Significant changes in New York City's Latino community have occurred since the first edition of *Latinos in New York: Communities in Transition* was published in 1996. The Latino population in metropolitan New York has increased from 1.7 million in the 1990s to over 2.4 million, constituting a third of the population spread over five boroughs. Puerto Ricans remain the largest subgroup, followed by Dominicans and Mexicans; however, Puerto Ricans are no longer the majority of New York's Latinos as they were throughout most of the twentieth century. *Latinos in New York:*

Communities in Transition, second edition, is the most comprehensive reader available on the experience of New York City's diverse Latino population. The essays in Part I examine the historical and sociocultural context of Latinos in New York. Part II looks at the diversity comprising Latino New York. Contributors focus on specific national origin groups, including Ecuadorians, Colombians, and Central Americans, and examine the factors that prompted emigration from the country of origin, the socioeconomic status of the emigrants, the extent of transnational ties with the home country, and the immigrants' interaction with other Latino groups in New York. Essays in Part III focus on politics and policy issues affecting New York's Latinos. The book brings together leading social analysts and community advocates on the Latino experience to address issues that have been largely neglected in the literature on New York City. These include the role of race, culture and identity, health, the criminal justice system, the media, and higher education, subjects that require greater attention both from academic as well as policy perspectives. Contributors: Sherrie Baver, Juan Cartagena, Javier Castaño, Ana María Díaz-Stevens, Angelo Falcón, Juan Flores, Gabriel Haslip-Viera, Ramona Hernández, Luz Yadira Herrera, Gilbert Marzán, Ed Morales, Pedro A. Noguera, Rosalía Reyes, Clara E. Rodríguez, José Ramón Sánchez, Walker Simon, Robert Courtney Smith, Andrés Torres, and Silvio Torres-Saillant.

Changes in Hourly Fee Rates for Science and Technology Laboratory Services - Fiscal Years 2007-2009 (US Agricultural Marketing Service Regulation) (AMS) (2018 Edition) The Law Library presents the complete text of the Changes in Hourly Fee Rates for Science and Technology Laboratory Services - Fiscal Years 2007-2009 (US Agricultural Marketing Service Regulation) (AMS) (2018 Edition). Updated as of May 29, 2018 The Agricultural Marketing Service (AMS) is changing the hourly fee rates for Science and Technology (S&T) Laboratory Services. The agency is raising these rates to reflect, among other factors, national and locality pay increases for Federal employees and inflation, operating costs, instrumentation and training, and program and agency administrative overhead costs. In the past, AMS has amended its regulations on an as needed basis in order to recover laboratory program costs. With this regulation, AMS is providing for three annual standard hourly fee rate increases for fiscal years 2007-2009. This will provide the agricultural commodity industries and other stakeholders with more timely and relevant information regarding user fees for voluntary laboratory testing services. The agency is also removing tables and schedules with listings of individual tests and services. Three annual hourly fee rate adjustments are established by this action for appeals, holiday, and overtime services to reflect the anticipated increase cost of providing these laboratory services each fiscal year. The regulations also are updated to identify

current facility addresses. Part 92 is obsolete and therefore has been removed. This book contains: - The complete text of the Changes in Hourly Fee Rates for Science and Technology Laboratory Services - Fiscal Years 2007-2009 (US Agricultural Marketing Service Regulation) (AMS) (2018 Edition) - A table of contents with the page number of each section
