Passing Through  
University of Chicago  
Press  
A journey by sea along  
the western coasts of  
Ireland and Scotland in  
search of islands, both  
real and imagined.

**Breathing Out** Anchor  
In eighteenth-century  
France, the ability to lose  
oneself in a character or  
scene marked both great  
artists and ideal  
spectators. Yet it was  
thought this same  
passionate enthusiasm, if  
taken to unreasonable  
extremes, could also lead  
to sexual deviance,  
mental illness—even  
death. Women and artists

were seen as especially  
susceptible to these  
negative consequences of  
creative enthusiasm, and  
women artists, doubly so.  
Mary D. Sheriff uses these  
very different visions of  
enthusiasm to explore the  
complex interrelationships  
among creativity,  
sexuality, the body and  
the mind in eighteenth-  
century France. Drawing  
on evidence from the

visual arts, literature, philosophy, and medicine, she portrays the deviance ascribed to both inspired men and women. But while various mythologies worked to normalize deviance in male artists, women had no justification for their deviance. For instance, the mythical sculptor Pygmalion was cured of an abnormal love for his statue through the making of art. He became a model for creative artists, living happily with his statue come to life. No happy endings, though,

were imagined for such inspired women writers as Sappho and Heloise, who burned with erotomania their art could not quench. Even so, Sheriff demonstrates, the perceived connections among sexuality, creativity, and disease also opened artistic opportunities for creative women took full advantage of them. Brilliantly reassessing the links between sexuality and creativity, artistic genius and madness, passion and reason, *Moved by Love* will

profoundly reshape our view of eighteenth-century French culture. **Moved by Love** St. Martin's Press Puckish and playful, Georges Perec infused avant-garde and experimental fiction with a wit and wonder that belied the serious concerns and concepts that underpinned it. A prominent member of the OuLiPo, and an abiding influence on fiction writers today, Perec used formal constraints to dazzling effect in such works as *A Void*—a murder mystery

that contains nary an “e”—and *Life A User’s Manual*, in which an apartment building, systematically canvassed, unfolds secrets and, ultimately offers a reflection on creation, destruction, and the devotion to art. Before embarking on these experiments, however, Perec tried his hand at a relatively straightforward novel, *Portrait of a Man*. His first book, it was rejected by publishers when he submitted it in 1960, after which he filed it away. Decades after

Perec’s death, David Bellos discovered the manuscript, and through his translation we have a chance to enjoy it in English for the first time. What fans will find here is a thriller that combines themes that would remain prominent in Perec’s later work, such as art forgery, authenticity, and murder, as well as craftsman Gaspard Winckler, who whose namesakes play major roles in *Life A User’s Manual* and *W or The Memory of Childhood*. Engaging and entertaining on its own merits, and

gaining additional interest when set in the context of Perec’s career, *Portrait of a Man* is sure to charm the many fans of this postmodern master.

WINNER OF THE PEN/E. O. WILSON LITERARY SCIENCE WRITING AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO

CHRONICLE, KIRKUS REVIEWS, AND SHELF AWARENESS *Weather* is the very air we breathe—it shapes our daily lives and alters the course of history. In *Thunder & Lightning*, Lauren Redniss tells the story of weather and humankind through the ages. This wide-ranging work roams from the driest desert on earth to a frigid island in the Arctic, from the Biblical flood to the defeat of the Spanish Armada. Redniss visits the headquarters of the National Weather Service,

recounts top-secret rainmaking operations during the Vietnam War, and examines the economic impact of disasters like Hurricane Katrina. Drawing on extensive research and countless interviews, she examines our own day and age, from our most personal decisions—Do I need an umbrella today?—to the awesome challenges we face with global climate change. Redniss produced each element of *Thunder & Lightning*: the text, the artwork, the covers, and

every page in between. She created many of the images using the antiquated printmaking technique copper plate photogravure etching. She even designed the book's typeface. The result is a book unlike any other: a spellbinding combination of storytelling, art, and science. Praise for *Thunder & Lightning* "[An] aesthetically charged and deeply researched account . . . a wild rainstorm of a book, pelting the reader with ideas and

inspiration."—Nature "A gorgeous and illuminating illustrated study of weather in all its tempestuous variety . . . Redniss's combo of fact, folklore, and vibrant etched copperplate prints enthralls."—O: The Oprah Magazine "Eerily beautiful . . . Contains plenty of scientific explanation (including more than a few nods toward global warming), but also far-flung personal stories that illuminate the beauty, wonder and chaos inherent in the elements."—The New

