 Alexandria  
 Recounts the extraordinary and thrilling story of the British spies  
 in revolutionary Russia, led by Mansfield Cumming, who would  
 one day pioneer the field of covert action and become MI6, and  
 their mission to foil Lenin's plot for global revolution. 40,000 first  
 printing.  
*The Russian Revolution* Cambridge University Press

An authoritative history of the Russian Revolution and the  
 "violent and disruptive acts" that created the first modern  
 totalitarian regime, portraying the crisis at the heart of the tsarist  
 empire "A deep and eloquent condemnation of the revolution and  
 its aftermath." —The New York Times Drawing on archival  
 materials released in Russia, Richard Pipes chronicles the  
 upheaval that began as a conservative revolt but was soon  
 captured by messianic intellectuals intent not merely on  
 reforming Russia but on remaking the world. He provides fresh  
 accounts of the revolution's personalities and policies, crises, and  
 cruelties, from the murder of the royal family through civil war,  
 famine, and state terror. Brilliantly and persuasively, Pipes shows  
 us why the resulting system owes less to the theories of Marx  
 than it did to the character of Lenin and Russia's long  
 authoritarian tradition. What ensues is a path-clearing work that  
 is indispensable to any understanding of the events of the  
 century.

**History of the Russian Revolution** Crown Currency  
 An eyewitness account of the world-changing uprising—from the  
 author of *Memoirs of a Revolutionary*. "A truly remarkable  
 individual . . . an heroic work" (Richard Allday of *Counterfire*).

Brimming with the honesty and passionate conviction for which he has become famous, Victor Serge's account of the first year of the Russian Revolution—through all of its achievements and challenges—captures both the heroism of the mass upsurge that gave birth to Soviet democracy and the crippling circumstances that began to chip away at its historic gains. Year One of the Russian Revolution is Serge's attempt to defend the early days of the revolution against those, like Stalin, who would claim its legacy as justification for the repression of dissent within Russia. Praise for Victor Serge "Serge is one of the most compelling of twentieth-century ethical and literary heroes." —Susan Sontag, MacArthur Fellow and winner of the National Book Award "His political recollections are very important, because they reflect so well the mood of this lost generation . . . His articles and books speak for themselves, and we would be poorer without them." —Partisan Review "I know of no other writer with whom Serge can be very usefully compared. The essence of the man and his books is to be found in his attitude to the truth." —John Berger, Booker Prize-winning author "The novels, poems, memoirs and other writings of Victor Serge are among the finest works of literature inspired by the October Revolution that brought the working class to power in Russia in 1917." —Scott McLemee, writer of the weekly "Intellectual Affairs" column for Inside Higher Ed

*The House of Government* Daniel Turner

On the 100th anniversary of the Russian Revolution, the epic story of an enormous apartment building where Communist true believers lived before their destruction *The House of Government* is unlike any other book about the Russian Revolution and the Soviet experiment. Written in the tradition of Tolstoy's *War and Peace*, Grossman's *Life and Fate*, and Solzhenitsyn's *The Gulag Archipelago*, Yuri Slezkine's gripping narrative tells the true story of the residents of an enormous Moscow apartment building where top Communist officials and their families lived before they were destroyed in Stalin's purges. A vivid account of the personal and public lives of Bolshevik true believers, the book begins with their conversion to Communism and ends with their children's loss of faith and the fall of the Soviet Union. Completed in 1931, the House of Government, later known as the House on the Embankment, was located across the Moscow River from the Kremlin. The largest residential building in Europe, it combined 505 furnished apartments with public spaces that included everything from a movie theater and a library to a tennis court and a shooting range. Slezkine tells the chilling story of how the building's residents lived in their apartments and ruled the Soviet state until some eight hundred of them were evicted from the House and led, one by one, to prison or their deaths. Drawing on letters, diaries, and interviews, and featuring hundreds of rare photographs, *The House of Government* weaves together biography, literary criticism, architectural history, and fascinating new theories of revolutions, millennial prophecies, and reigns of terror. The result is an unforgettable human saga of a building that, like the Soviet Union itself, became a haunted house, forever disturbed by the ghosts of the disappeared.

**A Short History of the Russian Revolution** Yale University Press

This Very Short Introduction provides an analytical narrative of the main events and developments in Soviet Russia between 1917 and 1936. It examines the impact of the revolution on society as a whole—on different classes, ethnic groups, the army, men and women, youth. Its central concern is to understand how one structure of domination was replaced by another. The book registers the primacy of politics, but situates political developments firmly in the context of massive economic, social, and cultural change. Since the fall of Communism there has been

much reflection on the significance of the Russian Revolution.

