The #1 New York Times Bestseller! Return to the world of His Dark Materials—now an HBO original series starring Dafne Keen, Ruth Wilson, Andrew Scott, and Lin-Manuel Miranda—in the second volume of Philip Pullman's new bestselling masterwork *The Book of Dust*. The windows between the

many worlds have been sealed and the momentous adventures of Lyra Silvertongue's youth are long behind her—or so she thought. Lyra is now a twenty-year-old undergraduate at St. Sophia's College and intrigue is swirling around her once more. Her daemon Pantalaimon is witness to a brutal murder, and the dying man entrusts them with secrets that carry echoes from their past. The more Lyra is drawn into these mysteries, the less she is sure of. Even the events of her own past come into question when she learns of Malcolm Polstead's role

in bringing her to Jordan College. Now Lyra and Malcolm will travel far beyond the confines of Oxford, across Europe and into the Levant, searching for a city haunted by daemons, and a desert said to hold the truth of Dust. The dangers they face will challenge everything they thought they knew about the world, and about themselves. Praise for *The Book of Dust* "It's a stunning achievement, this universe Pullman has created and continues to build on." —The New York Times "Pullman's writing is simple, unpretentious, beautiful, true. The

conclusion to *The Book of Dust* can't come soon enough."—The Washington Post
Commonwealth Cambridge University Press

This volume translates four chapters of Bodin's *Six livres de la république*, a vast synthesis of comparative public law and politics.

[The Book of Dust: La Belle Sauvage Collector's Edition \(Book of Dust, Volume 1\)](#) Routledge

The Immortal Life of Henrietta Lacks meets *Get Out* in this "startling...powerful" (Kirkus Reviews) investigation of racial inequality at the core of the heart transplant race. In 1968, Bruce Tucker, a black man, went into Virginia's top research hospital with a head injury, only to have his heart taken out of his body and put into the chest of a white businessman. Now, in *The Organ Thieves*, Pulitzer Prize-nominated journalist Chip Jones exposes the horrifying inequality surrounding Tucker's death and how he was used as a human guinea pig without his family's permission or knowledge. The circumstances surrounding his death reflect the long legacy of mistreating African Americans that began more than a

century before with cadaver harvesting and worse. It culminated in efforts to win the heart transplant race in the late 1960s. Featuring years of research and fresh reporting, along with a foreword from social justice activist Ben Jealous, "this powerful book weaves together a medical mystery, a legal drama, and a sweeping history, its characters confronting unprecedented issues of life and death under the shadows of centuries of racial injustice" (Edward L. Ayers, author of *The Promise of the New South*).

A bold new interpretation of Augustine's virtue of hope and its place in political life
 When it comes to politics, Augustine of Hippo is renowned as one of history's great pessimists, with his sights set firmly on the heavenly city rather than the public square. Many have enlisted him to chasten political hopes, highlighting the realities of evil and encouraging citizens instead to cast their hopes on heaven. A *Commonwealth of Hope* challenges prevailing interpretations of Augustinian pessimism, offering a new vision of his political thought that can also help today's

citizens sustain hope in the face of despair. Amid rising inequality, injustice, and political division, many citizens wonder what to hope for in politics and whether it is possible to forge common hopes in a deeply polarized society. Michael Lamb takes up this challenge, offering the first in-depth analysis of Augustine's virtue of hope and its profound implications for political life. He draws on a wide range of Augustine's writings—including neglected sermons, letters, and treatises—and integrates insights from political theory, religious studies, theology, and philosophy. Lamb shows how diverse citizens, both religious and secular, can unite around common hopes for the commonwealth. Recovering this understudied virtue and situating Augustine within his political, rhetorical, and religious contexts, *A Commonwealth of Hope* reveals how Augustine's virtue of hope can help us resist the politics of presumption and despair and confront the challenges of our time.

 This text is a historical account of the political, diplomatic, ecclesiastical, economic and cultural relations between

the Byzantine Empire and the peoples of Eastern Europe. It shows that these nations came to share a common cultural tradition.

