certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe. The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade. Thus, 1850 marks the end of the total sway of pre-modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas. *National Union Catalog* Univ of California Press With its title borrowed from Machiavelli, *The Persian Prince* goes far beyond Machiavelli's wildest imagination as to how to rule the world. Hamid Dabashi articulates a bold new idea of the Persian Prince—a metaphor of political authority, a figurative ideal deeply rooted in the collective memories of multiple nations, and a literary construct that connected Muslim empires across time and space and continues to inform political debate today. Drawing on works from Classical Antiquity and the vast Persianate worlds from India to the Mediterranean, as well as the Hebrew Bible and European medieval

mirrors for princes, Dabashi engages a diverse body of political thought to reveal the construction of the Persian Prince as a potent archetype. He traces this archetype through its varied historic gestations and finds it resurfacing in postcolonial political thought as a rebel, a prophet, a poet, and a nomad. Bringing poetics and politics together, Dabashi

shows how this archetypal figure has long defined political authority throughout the wider Iranian and Islamic worlds. With meticulous attention to literary and poetic texts, moral and philosophical treatises, allegorical and anecdotal stories, sacred and secular evidence, visual and performing arts, histories of global empires and colonial conquests, this sweeping

work offers a deeply learned, richly erudite, and transformative piece of critical thinking. As Dabashi shows, the Persian Prince remains the stuff of current debate across the Muslim and Persianate worlds, in contestations over the public domain and the collective will to power, and above all in the prospects of democratic institutions. *Orientalische Bibliographie* Bloomsbury

When Abbas Kiarostami suddenly passed away in July 2016, he was already an iconic figure in world cinema—and his reputation as a master filmmaker has only grown since. In this book, celebrated scholar Hamid

Dabashi offers a new way of looking at Kiarostami's artworld, one that questions the very idea of film philosophy. Dabashi's authoritative account of the philosophical resonances of Kiarostami's oeuvre offers an iconoclastic critique of the field's Eurocentrism and, in vivid prose, makes the case for a new method of appreciating the work of this essential figure. The result is a provocative perspective on

the totality of Kiarostami's legacy that, with deep roots in Iranian aesthetic and Persian poetic and philosophical traditions, overcomes film's provincial preoccupation with its Western heritage and charts a new path forward for film-philosophy. Persian-English Dictionary Orient Blackswan  
This book examines how Islam is digitally mediated at a

time of technological change, enhanced digital literacy and proactive engagement in Islamic online content by authorities and influencers. What is the impact of this on societies, believers and understandings of Islam? Islamic Algorithms provides a thorough exploration of Cyber Islamic Environments (CIEs) through representations of significant historical and religious influences across

contexts and diversities. This ranges from jinn and angels through to contemporary influencers. Gary R. Bunt raises issues of how digital content is embedded in contemporary understandings of Islam and their dissemination. Bunt shows how the interpretation of pivotal figures in Islam - including Muhammad and his family, scholars and imams - can be informed by new generations of

digital influences, such as apps and social networking, which have become primary sources of information for many Muslims globally. *Where Is Abbas Kiarostami?* International Institute of Islamic Thought (IIIT) Features bibliographical, biographical and contact information for living authors worldwide who have at least one English publication.

BROADCAST PROGRAMME	This book highlights the complexities of nationalism and the	

together under one nation-state and holding them together against the knowledge of the incompatibility theory of plural states. In a world of arbitrarily and colonially mapped sovereign states, groups, and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies. This book challenges, deconstructs,

and decolonizes Western epistemologies related to postcolonial state formation and maintenance. In examining the freedom concept that no human group ought to be determining the independence of other human groups, this book constructs an alternative conceptualization of nations and peoples' rights in the twenty-first century, in which radical hopes and

global dreams are recognized as central to internal nationalism struggles.

Cambridge Scholars Publishing Literary Translation in Modern Iran: A sociological study is the first comprehensive study of literary translation in modern Iran, covering the period from the late 19th century up to the present day. By drawing on Pierre Bourdieu's sociology of culture, this work investigates the people behind the

selection, translation, and production of novels from English into Persian. The choice of novels such as Morier's *The Adventures of Hajji Baba of Ispahan*, Austen's *Pride and Prejudice*, and Vargas Llosa's *The War of the End of the World* provides insights into who decides upon titles for translation, motivations of translators and publishers, and the context in which such

decisions are made. The author suggests that literary translation in Iran is not a straightforward activity. As part of the field of cultural production, literary translation has remained a lively game not only to examine and observe, but also often a challenging one to play. By adopting hide-and-seek strategies and with attention to the dynamic of the field of publishing, Iranian

translators and publishers have continued to play the game against all odds. The book is not only a contribution to the growing scholarship informed by sociological approaches to translation, but an essential reading for scholars and students of Translation Studies, Iranian Studies, and Middle Eastern Studies. *The American Journal of Islamic Social Sciences* John Benjamins

Publishing Company The doctoral journey is fraught with stops and starts, crossroads and blind alleys, surprises and epiphanies. All successful doctoral students navigate a pathway through these events to reach their final destination. *Navigating the Doctoral Journey* explores examples of these routes in ways that both honour individual stories and

highlight the broader issues of uniting emergent research practices with doctoral candidates' individual reflexive projects. All the doctoral candidates included in this book work with critical topics, theories and methods within the field of education; they face particular challenges – and rewards – when pursuing work that will meet institutional and disciplinary

expectations of “good” doctoral-level research. For them, the doctoral process is required to culminate in more than the award of a qualification. Their imperative is to demonstrate mastery of the disciplinary norms, whilst simultaneously challenging dominant models and making authentic contributions to the benefit of broader society. Navigating the Doctoral Journey

addresses the isolation and challenges of what it means to conduct critical doctoral research within a highly contested domain of knowledge. This is not a simplistic self-help guide to clearly map a proven route to doctoral success, rather the book provides a range of possible answers to the questions of how candidates experience doctoral studies, what is “critical” about each

contributor's research, and how this affects what each person does as he or she researches. *An English-Persian Dictionary* Reza Parchizadeh The American Journal of Islamic Social Sciences (AJISS), established in 1984, is a quarterly, double blind

peer-reviewed and interdisciplinary journal, published by the International Institute of Islamic Thought (IIIT), and distributed worldwide. The journal showcases a wide variety of scholarly research on all facets of Islam and the Muslim world including

subjects such as anthropology, history, philosophy and metaphysics, politics, psychology, religious law, and traditional Islam.