York Times "Magical . . . Redniss has . . . shown us how human beings live with nature—fighting, coexisting, taming, predicting via leech barometer and radar and intuition."—The New York Times Book Review "[A] twenty-first-century genius . . . The reader willing to put herself fully in Redniss's hands will be rewarded with a delicious feeling of being enveloped by a phenomenon that eclipses the chiming trivialities of daily life."—Elle "Redniss is one of the most creative

science writers of our time—her combination of beautiful artwork, reporting, and poetic prose brings science to life in ways that words alone simply cannot.”—Rebecca Skloot “Redniss combines her own dual punch of expressive art and impressive erudition to give an entirely new take on all that happens above our heads.”—Adam Gopnik “A strange and wonderful thing, the work of a first-class mind that refuses to submit to any categories or

precedent.”—Dave Eggers

 The first major work to examine Joseph Cornell's relationship to American modernism Joseph Cornell (1903–1972) is best known for his exquisite and alluring box constructions, in which he transformed found objects—such as celestial

charts, glass ice cubes, and feathers—into enchanted worlds that blur the boundaries between fantasy and the commonplace. Situating Cornell within the broader artistic, cultural, and political debates of midcentury America, this innovative and interdisciplinary account reveals enchantment's relevance to the history of American modernism. In this beautifully illustrated book, Marci Kwon explores Cornell's attempts to convey enchantment—an

ephemeral experience that exceeds rational explanation—in material form. Examining his box constructions, graphic design projects, and cinematic experiments, she shows how he turned to formal strategies drawn from movements like Transcendentalism and Romanticism to figure the immaterial. Kwon provides new perspectives on Cornell's artistic and graphic design career, bringing vividly to life a wide circle of acquaintances that included artists, poets,

writers, and filmmakers such as Mina Loy, Lincoln Kirstein, Frank O'Hara, and Stan Brakhage. Cornell's participation in these varied milieus elucidates enchantment's centrality to midcentury conversations about art's potential for power and moral authority, and reveals how enchantment and modernity came to be understood as opposing forces. Leading contemporary artists such as Betye Saar and Carolee Schneemann turned to Cornell's enchantment as a resource for their own

anti-racist, feminist projects. Spanning four decades of the artist's career, *Enchantments* sheds critical light on Cornell's engagement with many key episodes in American modernism, from Abstract Expressionism, 1930s "folk art," and the emergence of New York School poetry and experimental cinema to the transatlantic migration of Symbolism, Surrealism, and ballet.

Bloomsbury Publishing  
In *Enchanted Islands*, renowned art historian Mary D. Sheriff explores the legendary, fictional, and real islands that filled the French imagination during the ancien regime as they appeared in royal ballets and festivals, epic literature, paintings,

engravings, book illustrations, and other objects. Some of the islands were mythical and found in the most popular literary texts of the day—*islands* featured prominently, for instance, in Ariosto's *Orlando furioso*, Tasso's *Gerusalemme liberata*, and Fénelon's *Telemachus*. Other islands—real ones, such as Tahiti and St. Domingue—the French learned about from the writings of travelers and colonists. All of them were imagined to be the home

of enchantresses who used magic to conquer heroes by promising sensual and sexual pleasure. As Sheriff shows, the theme of the enchanted island was put to many uses. Kings deployed enchanted-island mythology to strengthen monarchical authority, as Louis XIV did in his famous Versailles festival *Les Plaisirs de l'île enchantée*. Writers such as Fénelon used it to tell morality tales that taught virtue, duty, and the need for male strength to triumph over female

weakness and seduction. Yet at the same time, artists like Boucher painted enchanted islands to portray art's purpose as the giving of pleasure. In all these ways and more, Sheriff demonstrates for the first time the centrality of enchanted islands to ancient regime culture in a book that will enchant all readers interested in the art, literature, and history of the time. [The Enchanted Island](#) Princeton University Press François Salignac de la Mothe-Fénelon,

Archbishop of Cambrai (1651–1715) exerted a considerable influence on the development and spread of the Enlightenment. His most famous work, the Homeric novel *Les Aventures de Télémaque, Fils d'Ulysse* (1699), composed for the education of his pupil Duc de Bourgogne, was, after the Bible, the most widely read literary work in France throughout the eighteenth century. It was also translated and adapted into many other European languages. And yet oddly enough, the

question as to why Fénelon's ideas resonated over such a wide span of space and time has as yet found no coherent and comprehensive answer. By taking Fénelon's intellectual influence as a matter of 'cultural translation', this anthology traces the reception of Fénelon and his multifaceted writings outside of France, and in doing so aims to enrich not only our understanding of the Enlightenment, but also of the thinker himself. The Enchanted Island