The book rejects the currently influential, liberal interpretation of the revolution in favour of one that sees it as rooted in the contradictions of a backward society which sought modernization and enlightenment and ended in political tyranny. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**A Documentary History of Communism: Communism and the world** Princeton University Press

1917: the year a series of rebellions toppled three centuries of autocratic rule and placed a group of political radicals in charge of a world power. Here, suddenly, was the first modern socialist state, "a kingdom more bright than any heaven had to offer". But the dream was short-lived, bringing in its wake seventy years of conflict and instability that nearly ended in nuclear war. How could such a revolution take place and what caused it to go so very wrong? Presenting a uniquely long view of events, Abraham Ascher takes readers from the seeds of revolution in the 1880s right through to Stalin's state terror and the power of the communist legacy in Russia today. Original and shrewd, Ascher's analysis offers an unparalleled introduction to this watershed period in world history

*Arc of Utopia* Basic Books

Ever since its first publication in 1992, the New York Times bestselling *The End of History and the Last Man* has provoked controversy and debate. "Profoundly realistic and important...supremely timely and cogent...the first book to fully fathom the depth and range of the changes now sweeping through the world." —The Washington Post Book World Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

*The End of Tsarist Russia* Simon and Schuster

From an award-winning scholar comes this definitive, single-volume history that illuminates the tensions and transformations of the Russian Revolution. In *The Russian Revolution*, acclaimed historian Sean McMeekin traces the events which ended Romanov rule, ushered the Bolsheviks into power, and introduced Communism to the world. Between 1917 and 1922, Russia underwent a complete and irreversible transformation. Taking advantage of the collapse of the Tsarist regime in the middle of World War I, the Bolsheviks staged a hostile takeover of the Russian Imperial Army, promoting mutinies and mass desertions of men in order to fulfill Lenin's program of turning the "imperialist war" into civil war. By the time the Bolsheviks had snuffed out the last resistance five years later, over 20 million people had died, and the Russian economy had collapsed so completely that Communism had to be temporarily abandoned. Still, Bolshevik rule was secure, owing to the new regime's monopoly on force, enabled by illicit arms deals signed with capitalist neighbors such as Germany and Sweden who sought to benefit politically and economically from the revolutionary chaos in Russia. Drawing on scores of previously untapped files from Russian archives and a range of other repositories in Europe, Turkey, and the United States, McMeekin delivers exciting, groundbreaking research about this turbulent era. The first comprehensive history of these momentous events in two decades, *The Russian Revolution* combines cutting-edge scholarship and a fast-paced narrative to shed new light on one

of the most significant turning points of the twentieth century.

The Last of the Tsars Simon and Schuster

The Iron Curtain and nuclear missiles. The Cold War was a scary situation. As the Capitalist West faced off against the Communist East, the world anticipated a nuclear showdown. Witness the Berlin Wall - a symbol of the great divide. See the Cold War conflicts. Be amazed at super spy gadgets, and marvel at the space race. Simple History, telling the story without information overload.

Year One of the Russian Revolution Casemate Academic

The war in Vietnam was a bitter and unpopular conflict for the American soldiers and people back home. It was also a war where the media played a big role. Both French colonial rule and the American intervention in Vietnam failed, but why? Find out inside! Discover a timeline telling the story of the conflict and explore the battles, technology and tactics of combat. Imagine you're in the humid jungles of Vietnam, the Vietcong ready to ambush your squad any minute and booby traps lay hidden across the ground and you're only a teenager. That was the experience for many Americans in the sixties.

A People's Tragedy Princeton University Press

The Clever Teens' Guide to the Russian Revolution: The perfect guide for background reading or revision. The communist system unleashed by the Russian Revolution of 1917 was the greatest political experiment ever conducted. The revolution promised freedom from the shackles of imperialism, corruption and exploitation but until its collapse in 1991, the peoples of the vast Soviet empire endured 70 years of misguided socialism and totalitarianism. The Clever Teens' Guide to the Russian Revolution covers all the major facts and events giving you a clear and straightforward overview: from the circumstances behind the rise of Lenin and the Bolsheviks, to the consequences of their struggle for a new socialist utopia.

