim Brotherhood is of special importance, as it allows us to envision the overall conditions that prevailed in Egypt at the time of the Group's founding. Such a study is an attempt not only to understand the events and developments that accompanied the emergence of the Muslim Brotherhood, but to identify the ways in which these developments have colored events of the recent past. The study highlights the intellectual origins of the Muslim Brotherhood as embodied in Sunni Orthodoxy, the ideology of the Khawarij, and pioneers of the Arab-Islamic Renaissance (Nahda), such as Jamal al-Din al-Afghani, Muhammad Abduh, Muhammad Rashid Rida, and Abul A'la Maududi, whose thought deeply impacted the formulation of the Brotherhood's ideas. The study also addresses the role played by figures such as Hasan al-Banna and Sayyid Qutb, who entrenched violence within the Group's rhetoric, worldview and actions. No less importantly, the study addresses the theoretical foundations of the Brotherhood's thought and approach, which are highly generalized and ambiguous despite the Brotherhood's claim that they are authentic and deeply rooted in the Islamic legal and juristic tradition.

[The History and Legacy of Ikhwanul Muslimin \(Muslim Brotherhood\)](#) BRILL

Since its founding in 1945, the Jordanian Muslim Brotherhood has enjoyed decades of almost continuous parliamentary presence and state acceptance in Jordan, participating in elections, organising events and even establishing a hospital. In this detailed account of the Muslim Brotherhood's ideological and behavioural development in Jordan, Joas Wagemakers focusses on the group's long history and complex relationship with the state, its parliament and society. It shows how age-old concepts derived from classical Islam and the writings of global Islamist scholars have been used and reused by modern-day Jordanian Islamists to shape their beliefs in the context of the present-day nation-state. Far from its reputation as a two-faced global conspiracy bent on conquering the West, the Muslim Brotherhood is a deeply divided group that has nevertheless maintained a fascinating internal ideological consistency in its use of similar religious concepts. As such, it is part of, and continues to build on, trends in Muslim thought that go back hundreds of years.

The Muslim Brotherhood Bloomsbury Publishing

Based on interviews and discourse of the Muslim Brotherhood members, this book offers a comprehensive overview of the ways in which their historical heritage is appropriated and continued beyond the movement's internal tensions and pretension to represent the Islamic orthodoxy.

The Muslim Brotherhood in America Mitchell Lane

Following the Arab Spring, the Muslim Brotherhood achieved a level of influence previously unimaginable. Yet the implications of the Brotherhood's rise and dramatic fall for the future of democratic governance, peace, and stability in the region are disputed and remain open to debate. Drawing on more than one hundred in-depth interviews as well as Arabic-language sources never before accessed by Western researchers, Carrie Rosefsky Wickham traces the evolution of the Muslim Brotherhood in Egypt from its founding in 1928 to the fall of Hosni Mubarak and the watershed elections of 2011-2012. Highlighting elements of movement continuity and change, Wickham demonstrates that shifts in Islamist worldviews, goals, and strategies are not the result of a single strand of cause and effect, and provides a systematic, fine-grained account of Islamist group evolution in Egypt and the wider Arab world. In a new afterword, Wickham discusses what has happened in Egypt since Muhammad Morsi was ousted and the Muslim Brotherhood fell from power.

The Muslim Brotherhood and the West Harvard University Press

Anyone who follows world events has heard of the Muslim Brotherhood. Usually considered a fundamentalist religious organisation opposed to secular regimes, the so-called Arab Spring began to challenge this conception, and showed the MB's commitment to democratic principles and elections, albeit with certain difficulties. Until now though, most analysis has focused on the Egyptian branch - the group that gave spiritual birth to the local branches in other countries - with very little having been studied about the Syrian Muslim Brotherhood, especially since the Hama massacre of 1982 and the formal disappearance of the group from Syria. This book provides a deep insight into the Syrian Muslim Brotherhood's ideological evolution from its inception until present-day. Since Syria has unfortunately become the place where all forms of Islamism converge, understanding the SMB, their ideological evolution, and their potential role as moderating forces, is essential in order to debunk some clichés on the MB in general. Each chapter corresponds to a specific period in the SMB's timeline, while the final chapter discusses how the endemic gerontocracy of the group calls for an urgent renovation of structures, and stresses the importance of younger generations in renovating the ideology of the SMB. Through the examination of original primary sources written by the SMB themselves, and relevant groups related to them, this book challenges the traditional

categories applied to Islamist movements. It will therefore be a key resource for anyone studying Islamist movements, as well as for students and scholars of Middle East and North African Politics.