Wealth and Our Commonwealth

Harvard University Press

The Limits of Reason in Hobbes's Commonwealth explores Hobbes's attempt to construct a political philosophy of enduring peace on the foundation of the rational individual. Hobbes's rational individual, motivated by self-preservation, obeys the laws of the commonwealth and thus is conceived as the model citizen. Yet Hobbes intimates that there are limits to what such an actor will do for peace, and that the glory-seeker - "too rarely found to be presumed on" - is capable of a generosity that is necessary for political longevity. Michael P. Krom identifies this as a fundamental contradiction in Hobbes's system: he builds the commonwealth on the rational actor, yet acknowledges the need for the irrational glory-seeker. Krom argues that Hobbes's attempt to establish a "king of the proud" fails to overcome the limits of reason and the precariousness of politics. This book synthesizes recent work on Hobbes's

understanding of glory and political stability, challenging the view that Hobbes succeeds in incorporating glory-seekers into his political theory and explores the implications of this for contemporary political philosophy after Rawls.

The Book of Dust: The Secret Commonwealth (Book of Dust, Volume 2)

Princeton University Press
Offers a new perspective on the nature of political society in the French monarchy, across more than two centuries.

Common Wealth Knopf Books for Young Readers

In the beginning, before Man and the insect Thranx became allies, in the days when the reptilian AAnn were just occasional raiders of the Thranx colony worlds, one young Thranx agricultural expert lived a life of quiet desperation. A dreamer in a world of sensible well adjusted socialised beings, Ryo buried himself in his work of reclaiming marshland until... Until he met the Aliens. Grotesque two legged creatures, unpleasingly soft skinned, gross in their appetites, alarming in their movements, all in all pretty revolting species, yet his curiosity overcame his queasiness and he

befriended them. And discovered they were called Man.

The American Commonwealth Yale University Press

The republican writing of the English revolution has attracted a major scholarly literature. Yet there has been no single treatment of the subject as a whole, nor has it been adequately related to the larger upheaval from which it emerged, or to the larger body of radical thought of which it became the most influential component. Commonwealth Principles addresses these needs, and Jonathan Scott goes beyond existing accounts organized around a single key concept (whether constitutional, linguistic or moral) or author (usually James Harrington) to analyse this body of writing in full context. Linking various social, political and intellectual agendas Professor Scott explains why, when classical republicanism came to England, it did so in the moral service of an explicitly religious revolution. The resulting ideology hinged not upon political language, or constitutional form, but Christian humanist moral philosophy applied in the practical context of an attempted radical

reformation of manners.

The Limits of Reason in Hobbes's Commonwealth HarperCollins

A major new assessment of the "vanished kingdom" of the Polish-Lithuanian Commonwealth--one which recognizes its achievements before its destruction Richard Butterwick tells the compelling story of the last decades of one of Europe's largest and least understood polities: the Polish-Lithuanian Commonwealth. Drawing on the latest research, Butterwick vividly portrays the turbulence the Commonwealth experienced. Far from seeing it as a failed state, he shows the ways in which it overcame the stranglehold of Russia and briefly regained its sovereignty, the crowning success of which took place on 3 May 1791--the passing of the first Constitution of modern Europe.

The Global Commonwealth of Citizens Routledge

Readers who know the last new Thomas Jefferson, the one who appeared in the mid-20th century, will not recognize the man portrayed in this colorful book. Not only is the image different, the man who became enlightened in France is also

different. This is the real man. "Thomas Jefferson's Enlightenment: Paris - 1785" is a new kind of history. I call it a non-fiction narrative. It does not describe what Jefferson did in France. It takes the reader along as Jefferson does it. The reader comes to know the real man during eight divertissements in which French savant Pierre Cabanis shows the American Ambassador the city's most famous sites and buildings. In the course of these expeditions, Cabanis introduces his companion to the French Enlightenment. This knowledge is essential to Jefferson. The self-described "savage from the mountains of America" had gone to France after the death of his wife to begin his life again. His plan was to become a new man in the form of a recent acquaintance, the marquis de Chastellux. To accomplish this transformation, Jefferson had not only to change his attire and his manners. He also had to learn the language of the French salons, which he intended to join. While accompanying Cabanis and Jefferson on their excursions through Paris in the summer of 1785, the reader sees a real person meeting real Frenchmen and learning to respond to

them as a French sophisticate would do. With Cabanis' help, Jefferson grasped the French concept of Progress and came to see himself as its agent. This knowledge prepared him for the contest that lay ahead. Within a year of his return home, with the hepe of his Virginia neighbor, James Madison, he laid the foundations for a political party that would compete for power in America's first national campaign. During this ten-year process - Jefferson later referred to is as "the Second American Revolution" - the political loner who drafted the Declaration of Independence disappeared. Taking his place was an ambitious political partisan whose aim was to become the President of the United States of America.

