Complete Works of Sandro Botticelli Parkstone International

Excerpt from Sandro Botticelli Rome than he does to Florence, and his most famous paintings are to be seen in the Vatican chapel. But Sandro spent almost the whole of his life in Florence and IS closely associated with her greatest age and the golden daysv when Giovanni Rucellai thanked God that he had been allowed to live. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Complete Works of Sandro Botticelli (Delphi Classics) Giunti Editore

Examines the life and work of the Italian painter of the early Renaissance, describing and giving examples of his art.

Sandro Botticelli Legare Street Press

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Forgotten Books

Excerpt from The Life and Art of Sandro Botticelli Was kindly received by the public last autumn.

On larger lines and with greater fullness of detail, I have here tried to give some account of Sandro Botticelli, both as the painter and the man; of his relations with the Medici and the Florentine

humanists on the one hand, and of his connection with Savonarola and the Piagnone revival on the other. At the same time I have endeavoured to follow the course of his artistic training and development, and to enumerate and describe the works which, in the opinion of the best critics, may be attributed to this master with certainty. Although of late years much study has been devoted to Botticelli and his art, our knowledge of the great artist's history remains scanty and limited, and no complete record of his life can be given. But his personality and his works are both of them so attractive, and the interest which he inspires at the present time is so deep, that this study, incomplete and fragmentary as it necessarily is, may be acceptable to those who wish to gain a clearer knowledge of one of the most remark able painters of the Florentine Renaissance. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Botticelli Peter Lang Incorporated, International Academic Publishers

Florence's golden child: The Early Renaissance master During Sandro Botticelli's lifetime (1444/45-1510), the influence of his art scarcely reached beyond his native Florence, and following his death he was soon forgotten, to be rediscovered only in the 19th century by the Pre-Raphaelites. Since then, Botticelli has ranked among the greatest of the Renaissance artists. In the Uffizi Gallery in Florence, paintings such as "Primavera" and "The Birth of Venus" are among the foremost attractions for tourists and art lovers. Botticelli's captivating figures of women, his intimate portrayals of the Madonna and Child, and the angelic beauty of his adolescents are famous the world over today. The artist's life and work are explored in this thoughtful and beautifully illustrated study.About the Series: Each book in TASCHEN's Basic Art Series features: a detailed chronological summary of the life and oeuvre of the artist, covering his or her cultural and historical importance a concise biography approximately 100 colour illustrations with explanatory captions

Sandro Botticelli Parkstone International

A revealing look at the commercial strategy and diverse output of this canonical Renaissance artist. In this vivid account, Ana Debenedetti reexamines the life and work of Renaissance artist Sandro Botticelli through a novel lens: his business acumen. Focusing on the organization of Botticelli's workshop and the commercial strategies he devised to make his way in Florence's very competitive art market, Debenedetti looks with fresh eyes at the remarkable career and output of this pivotal artist within the wider context of Florentine society and culture. Uniquely, Debenedetti evaluates Botticelli's celebrated works, like The Birth of Venus, alongside less familiar forms such as tapestry and embroidery, showing the breadth of the artist's oeuvre and his talent as a designer across media.

Sandro Botticelli Weidenfeld & Nicolson

Presents Botticelli's paintings, critical comments, and a chronological survey of his life and work.

Botticelli UCL Press

In this interdisciplinary study, Sandro Botticelli's famous Renaissance masterpiece Primavera is analyzed iconographically to demonstrate the possibility that it represents a deliberate and considered attempt on the part of the artist to set forth in artistic terms a Neoplatonic quadripartite «programme» provided by Marsilio Ficino. Beneath the surface inspirations of myth, poetry and legend represented in terms of easily recognizable gods and goddesses, there appears to be an allegorical framework on which the artistic programme was built. This innovate research of the Primavera will make a contribution not only to the field of Italian Renaissance art history, but also to the fields of comparative literature, philosophy, history and religion.

