Exploring Physical Science in the Laboratory Morton Publishing Company
 Morton Publishing Company
 This full-color manual is designed to satisfy the content needs of either a one- or two-semester introduction to physical science course populated by nonmajors. It provides students with the opportunity to explore and make sense of the world around them, to develop their skills and knowledge, and to learn to think like scientists. The material is written in an accessible way, providing clearly written procedures, a wide variety of exercises from which instructors can choose, and real-world examples that keep the content engaging. *Exploring Physical Science in the Laboratory* guides students through the mysteries of the observable world and helps them develop a clear understanding of challenging concepts.
[Subject Index to Unclassified ASTIA Documents](#) [Exploring Physical](#)

[Science in the Laboratory](#)
 Includes all works deriving from DOE, other related government-sponsored information and foreign nonnuclear information.