The Polish-Lithuanian Commonwealth, 1733-1795 Hachette UK

A classic, enchanting document of Scottish folklore about fairies, elves, and other supernatural creatures. Late in the seventeenth century, Robert Kirk, an Episcopalian minister in the Scottish Highlands, set out to collect his parishioners' many striking stories about elves, fairies, fauns, doppelgängers, wraiths, and other beings of, in Kirk's

words, “a middle nature betwixt man and angel.” For Kirk these stories constituted strong evidence for the reality of a supernatural world, existing parallel to ours, which, he passionately believed, demanded exploration as much as the New World across the seas. Kirk defended these views in *The Secret Commonwealth*, an essay that was left in manuscript when he died in 1692. It is a rare and fascinating work, an extraordinary amalgam of science, religion, and folklore, suffused with the spirit of active curiosity and bemused wonder that fills Robert Burton’s *Anatomy of Melancholy* and the works of Sir Thomas Browne. *The Secret Commonwealth* is not only a remarkable document in the history of ideas but a study of enchantment that enchants in its own right. First published in 1815 by Sir Walter Scott, then reedited in 1893 by Andrew Lang, with a dedication to Robert Louis Stevenson, *The Secret Commonwealth* has long been difficult to obtain—available, if at all, only in scholarly editions. This new edition modernizes the spelling and punctuation of Kirk’s little book and features a wide-ranging and illuminating introduction by the critic and

historian Marina Warner, who brings out the originality of Kirk’s contribution and reflects on the ongoing life of fairies in the modern mind.

Commonwealth History in the Twenty-First Century National Geographic Books Agrarian radicalism’s challenge to capitalism played a central role in working-class ideology while making third parties and protest movements a potent force in politics. Thomas Alter II follows three generations of German immigrants in Texas to examine the evolution of agrarian radicalism and the American and transnational ideas that influenced it. Otto Meitzen left Prussia for Texas in the wake of the failed 1848 Revolution. His son and grandson took part in decades-long activism with organizations from the Greenback Labor Party and the Grange to the Populist movement and Texas Socialist Party. As Alter tells their stories, he analyzes the southern wing of the era’s farmer-labor bloc and the parallel history of African American political struggle in Texas. Alliances with Mexican revolutionaries, Irish militants, and others shaped an international legacy of working-class radicalism that moved U.S. politics to

the left. That legacy, in turn, pushed forward economic reform during the Progressive and New Deal eras. A rare look at the German roots of radicalism in Texas, *Toward a Cooperative Commonwealth* illuminates the labor movements and populist ideas that changed the nation’s course at a pivotal time in its history.

The French Monarchical Commonwealth, 1356-1560 Harry N. Abrams

This edited collection draws together new historical writing on the Commonwealth. It features the work of younger scholars, as well as established academics, and highlights themes such as law and sovereignty, republicanism and the monarchy, French engagement with the Commonwealth, the anti-apartheid struggle, race and immigration, memory and commemoration, and banking. The volume focusses less on the Commonwealth as an institution than on the relevance and meaning of the Commonwealth to its member countries and peoples. By adopting oblique, de-centred, approaches to Commonwealth history, unusual or overlooked connections

are brought to the fore while old problems are looked at from fresh vantage points – be this turning points like the relationship between ‘old’ and ‘new’ Commonwealth members from 1949, or the distinctive roles of major figures like Jawaharlal Nehru or Jan Smuts. The volume thereby aims to refresh interest in Commonwealth history as a field of comparative international history.

Commonwealth Caribbean Corporate Governance Cambridge University Press
 “Exquisite. . . Commonwealth is impossible to put down.” — New York Times #1 New York Times Bestseller | NBCC Award Finalist | New York Times Best Book of the Year | USA Today Best Book | TIME Magazine Top 10 Selection | Oprah Favorite Book | New York Magazine Best Book of The Year The acclaimed, bestselling author—winner of the PEN/Faulkner Award and the Orange Prize—tells the enthralling story of how an unexpected romantic encounter irrevocably changes two families’ lives. One Sunday afternoon in Southern California, Bert Cousins shows up at Franny Keating’s christening party uninvited. Before evening falls, he has