The Life And Art Of Sandro Botticelli Forgotten Books

The recent exhibitions dedicated to Botticelli around the world show, more than ever, the significant and continued debate about the artist. Botticelli Past and Present engages with this debate. The book comprises four thematic parts, spanning four centuries of Botticelli's artistic fame and reception from the fifteenth century. Each part comprises a number of essays and includes a short introduction which positions them within the wider scholarly literature on Botticelli. The parts are organised chronologically beginning with discussion of the artist and his working practice in his own time, moving onto the progressive rediscovery of his work from the late eighteenth to the turn of the twentieth century, through to his enduring impact on contemporary art and design. Expertly written by researchers and eminent art historians and richly illustrated throughout, the broad range of essays in this book make a valuable contribution to Botticelli studies.

Sandro Botticelli Taschen

Sullo scenario di una Firenze mercantile e umanista, raffinata e ricca, dominata dalla personalità di Lorenzo il Magnifico si profila la vicenda artistica di Botticelli (1445 - 1510), che in questo contesto crea composizioni religiose e allegorie mitologiche, rebus figurativi e profane icone del Rinascimento. L'esordio da orafo e l'apprendistato presso Filippo Lippi rappresentano le prime tappe del suo percorso, determinanti per la comprensione del suo più maturo linguaggio pittorico. Le fattezze dei personaggi rievocano l'atmosfera della corte medicea, mentre le immagini sacre rispondono alle esigenze di una devozione privata e colta e, negli ultimi capolavori, le crescenti

inquietudini religiose postsavonaroliane.

The Art of Botticelli ABDO Publishing Company

He was the son of a citizen in comfortable circumstances, and had been, in Vasari's words, "instructed in all such things as children are usually taught before they choose a calling." However, he refused to give his attention to reading, writing and accounts, continues Vasari, so that his father, despairing of his ever becoming a scholar, apprenticed him to the goldsmith Botticello: whence came the name by which the world remembers him. However, Sandro, a stubborn-featured youth with large, quietly searching eyes and a shock of yellow hair - he has left a portrait of himself on the right-hand side of his picture of the Adoration of the Magi - would also become a painter, and to that end was placed with the Carmelite monk Fra Filippo Lippi. But he was a realist, as the artists of his day had become, satisfied with the joy and skill of painting, and with the study of the beauty and character of the human subject instead of religious themes. Botticelli made rapid progress, loved his master, and later on extended his love to his master's son, Filippo Lippi, and taught him to paint, but the master's realism scarcely touched Lippi, for Botticelli was a dreamer and a poet. Botticelli is a painter not of facts, but of ideas, and his pictures are not so much a representation of certain objects as a pattern of forms. Nor is his colouring rich and lifelike; it is subordinated to form, and often rather a tinting than actual colour. In fact, he was interested in the abstract possibilities of his art rather than in the concrete. For example, his compositions, as has just been said, are a pattern of forms; his figures do not actually occupy well-defined places in a well-defined area of space; they do not attract us by their suggestion of bulk, but as shapes of form, suggesting rather a flat pattern of decoration. Accordingly, the lines which enclose the figures are chosen with the primary intention of being decorative. It has been said that Botticelli, "though one of the worst anatomists, was one of the greatest draughtsmen of the Renaissance." As an example of false anatomy we may notice the impossible way in which the Madonna's head is attached to the neck, and other instances of faulty articulation and incorrect form of limbs may be found in Botticelli's pictures. Yet he is recognised as one of the greatest draughtsmen: he gave to 'line' not only intrinsic beauty, but also significance. In mathematical language, he resolved the movement of the figure into its factors, its simplest forms of expression, and then combined these various forms into a pattern which, by its rhythmical and harmonious lines, produces an effect upon our imagination, corresponding to the sentiments of grave and tender poetry that filled the artist himself. This power of making every line count in both significance and beauty distinguishes the great master- draughtsmen from the vast majority of artists who used line mainly as a necessary means of representing concrete objects.