Oxford University Press Art historians have long been accustomed to thinking about art and artists in terms of national traditions. This volume takes a different approach, suggesting instead that a history of art based on national divisions often obscures the processes of cultural appropriation and global exchange that shaped the visual arts of Europe in fundamental ways between 1492 and the early twentieth century. Essays here analyze distinct zones of contact--

between various European states, between Asia and Europe, or between Europe and so-called primitive cultures in Africa, the Americas, and the South Pacific--focusing mainly but not exclusively on painting, drawing, or the decorative arts. Each case foregrounds the centrality of international borrowings or colonial appropriations and counters conceptions of European art as a "pure" tradition uninfluenced by the artistic forms of other cultures. The contributors analyze the social,

cultural, commercial, and political conditions of cultural contact--including tourism, colonialism, religious pilgrimage, trade missions, and scientific voyages--that enabled these exchanges well before the modern age of globalization.

 Our story starts, when ancient hearts, reincarnate to tell the tale, and as they unveil, the mystery, that links together all of history, the secret knowledge that once was forbidden, becomes unable to stay hidden, but when the deception of the past

begins to bubble, the darkness conjures a conniving trouble, however karma spins the wheel in the name of the light, to set the world right, and when the most powerful souls of the divine, are alive once again to shine, like the prophecies told, a wonderful adventure is set to unfold, as Luna meets Soleil, when she crosses under the archway, through the magical portal their past lives created, and so their reunion was predestined and fated, because life is

like a poem that never ends, and when they team up with their old friends, they open so much more, than just the ancient teleportation door, as the farther they travel, the more begins to unravel, and is unfurled, in this mythical fairytale world, because with the powers of their mind, they are able to find, the treasures their past lives left behind, and the truths that lie in the legends lost to time, as they sing the everlasting rhyme, and take the stage, to vanquish the evil and kick

off the golden age!

Elisabeth Vigee-Lebrun (1755-1842) was an enormously successful painter, a favorite portraitist of Marie-Antoinette, and one of the few women accepted into the Royal Academy of Painting and Sculpture. In her role as an artist, she was simultaneously flattered as a charming woman and vilified as monstrously unfeminine. In the *Exceptional Woman*, Mary D. Sheriff uses Vigee-Lebrun's

career to explore the contradictory position of "woman-artist" in the moral, philosophical, professional, and medical debates about women in eighteenth-century France. Central to Sheriff's analysis is one key question: given the cultural norms and social attitudes that regulated a woman's activities, how could Vigee-Lebrun conceive of herself as an artist, and indeed become a successful one, in old-regime France. Paying particular attention to painted and textual self-

portraits, Sheriff shows how Vigee-Lebrun's images and memoirs undermined the assumptions about "woman" and the strictures imposed on women. Engaging ancien-regime philosophy as well as modern feminism, psychoanalysis, literary theory, and art criticism, Sheriff's interpretations of Vigee-Lebrun's paintings challenge us to rethink the work of this controversial woman artist.

Peggy Lipton's overnight success as Julie Barnes on television's hit *The Mod Squad* made her an instant fashion icon and the "it" girl everyone-from Elvis to Paul McCartney-wanted to date. She was the original and ultimate California girl of the early seventies, complete with stick-straight hair, a laid-back style, and a red convertible. But Lipton was much more: smart and determined to not be

just another leggy blonde, she struggled for a way to stay connected to her childhood roots, though her coming of age had not been an easy one. And when she fell in love with Quincy Jones, that wasn't easy, either: their biracial marriage made headlines and changed her life. Lipton's passionate and complicated seventeen-year marriage to Jones plunged her into motherhood and also into periods of confusion and difficulty. Her struggle to keep moving forward in the world while

maintaining a rich inner life informed many of her decisions as an adult. When Lipton's marriage to Jones ended, she returned to television, appearing in David Lynch's *Twin Peaks* as well as in *The Vagina Monologues* and other stage productions. But her most recent triumph has been her overcoming a surprising diagnosis of colon cancer in 2003. *Breathing Out* is full of fresh stories of life with the pop culture icons of our times, but is also a much more thoughtful book about life in the

limelight, work, motherhood, and marriage. It's a refreshing and real look at the life of an actress who became, in many senses, a woman of her times.
