photos, this book provides a design history of these rings, beginning with pre-contact artifacts and continuing through to contemporary artistic innovations. The text surveys key developments in Native American ring design; materials and methods of construction; definitions for historical and vintage rings; master innovators; and the transition from craft to wearable art since 1980.

Shortly after the Civil War, Native American artisans began making silver rings set with turquoise, coral, jet, mother-of-pearl, and colored shell, adding lapis, malachite, onyx, and petrified wood over the decades. More recently, artisans began utilizing gold and such non-traditional settings as opals and diamonds, among others. Works by Navajo (also known as Din) and Pueblo artists are

featured, although Apache, Northern Cheyenne, and Sonoran Desert Native jewelers are also included. A guide to valuation issues and resources is offered for collectors. In this monograph the writer has tried to show how the Greek

jewellery motifs were imported into India, which have been discovered in the jewellery found in Taxila and other border towns where Alexander had allowed his soldiers to settle down. Among these soldiers were goldsmiths who just manufactured jewellery on Greek patterns but later influenced by Indian motifs began to mix these with Greek ones. This Indo - Greek jewellery

found a ready market among the Indo - Greeks who inhabited these towns. The writer has dealt with the jewellery found under different chapters entitled the jewellery for the head, ears, neck, arms, wrist etc. This analytical thesis is of interest of all Indologists and is specially useful for scholars studying Indian jewellery and ornaments of the first century A.D.

Icons in Gold
Rizzoli Publications
India's rich heritage of jeweled artistry is expressed in extravagant and opulent creations that range from ornaments for every part of the body to ceremonial court objects such as boxes,

daggers, and thrones. Treasures from India presents more than sixty iconic works from the renowned Al-Thani collection, including pieces created for the imperial Mughals in the seventeenth century, others made for the nizams of Hyderabad and the maharajas of the Rajput courts from the eighteenth to the twentieth century, Indian-inspired jewelry

fashioned by Cartier and other Western firms, and contemporary designs. The lucid text discusses the significance of these objects within the history of Indian jeweled arts, demonstrating how they stand among the highest expressions of Indian culture. Indo-Greek Jewellery Amer Univ in Cairo Press "Author Henrietta Lidchi focuses on jewellery in the cultural economy of the Southwest,

exploring jewellery making as a decorative art form in constant transition. She describes the jewellery as subject to a number of desires, controlled at different times by government agencies, individual entrepreneurs, traders, curators, and Native American communities. Lidchi explores the jewellery as craft, material culture, commodity, and adornment.

Considering the impact of tourism, she discusses fakes in the market and the artists' desires to codify traditional styles, explaining how that can affect stylistic development and value. Surviving Desires suggests the complexity and reinvention innate to Native American jewellery as a commercial craft"-- **Treasures from India: Jewels from the Al-Thani**
