This book explains why some Korean high school students sleep during English classes in spite of the emphasized value of English in their society. It examines how this sleeping-in-class phenomenon can be understood by means of such marginalized students' emic outlooks on themselves, the target language, their teachers, schools, and society/culture; and by means of the views of teachers who have experienced such in-class sleepers. To understand the phenomenon more holistically, it pursues a multi-disciplinary approach drawing on studies of demotivation and amotivation, psychological needs, and student experiences of schooling, as well as sociocultural theories of learning and agency and of interpersonal dynamics, among others. On the basis of a multi-modal analysis of interview data from the student and teacher participants, it theoretically interprets the phenomenon at the classroom ('micro-'), school ('meso-') and society-culture ('macro-') levels. Taking a humanistic/existential approach to education, it subsequently presents a number of cultural actions that it advocates implementing in a situation-sensitive manner to help in-class sleepers and their educational institutions awaken from their chronic slumber. Lastly, it presents practical and theoretical implications for more humanistic pedagogy, and global studies of student disengagement, in English-as-a-foreign-language classes.

First of all, I am giving thanks in front of the Most Merciful Almighty. There is no substitute for a good GPA in HSC if you want to move forward in the current era of success. But at HSC we do badly in English. I have not been able to read English since childhood. After reading the same tick for so many years, the students have to go to the private tutor for HSC for English. I wrote the book 'English A +' to get rid of all these problems. There is a video class created by me which is taken on Nahid24 YouTube channel so that you don't have to read any problem while reading the book. If a student takes the book in hand and conducts all the YouTube classes regularly then he / she will not need any other private tutor. In HSC English 1st and 2nd paper questions come from certain topics but students cannot finish even half of it at the end of the year by reading a very thick book. But if someone reads only the necessary topics well for 2 months, then he will be able to get good results in English. If any student can finish this book completely, I hope he will get A + in English 1st and 2nd 2 subjects InshaAllah. This book is completely different from other books. There is nothing less important in the book. So nothing should be left out. Each topic is given a writing

technique and some important examples. By mastering the techniques and practicing the examples, one can overcome the weakness of HSC English in a short time. If he can master the book well then he will succeed in HSC exam InshaAllah. I think my hard work and effort will be successful only if the students benefit from reading this book. Since no book other than the Qur'an alone is perfect, and man is not above error, so reluctantly, if there is any mistake in the book, you will look at it with forgiveness.

This book is about teacher agency and leadership, but it is also an experiment in shifting the balance of power in research and writing. It is about making accessible the process of academic publishing in a way that capitalizes on the knowledge of people in diverse contexts and with novice eyes and is an experiment in sharing academic writing between master teachers and doctoral students. It is also a book on the power of action research and the belief we have as teacher educators about the transformative power of teachers in their own classrooms. Pairing master teachers from ten countries who were part of the Teaching Excellence and Achievement Program with graduate students, this book provides a framework to decolonize research practices in an effort to re-envision research methodologies on a global scale. The book also provides a tangible way to see how research processes support local transformation, and direct engagement of

those at the margins to play a greater role in the production of scholarly knowledge. The cross-national scope of this book, with authors working in classrooms in countries as diverse as Turkey, Chile, and Bangladesh coupled work of novice US-based scholars to engage in the conceptualizing, researching, data analysis and writing of chapters speaks to the importance of new voices in the field of research. Additionally, the combination of teacher research projects in the classroom juxtaposed with chapters that speak to the process of teacher research in a global context provides both theoretical and empirical foundations for teacher research.