**Simple History: A simple guide to World War I -**

**CENTENARY EDITION** Icon Books Company

An Economist Best Book of the Year A Financial Times Best Book of the Year Winner of the the Pushkin House Russian Book Prize Finalist for the Lionel Gelber Prize An Amazon Best Book of the Month (History) One of the world's leading scholars offers a fresh interpretation of the linked origins of World War I and the Russian Revolution "Lieven has a double gift: first, for harvesting details to convey the essence of an era and, second, for finding new, startling, and clarifying elements in familiar stories. This is history with a heartbeat, and it could not be more engrossing."—Foreign Affairs World War I and the Russian Revolution together shaped the twentieth century in profound ways. In *The End of Tsarist Russia*, acclaimed scholar Dominic Lieven connects for the first time the two events, providing both a history of the First World War's origins from a Russian perspective and an international history of why the revolution happened. Based on exhaustive work in seven Russian archives as well as many non-Russian sources, Dominic Lieven's work is about far more than just Russia. By placing the crisis of empire at its core, Lieven links World War I to the sweep of twentieth-century global history. He shows how contemporary hot issues such as the struggle for Ukraine were already crucial elements in the run-up to 1914. By incorporating into his book new approaches and comparisons, Lieven tells the story of war and revolution in a way that is truly original and thought-provoking.

The Russian Revolution Da Capo Press

Although Lenin and his fellow revolutionaries never called themselves Utopians—believing strictly in a science of revolution, they considered Utopians to be merely dreamers—they were enormously inspired by the grand humanitarian aims of the French Revolution of 1789. Taking up this French revolutionary

agenda and reinforcing it with German philosophy, Russians formed a beautiful vision in which an imaginary theology blended with a premier role for art. *Arc of Utopia* offers a fresh look at these German philosophical origins of the Russian Revolution. In the book, Lesley Chamberlain explains how influential German philosophers like Kant, Schiller, and Hegel were dazzled by contemporary events in Paris, and how this led a century later to an explosion of art and philosophy in the Russian streets, with a long-repressed people reinventing liberty, equality, and fraternity in their own cultural image. Chamberlain examines how some of the greatest Russian names of the nineteenth-century—from Alexander Herzen to Mikhail Bakunin, Ivan Turgenev to Fyodor Dostoevsky—defined their visions for Russia in relationship to their views on German enthusiasm for revolutionary France. With the centenary of the Russian Revolution approaching, *Arc of Utopia* is an important and timely revisioning of this tumultuous moment in history.

**History's Greatest Heist** Haymarket Books

The destruction of the Czars which brought about the reign of revolutions from 1905–1917 in Russia looms as the crucial political event of the twentieth century. In little more than a decade the Romanov dynasty was toppled, and its time-honored institutions repudiated. How did it happen? How could Nicholas and Alexandra, the nobility, middle class anarchists—even Lenin himself—not foresee the catastrophic changes that were shaking the empire? Why could nothing be done? And why were the efforts so ineffectual? *Black Night, White Snow* captures the rich drama of this whole period. With the artistry of a Balzac, Harrison Salisbury exposes the strata of Russian society, with its decedents, prophetic poets, religious fanatics, and newly liberated serfs. From archival sources within the Soviet Union, interviews, and his personal photography collection, he recreates the story as it happened. Hard data on Russia's economy, a first-hand knowledge of the country, and a historian's gift of compression are combined in a fast-paced narrative that reads with the ease of a good novel and the urgency of a newspaper headline.

A Short History of the Russian Revolution Vintage

An unparalleled account of one of the most pivotal and hotly debated events in world history.

Simple History: the Cold War Bloomsbury Publishing

Vast in scope, based on exhaustive original research, and written with passion, narrative skill and human sympathy, this book offers an account of the Russian Revolution for a new generation.

**A Concise History of the Russian Revolution** Penguin Classics

The Russian Civil War of 1917-1920, out of which the Soviet Union was born, was one of the most significant events of the twentieth century. The collapse of the Tsarist regime and the failure of the Kerensky Provisional Government nearly led to the complete disintegration of the Russian state. This book, however, is not simply the story of that collapse and the rebellion that accompanied it, but of the painful and costly reconstruction of Russian power under a Soviet regime. Evan Mawdsley's lucid account of this vast and complex subject explains in detail the power struggles and political manoeuvres of the war, providing a balanced analysis of why the Communists were victors. This edition includes illustrations, a new preface and an extensively updated bibliography.

The Commanding Heights Clever Teens

Designed for children aged 9 -12 Visit the website information: [www.simplehistory.co.uk](http://www.simplehistory.co.uk) Build your collection today! [Russian Roulette](#) Bloomsbury Publishing USA  
In 1916, in an exchange of human flesh for war material, the Russian government sent to France two brigades to fight on the

side of their French allies. By the end of World War I, these two brigades had experienced their own form of the Russian Revolution, had been isolated at a southern training post in a discipline move by the French government, had battled against each other in what was one of the first confrontations of the Russian Civil War, and had emerged from the conflict as a single force, the Russian Legion of Honor, which would remain loyal to France until the end of the war. The remarkable story of these Russian soldiers has been overlooked by historians until now. Jamie Cockfield here explores the journey and transformation of these men, and in so doing, he examines the impact of the revolution on the Russians who were caught in the middle of wartime alliances and nationalist ardor.
