The Origins Of Aids Jacques In "The Origins of AIDS" Jacques Pepin, an expert in infectious diseases who has spent many years working in Africa, explains how HIV spread from a few cases in the Congo in the 1920s to the pandemic it is today. The story begins with SIV (Simian Immunodeficiency Virus) which is present in chimpanzees and is genetically identical to HIV. *The Origins of AIDS: Amazon.co.uk: Pepin, Jacques ...* Buy *The Origins of AIDS 1* by Jacques Pepin (ISBN: 9781107006638) from Amazon's Book Store. Everyday low prices and free delivery on eligible orders. *The Origins of AIDS: Amazon.co.uk: Jacques Pepin ...* It is now thirty years since the discovery of AIDS but its origins continue to puzzle doctors and scientists. Inspired by his own experiences working as an infectious diseases physician in Africa, Jacques Pepin looks back to the early twentieth-century events in

Africa that triggered the emergence of HIV/AIDS and traces its subsequent development into the most dramatic and destructive epidemic of modern times. The Origins of AIDS by Jacques Pepin - Cambridge Core For example, the author usefully examines and dismisses the hypothesis still promulgated by Edward Hooper that HIV originated in eastern Congo during the 1950s after material grown in monkey or chimpanzee cell cultures was used for mass vaccination against polio. The Origins of AIDS The Origins of AIDS (2011) Jacques Pepin 306 pages. AIDS was first identified in North America in 1981 and its infectious agent human immunodeficiency virus (HIV) was isolated two years later. In the subsequent 30 years, AIDS has become a global pandemic that has led to around 30 million deaths. Pepin's book tackled the origins of this devastating infectious disease subject in three parts: first, he examined the origin of the virus itself; second, he examined the context that permitted and ...