kissed Franny’s mother, Beverly—thus setting in motion the dissolution of their marriages and the joining of two families. Spanning five decades, Commonwealth explores how this chance encounter reverberates through the lives of the four parents and six children involved. Spending summers together in Virginia, the Keating and Cousins children forge a lasting bond that is based on a shared disillusionment with their parents and the strange and genuine affection that grows up between them. When, in her twenties, Franny begins an affair with the legendary author Leon Posen and tells him about her family, the story of her siblings is no longer hers to control. Their childhood becomes the basis for his wildly successful book, ultimately forcing them to come to terms with their losses, their guilt, and the deeply loyal connection they feel for one another. Told with equal measures of humor and heartbreak, Commonwealth is a meditation on inspiration, interpretation, and the ownership of stories. It is a brilliant and tender tale of the far-reaching ties of love and responsibility that bind us together.

Pennsylvania Bloomsbury Publishing

When *Empire* appeared in 2000, it defined the political and economic challenges of the era of globalization and, thrillingly, found in them possibilities for new and more democratic forms of social organization. Now, with *Commonwealth*, Michael Hardt and Antonio Negri conclude the trilogy begun with *Empire* and continued in *Multitude*, proposing an ethics of freedom for living in our common world and articulating a possible constitution for our common wealth. Drawing on scenarios from around the globe and elucidating the themes that unite them, Hardt and Negri focus on the logic of institutions and the models of governance adequate to our understanding of a global commonwealth. They argue for the idea of the “common” to replace the opposition of private and public and the politics predicated on that opposition. Ultimately, they articulate the theoretical bases for what they call “governing the revolution.” Though this book functions as an extension and a completion of a sustained line of Hardt and Negri’s thought, it also stands alone and is entirely accessible to readers who are not familiar with the previous works. It is

certain to appeal to, challenge, and enrich the thinking of anyone interested in questions of politics and globalization.

Six Books of the Commonwealth University of Chicago Press

Stephen Gardbaum proposes and examines a new way of protecting rights in a democracy.

Common Wealth Princeton University Press

In this bold approach to late antiquity, Garth Fowden shows how, from the second-century peak of Rome's prosperity to the ninth-century onset of the Islamic Empire's decline, powerful beliefs in One God were used to justify and strengthen "world empires." But tensions between orthodoxy and heresy that were inherent in monotheism broke the unitary empires of Byzantium and Baghdad into the looser, more pluralistic commonwealths of Eastern Christendom and Islam. With rare breadth of vision, Fowden traces this transition from empire to commonwealth, and in the process exposes the sources of major cultural contours that still play a determining role in Europe and southwest Asia.

A Commonwealth of Hope Guida Editori

In the history of political thought, the emergence of the modern state in early modern England has usually been treated as the development of an increasingly centralizing and expansive national sovereignty. Recent work in political and social history, however, has shown that the state—at court, in the provinces, and in the parishes—depended on the authority of local magnates and the participation of what has been referred to as "the middling sort." This poses challenges to scholars seeking to describe how the state was understood by contemporaries of the period in light of the great classical and religious textual traditions of political thought. *State and Commonwealth* presents a new theory of state and society by expanding on the usual treatment of "commonwealth" in pre-Civil War English history. Drawing on works of theology, moral philosophy, and political theory—including Martin Bucer's *De Regno Christi*, Thomas Smith's *De Republica Anglorum*, John Case's *Sphaera Civitatis*, Francis Bacon's essays, and Thomas Hobbes's early works—Noah Dauber argues that the commonwealth ideal was less traditional than often

thought. He shows how it incorporated new ideas about self-interest and new models of social order and stratification, and how the associated ideal of distributive justice pertained as much to the honors and offices of the state as to material wealth. *State and Commonwealth* provides a more complete picture of the relationship between political and social theory in early modern England.

The Constitution of the Commonwealth of Australia Routledge

The deluxe edition of Philip Pullman's bestselling return to the parallel world of *His Dark Materials*! Includes gorgeous full-page illustrations! Don't miss Volume II of *The Book of Dust: The Secret Commonwealth*! *HIS DARK MATERIALS IS SOON TO BE AN HBO ORIGINAL SERIES STARRING DAFNE KEEN, RUTH WILSON, JAMES McAVOY, AND LIN-MANUEL MIRANDA*!
