Good Works! Addison-Wesley
Marketing reversed prior business logic 50 years ago and said «the customer is king», and the companies began to recognize that it was not just the product that was the most important aspect of their business. Companies recognized that consumers had a myriad of choices of product offerings and marketing was responsible to ensure that the company's products had the benefits and attributes that customers wanted and were willing to pay for. Today, considering the technology development, which influences every function of the company, the focus of the successful marketing oriented companies has changed from «the customer is king» to «the customer is a dictator!!!». However, and despite the new trends in marketing, like any social science, marketing has basic principles, and these principles need to be considered when making any type of marketing decisions. So, the major step of a student of marketing, whether it is a young university student or an experienced business executive, is to understand the principles of marketing, and reading the present book will be the first step in accomplishing this task. This book describes these basic principles of marketing, and while the authors recognize that each decision may be slightly different from any previous decision, the rules or principles remain

the same. The present book presents these basic marketing principles and tries to capture the essence of practical and modern marketing today. Therefore, the purpose of *Principles of Marketing* is to introduce readers to the fascinating world of marketing today, in an easy, enjoyable and practical way, offering an attractive text from which to learn about and teach marketing.

A diferencia de otras disciplinas, el marketing posee un elemento que lo hace muy particular y ese detalle es que no tiene pausas o final. Todo es evolución, cambio e innovación constante. No existe un solo día en que los especialistas o profesionales del tema no tengan que estar aprendiendo, descubriendo o probando nuevas formas de hacer marketing para extender aún más las ramificaciones de esta maravillosa disciplina.

Todo el mundo habla del marketing, de lo importante qué es, de lo que puede influir a la hora de decidirnos por un producto, incluso aunque no lo necesitemos. Hay quien dice que todo en la sociedad es "marketing", que las

empresas hacen marketing para convencernos de que compremos sus productos, que los políticos utilizan el marketing para "venderse", encontramos "marketing" cuando entramos a una importante cadena de restaurantes, o a un centro comercial... y también se le atribuyen capacidades casi sobrenaturales: el poder de hacernos creer en cosas que antes no creíamos, de convencernos para hacer algo que no pensábamos hacer previamente, de cambiar incluso nuestros pensamientos. Este libro proporciona un conocimiento global del área que genera negocio: el marketing. Le enseña a planificar todo lo relativo a las estrategias generales de marketing, brindando un conocimiento técnico del marketing mix (producto, precio, comunicación y distribución), así como aprender a diseñar y planificar la política de producto de la empresa o negocio y crear un plan de comunicación para la marca y productos.
